

SECTION 17

CHANGE IN SIZE OF SERVICE

Changes in the size of a standard service requested by the owner of the premises or required by the District will be made subject to the following provisions:

**A. REDUCTION IN SIZE OF SERVICE**

A requested change to a smaller size service must be approved by the District and will be made without charge to the applicant after the applicant has paid the charge as set forth in the Schedule of Rates and Charges.

**B. INCREASE IN SIZE OF SERVICE**

A requested increase in the size of a service must be approved by the District and will be made by the District after the applicant has paid the difference between the installation and System Capacity Charges of the new service size and the existing service size as set forth in the Schedule of Rates and Charges.

If the customer's rate of consumption results in excessive wear of the meter or is such that the meter is unable to measure the flow of water accurately, the District may increase the size of the service and require payment of the appropriate installation, service charges, and System Capacity Charge as provided in the Schedule of Rates and Charges, or it may install a device to limit the use of water to the rated capacity of the meter.

Change in size of service which involves a change in location will only be approved by the District subject to the provisions of Section 18 and payment of the applicable relocation cost.

An installation charge, as provided in the Schedule of Rates and Charges, will be required when a customer applies for a change in type, increase in size, or change in location of an existing service connection.
