## INDEPENDENT AUDITORS' REPORT

To the Board of Directors  
East Bay Municipal Utility District Employees' Retirement System  
Oakland, California

### ***Report on the Financial Statements***

We have audited the accompanying financial statements of the East Bay Municipal Utility District Employees' Retirement System (the System), a component unit of the East Bay Municipal Utility District (District), as of and for the year ended June 30, 2020, and the related notes to the financial statements, as listed in the table of contents.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditor's Responsibility***

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the System's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the System's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

To the Board of Directors  
East Bay Municipal Utility District Employees' Retirement System  
Oakland, California

### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the plan net position of the East Bay Municipal Utility District Employees' Retirement System, as of June 30, 2020, and the respective changes in plan net position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### **Other Matters**

#### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, and other required supplementary information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### *Prior Year Comparative Information*

The financial statements include summarized prior-year comparative information. Such information does not include all of the information required or sufficient detail to constitute a presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the System's financial statements for the year ended June 30, 2019, from which such summarized information was derived.

### **Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated August 31, 2020 on our consideration of the System's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the System's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the System's internal control over financial reporting and compliance.

Management's Discussion and Analysis

(Dollars in thousands)

June 30, 2020

This section presents management's analysis of the East Bay Municipal Utility District Employees' Retirement System's (the System) financial condition and activities as of and for the year ended June 30, 2020. Management's Discussion and Analysis (MD&A) is intended to serve as an introduction to the System's basic financial statements. The MD&A represents management's examination and analysis of the System's financial condition and performance.

This information should be read in conjunction with the audited financial statements that follow this section. The information in the MD&A is presented under the following headings:

- Organization and Business
- Overview of the Financial Statements
- Financial Analysis: *Financial Highlights*
- Financial Analysis: *Financial Condition*
- Factors Impacting Future Periods
- Request for Information

**Organization and Business**

The East Bay Municipal Utility District (the District) is the sponsoring agency of the System and provides for its funding. The System is accounted for on a flow of economic resources measurement focus, using the accrual basis of accounting. Under this method, all assets and deferred outflow, all liabilities and deferred inflow associated with operations are included on the statement of plan net position, and revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

The System administers a single-employer, contributory, defined benefit pension plan (the Plan) which provides retirement, disability, survivorship, and postemployment healthcare benefits for eligible directors, officers, and employees of the District. The Plan is administered by a retirement board composed of three members appointed by the District's board of directors, two members elected by and from the active membership of the Plan, and a nonvoting member elected by the retirees of the Plan. Retirement Ordinance Number 40 assigns the authority to establish Plan benefit provisions to the District's board of directors.

All regular full-time employees of the District are members of the Plan. In accordance with the ordinance governing the Plan, eligible employees become members on the first day they are physically on the job. Plan defined benefits vest in part with members after completion of five years of continuous, full-time employment.

For additional information, please see the notes to the basic financial statements.

EMPLOYEES' RETIREMENT SYSTEM**  
(A Component Unit of the East Bay Municipal Utility District)

Management's Discussion and Analysis

(Dollars in thousands)

June 30, 2020

**Overview of the Financial Statements**

The basic financial statements include a *statement of plan net position*, a *statement of changes in plan net position*, and *notes to basic financial statements*. The report also contains other required supplementary information in addition to the financial statements.

The system's financial statements include:

The *Statement of Plan Net Position and the Statement of Changes in Plan Net Position* report information to assist readers in determining whether the System's finances as a whole are better off or worse off as a result of the year's activities. These two statements report the net assets of the System and changes in them, respectively.

The *Statement of Plan Net Position* presents information on all assets and liabilities of the System, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the System is improving or deteriorating.

The *Statement of Changes in Plan Net Position* presents the results of the System's activities over the course of the fiscal year and information as to how the *net position* changed during the year. This statement measures the results of the System's investment performance as well as the System's income from contributions and expenses, including the payment of benefits, refunds of contributions, and administrative and investment expense. All changes in net position are reported during the period the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods.

The *Notes to the Basic Financial Statements* provide additional information that is essential to a full understanding of the data provided in the basic financial statements. Effective fiscal year 2017, GASB 74 – *Financial Reporting for Postemployment Benefit Plans other than Pension Plans*, requires the System to disclose additional information regarding post-employment health insurance benefits (the OPEB Plan). These disclosures can be found in Note 7. The notes to the basic financial statements can be found on pages 13 to 35 of this report.

*Other Information.* In addition to the financial statements and accompanying notes, this report also presents certain *required supplementary information* concerning the District's contributions and the System's progress in funding its obligation to provide pension and postemployment healthcare benefits to the employees of the District. The required supplementary information can be found on page 37 to 46 of this report.

Management's Discussion and Analysis

(Dollars in thousands)

June 30, 2020

**Financial Analysis: Financial Highlights**

- The total assets of the System exceeded the total liabilities by \$1,857,609 as of June 30, 2020 (Table 1). All of the net position is available to meet the System's ongoing obligations to Plan participants and their beneficiaries.
- Net position increased by \$24,644 or 1.34% during the fiscal year ended June 30, 2020 compared to the increase of \$79,725 or 4.55% of the prior year. The District contributions of \$88,734 and employee contributions of \$18,885 were offset in part by the cost of pension, health insurance benefits, refunds of contributions, and administrative expenses of \$123,838. The net investment income declined \$52,391, or 56.18% to \$40,863.
- As of June 30, 2020, 26.40% of the System's investments were in fixed income securities, 26.20% were in domestic equities, 21.80% were in international equities, 20.20% were in covered calls, 5.10% was in Real Estate, and 0.20% were in cash and cash equivalents. As of June 30, 2019, 26.00% of the System's investments were in fixed income securities, 25.00% were in domestic equities, 23.10% were in international equities, 20.40% were in covered calls, 5.10% was in Real Estate, and 0.30% were in cash and cash equivalents.
- The Plan's funding objective is to meet long-term benefit obligations through contributions and investment income. As of June 30, 2019, the date of the last actuarial valuation, the Pension Plan's funded ratio was 75.90% and the Post-employment Health Care plan funded ratio was 32.99%.
- During the fiscal year ended June 30, 2020, combined District and employee contributions increased by \$5,203 or 5.08% to \$107,619 (Table 2). For the 1980 Plan, the District's average contribution rate and the employees' contribution rate remained unchanged at 43.18% and 8.75%, respectively. For the 2013 Plan, the District's average contribution rate and the employees' contribution rate remained unchanged at 36.16% and 8.84%, respectively.
- Retirement, Disability, and Survivor Benefit payments increased by \$7,408 or 7.02% to \$112,926 (Table 3). Cost-of-living increased 3.00% in July 2019 and monthly benefits paid increased 4.02% from July 1, 2019 to June 30, 2020 due to net increases in the number of retirees and beneficiaries.
- Health Insurance Benefits (HIB) increased by \$313, or 3.62%, to \$8,963 (Table 3), primarily due to the increase in the number of retirees receiving health benefits.
- Refunds of Contributions to terminated or deceased employees increased by \$195, or 73.03%, to \$462 (Table 3).
- Administrative expenses (not including Investment Advisors' Fees or Custodial Asset Management Fees) decreased by \$23, or 1.52%, to \$1,487 (Table 3), primarily due to decreased administrative services fee of \$63 offset by increased actuarial audit of \$42.
- Investment Advisors' Fees decreased by \$129, or 2.58%, to \$4,864 primarily due to the fact that the prior fiscal year included delayed investment advisors' fee payments.

Management's Discussion and Analysis

(Dollars in thousands)

June 30, 2020

**Financial Analysis: Financial Condition**

The System's financial condition reflects an increase of \$120,630 in the Projected Benefit Obligation (PBO) as of the June 30, 2019, versus the previous actuarial report of June 30, 2018. Because of the increased contributions and strong market performance, the market value of assets as of June 30, 2019, increased \$79,725 during the period of July 1, 2018 to June 30, 2019 based on the actuarial reports. The PBO funded ratio at the end of the previous fiscal year is a factor in the formula that limits the cost-of-living adjustment (COLA) at the end of the current fiscal year. The PBO funded ratio was 75.90% as of June 30, 2019, versus 76.50% as of June 30, 2018. Whenever the PBO funded ratio is less than 85.00%, the COLA for pension beneficiaries is limited to a maximum of 3.00%.

The funded ratio for the System increased from 73.20% to 73.80% as of the June 30, 2019 actuarial report versus the previous actuarial report of June 30, 2018. The component Plans of Pension and Health Insurance Benefit changed from 75.60% to 75.90% and 29.70% to 32.99% funded, respectively.

During the year ended June 30, 2020, the System's net position increased by \$24,644 compared to an increase of \$79,725 in 2019.

Management's Discussion and Analysis

(Dollars in thousands)

June 30, 2020

The financial reserves needed to fund retirement and health benefits are accumulated through the collection of employer and employee contributions and through investment income. As Table 2 shows, the System experienced net investment gain for fiscal year 2020.

Management's Discussion and Analysis

(Dollars in thousands)

June 30, 2020

Beginning fiscal year 2014, the District is required to present the past 10 years of Net Pension Liability (NPL) for the Employees' Retirement System pension plan (excluding Other Post-Employment Benefits) as it becomes available. The District has provided the past three fiscal years from 2018 through 2020 in the footnotes and the past seven fiscal years from 2014 through 2020 in the required supplemental information. The NPL was measured as of June 30, 2019 and 2018 have been determined from the actuarial valuations as of June 30, 2019 and 2018 respectively. As summarized in Table 4, the NPL increased by \$44,149 from \$504,500 as of June 30, 2019 to \$548,649 as of June 30, 2020 primarily due to higher than expected salary increases for continuing active members, higher than expected current and future COLA increases for retirees and beneficiaries, and the approximate return on the market value of assets for the Pension Plan of 5.34% during fiscal year 2019 that was less than the assumption rate of 7.00% used in the June 30, 2018 valuation.

**(Table 4)**

**Net Pension Liability**

Years ended June 30, 2020 and 2019

	<u>2020</u>	<u>2019</u>	<u>Variance</u>	<u>%</u>
Net Pension Liability	\$ 548,649	\$ 504,500	\$ 44,149	8.75%

EMPLOYEES' RETIREMENT SYSTEM**  
(A Component Unit of the East Bay Municipal Utility District)

Management's Discussion and Analysis

(Dollars in thousands)

June 30, 2020

Beginning fiscal year 2017, the District is required to present the past 10 years of Net OPEB Liability (NOL) for the Employees' Retirement System health benefit plan as it becomes available. The District has provided the past three fiscal years from 2018 through 2020 in the footnotes and the past five fiscal years from 2016 through 2020 in the required supplemental information. The NOL was measured as of June 30, 2019 and 2018 have been determined from the actuarial valuations as of June 30, 2019 and 2018 respectively. As summarized in Table 5, the NOL increased by \$1,863 from \$131,008 as of June 30, 2019 to \$132,871 as of June 30, 2020 primarily a result of the lower blended discount rate, offset somewhat by a reduction in the spousal coverage assumption, subsidies under the HIB limit increasing less than projected in the prior valuation, and the reduction in the proportion of future retirees expected to enroll in a District medical insurance plan.

**(Table 5)**  
**Net OPEB Liability**  
Years ended June 30, 2020 and 2019

	<u>2020</u>	<u>2019</u>	<u>Variance</u>	<u>%</u>

**EAST BAY MUNICIPAL UTILITY DISTRICT  
EMPLOYEES' RETIREMENT SYSTEM**  
(A Component Unit of the East Bay Municipal Utility District)

Notes To Basic Financial Statements  
(Dollars in thousands)  
For the Year Ended June 30, 2020

**NOTE 1 – PLAN DESCRIPTION**

**A. General**

The East Bay Municipal Utility District (the District) Employees' Retirement System (the System) was established in 1937 to administer a single-employer, contributory, defined benefit pension plan (the Pension Plan). The System provides retirement, disability, survivorship, and post-employment health insurance benefits (the OPEB Plan) for eligible directors, officers, and employees of the District. The Pension Plan and the OPEB Plan together are referred to as the Plan. The System is administered by a Retirement Board composed of three members appointed by the Board of Directors of the District, two members elected by and from the active membership, and one non-voting member elected by and from the retired membership of the System. Retirement Ordinance No. 40 (Ordinance) assigns the authority to establish Plan benefit provisions to the District's Board of Directors.

The System is exempt from the regulations of the Employee Retirement Income Security Act of 1974. The System is also exempt from federal income taxes and California franchise taxes.

The System is an integral part of the District and the District appoints the majority of the retirement board of the System and provides for its funding. Accordingly, the System's operations have been reported as a Pension and Other Employee Benefit Trust Fund in the District's basic financial statements.

**B. Membership**

All regular full-time employees of the District are members of the Plan in addition to certain job share and intermittent employees. In accordance with the ordinance governing the System, eligible employees become members on the first day they are physically on the job. Members become vested in the Plan after five years of continuous full-time employment. Vested members who terminate employment may elect a refund of their contributions or leave them in the Plan until eligible to receive benefits.

The Retirement Board shall semi-annually declare the rate of interest for the preceding six (6) months to be credited on accumulated contributions of members, which rate shall be based upon criteria to be established by the Retirement Board. In accordance with Retirement Board Rule B-9, the annual rate of interest credited to member contributions will be the lesser of the actuarially assumed rate of interest or the five (5) year average rate of return on Retirement System Investments.

For the period ending June 30, 2019, the actuarially assumed rate of interest was 7.25% and the five-year average rate of return as of June 30, 2019 was 7.10%. Therefore, the Board Resolution No. 6905 declares that the interest credited to the balance of member contributions effective June 30, 2019 will be at the annual rate of 7.10%. Interest was credited at a semi-annual rate of 3.55% for the six months ended December 31, 2019.

**EAST BAY MUNICIPAL UTILITY DISTRICT  
EMPLOYEES' RETIREMENT SYSTEM**  
(A Component Unit of the East Bay Municipal Utility District)

Notes To Basic Financial Statements  
(Dollars in thousands)  
For the Year Ended June 30, 2020

**NOTE 1 – PLAN DESCRIPTION (Continued)**

For the period ending December 31, 2019, the actuarially assumed rate of interest was 7.00% and the five-year average rate of return as of December 31, 2019 was 8.00%. Therefore, the Board Resolution No. 6916 declares that the interest credited to the balance of member contributions effective June 30, 2020 will be at the annual rate of 7.00%. Interest was credited at a semi-annual rate of 3.50% for the six months ended June 30, 2020.

Membership in the Pension Plan consisted of the following as of June 30, 2019, the date of the latest actuarial valuation:

Retirees and beneficiaries receiving benefits	1,844
Terminated plan members entitled to but not yet receiving benefits	303
Active plan members	<u>1,847</u>
Total	<u><u>3,994</u></u>

**C. Retirement Benefits and Allowances**

There are two tiers in effect currently, the 1980 Plan and the 2013 Plan. Employees who became Members of the Retirement System prior to January 1, 2013, or who have reciprocal membership prior to January 1, 2013 are in the 1980 Plan (1980 Plan Members), employees who became Members on or after January 1, 2013, or who have reciprocal membership after January 1, 2013 are in the 2013 Plan (2013 Plan Members).

1980 Plan Members may elect voluntary reduced service retirement upon attaining the age of 54 and completing 5 years of continuous full-time employment. Members may elect voluntary unreduced service retirement upon attaining the age of 62 and completing 5 years of continuous full-time employment or age 65 without restriction. Members who continue to work upon attaining the normal retirement age of 65 continue to contribute to the Plan, and at the time they retire, computation of their retirement allowance is based upon their compensation and length of service as of the date of retirement. Service retirement allowances are computed by formulas specified in the Ordinance and are based on date of employment, length of employment, age at date of retirement, and compensation earned during employment.

2013 Plan Members may elect voluntary reduced service upon attaining the age of 52 and completing 5 years of continuous full-time employment. Members may elect voluntary unreduced service retirement upon attaining the age of 67 and completing 5 years of continuous full-time employment. Members who continue to work upon attaining the normal retirement age of 67 continue to contribute to the Plan, and at the time they retire, computation of their allowance is based upon their compensation and length of service as of the date of retirement. Service retirement allowances are computed by formulas specified in the Ordinance and are based on length of service, age at retirement, and compensation earned during employment.

**EAST BAY MUNICIPAL UTILITY DISTRICT  
EMPLOYEES' RETIREMENT SYSTEM**  
(A Component Unit of the East Bay Municipal Utility District)

Notes To Basic Financial Statements  
(Dollars in thousands)  
For the Year Ended June 30, 2020

**NOTE 1 – PLAN DESCRIPTION (Continued)**

***D. Disability and Death Benefits and Allowances***

Members may receive disability retirement benefits prior to age 65 if the member is determined to be physically or mentally incapacitated, provided the member has 8 or more years of continuous full-time employment. The allowance for disability retirement is computed by a formula specified in the Ordinance and is based upon compensation earnable during employment, years of continuous service, and date upon which the retiring individual became a member. There is a guaranteed minimum disability benefit equal to the greater of one-third of terminal compensation (final average salary) or the retirement allowance, based on the disability formula.

Death benefits are payable to the estate or beneficiary of a member who dies before retirement. Survivorship benefits are payable to the spouse of a member who dies after retirement, or who was eligible but had not retired from service, provided the spouse was married to the member at the date of retirement and for at least one year prior to the member's death.

***E. Post-Employment Healthcare Benefits***

Post-employment healthcare and similar benefit allowances are provided to Members who retire from the District or to their surviving spouses. As of June 30, 2019, there were 1,646 participants receiving these health care benefits.

Effective July 1, 1996, a 20-year vesting schedule for full benefits was implemented for all new participants. Eligible participants are reimbursed up to \$450 per month for service members and up to \$550 for members with a spouse or registered domestic partner for any combined health, dental, or long-term care insurance premiums paid by the participant or his/her surviving spouse. Effective July 1, 1999, retirees may be reimbursed up to the designated maximum for the combined health insurance premiums for themselves, their current spouses, or registered domestic partners. The benefits were funded entirely by the District on an actuarial basis up until June 17, 2002. Effective June 18, 2002, a portion of the post-employment healthcare benefit costs is recovered through employee contributions. The actual benefits paid in cash to retirees were \$8,963 and \$8,650 and for the years ended June 30, 2020 and 2019, respectively.

Membership in the OPEB Plan consisted of the following as of June 30, 2019, the measurement date of the latest actuarial valuation:

Retirees and beneficiaries receiving benefits	1,646
Terminated plan members entitled to but not yet receiving benefits	303
Active plan members	<u>1,847</u>
Total	<u><u>3,796</u></u>

(A Component Unit of the East Bay Municipal Utility District)

Notes To Basic Financial Statements  
(Dollars in thousands)  
For the Year Ended June 30, 2020

**NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**A. *Basis of Accounting and Presentation***

The System's activities are accounted for on a flow of economic resources measurement focus, using the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions to the Plan are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits, refunds, and other liabilities are recognized when due and payable in accordance with the terms of the Plan.

The basic financial statements include partial prior year comparative information. A complete presentation of the prior year information can be found in the System's financial statements for the year ended June 30, 2019.

**B. *Investments and Fair Value Measurements***

Investments are reported at fair value. Securities and bonds traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Investments that have no quoted market price are reported at estimated fair value, which is determined based on yields equivalent for such securities or for securities of comparable maturity, quality, and type as obtained from market makers. Measurement of the fair value of real estate investments is estimated by the investment managers and reflects both internal and independent appraisals of real estate properties.

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The System categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The fair value hierarchy categorizes the inputs to valuation techniques used to measure fair value into three levels based on the extent to which inputs used in measuring fair value are observable in the market.

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 inputs are inputs – other than quoted prices included within level 1 – that are observable for an asset or liability, either directly or indirectly.

Level 3 inputs are unobservable inputs for an asset or liability.

If the fair value of an asset or liability is measured using inputs from more than one level of the fair value hierarchy, the measurement is considered to be based on the lowest priority level input that is significant to the entire measurement.

The System presents in the Statements of Changes in Plan Net Position the net change in the fair value of its investments, which consists of the realized gains or losses and the unrealized appreciation (depreciation) on those investments. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

**EAST BAY MUNICIPAL UTILITY DISTRICT  
EMPLOYEES' RETIREMENT SYSTEM**  
(A Component Unit of the East Bay Municipal Utility District)

Notes To Basic Financial Statements  
(Dollars in thousands)  
For the Year Ended June 30, 2020

**NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

Each of the financial instruments invested in by the System represents a potential concentration of credit risk. However, as the portfolio and the components of the various instruments are diversified and issuers of securities are dispersed throughout many industries and geographical locations, the concentrations of credit risk are limited.

The System invests in a combination of stocks, bonds, fixed income securities, real estate, and other investment securities. These investments are exposed to various risks, such as interest rate and market risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those such changes could materially affect the amounts reported in the Statement of Plan Net Position.

Retirement Board policies permit the System to use investments of the Plan to enter into securities lending transactions, which are loans of securities to broker-dealers and other entities for collateral with a simultaneous agreement to return collateral for the same securities in the future. The System's securities custodian is an agent in lending the Plan's securities for cash collateral, U.S. government securities, and irrevocable letters of credit of 102% for domestic securities and 105% for international securities lent.

As of June 30, 2020, the System had no credit risk exposure to borrowers because the amounts the System owed the borrowers exceeded the amounts the borrowers owed the System. Contracts with the lending agent require them to indemnify the System under certain circumstances if the borrowers fail to return the securities (and if the collateral is inadequate to replace the securities lent) or fail to pay the System for income distributions by the securities issuers while the securities are on loan. The risk of any loss of collateral or investment of cash collateral (including a loss of income or principal, or loss of market value thereon) lies with the System, except for losses resulting from negligence or intentional misconduct of the agent in performing the duties allocated under the securities lending agreement with respect to collateral. During the year ended June 30, 2020, there were no violations of legal or contractual provisions, and no borrower or lending agent default losses known to the securities lending agent.

In lending securities, cash collateral is invested in the lending agent's short-term investment pool, which as of June 30, 2020, had a weighted average maturity of 31 days. The relationship between the maturities of the investment pool and the System's loans is affected by the maturities of the securities loans made by other entities that use the agent's pool, which the System cannot determine. Cash collateral may also be invested separately in term loans, in which case the maturity of the collateral investment generally matches the term of the loan. Noncash collateral cannot be pledged or sold unless the borrower defaults. All securities loans can be terminated on demand by either the lender or the borrower, although the average term of overall loans for the System was approximately 77 days. There are no dividends or coupon payments owing on the securities lent. Cash received as collateral on securities lending transactions is reported as an asset of the System with a corresponding liability.

**EAST BAY MUNICIPAL UTILITY DISTRICT  
EMPLOYEES' RETIREMENT SYSTEM**  
(A Component Unit of the East Bay Municipal Utility District)

Notes To Basic Financial Statements  
(Dollars in thousands)  
For the Year Ended June 30, 2020

**NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

As of June 30, 2020, the fair value of securities on loan was \$78,660. The total cash and noncash collateral held by the System's custodian to secure these securities on loan was valued at \$80,731 (all cash collateral).

**C. *Allocation of Income and Expenses***

Contributions and benefit expenses are booked against the separate trusts as incurred. The recognition of investment income/loss is based on a pro rata share of total income/loss allocated quarterly on the basis of net position held in trust for pension benefits and post-employment healthcare benefits of the previous quarter. General expenses of the trust are allocated consistent with investment income/loss based on asset balances of the previous quarter.

**D. *Use of Estimates***

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**NOTE 3 – CONTRIBUTION INFORMATION**

The System is funded by contributions from its members and from the District. District contribution rates (provided as a percentage of covered compensation) are recommended by the Retirement Board, and employee contribution rates are established by the Board of Directors pursuant to the Retirement Ordinance, giving consideration to actuarial recommendations and prospective changes in factors which affect funding. Each member contributes to the 1980 Plan based upon a percentage of his or her covered compensation, which was 8.75% effective April 18, 2016 and 8.84% for the 2013 Plan Members effective January 1, 2013. The District's contribution is based upon the aggregate amount of members' covered compensation, at an actuarially determined rate.

The individual entry age normal method is used to determine the normal cost for other post-employment benefits (OPEB) and service cost for pension, and the OPEB unfunded actuarial accrued liability (past service liability) is amortized as a level percentage of future payroll over 30 years open period.

(A Component Unit of the East Bay Municipal Utility District)

Notes To Basic Financial Statements  
(Dollars in thousands)  
For the Year Ended June 30, 2020

**NOTE 3 – CONTRIBUTION INFORMATION (Continued)**

District adopted contribution rates for the year ended June 30, 2020 are as follows:

1980 Plan:

Pension plan:

Employer service cost	15.97%
Toward unfunded pension liability	21.89%

Other post-employment benefits:

Employer normal cost	1.05%
Unfunded actuarial accrued liability	4.27%

2013 Plan:

Pension plan:

Employer service cost	9.04%
Toward unfunded pension liability	22.20%

Other post-employment benefits:

Employer normal cost	0.75%
Unfunded actuarial accrued liability	4.17%

District adopted contribution rates for fiscal year 2020-2021 are as follows:

1980 Plan:

Pension plan:

Employer service cost	15.92%
Toward unfunded pension liability	21.94%

Other post-employment benefits:

Employer normal cost	1.00%
Unfunded actuarial accrued liability	4.32%

2013 Plan:

Pension plan:

Employer service cost	9.15%
Toward unfunded pension liability	22.09%

Other post-employment benefits:

Employer normal cost	0.74%
Unfunded actuarial accrued liability	4.18%

(A Component Unit of the East Bay Municipal Utility District)

Notes To Basic Financial Statements  
(Dollars in thousands)  
For the Year Ended June 30, 2020

**NOTE 3 – CONTRIBUTION INFORMATION (Continued)**

Contributions for the years ended June 30, 2020 and June 30, 2019, based on the June 30, 2019, actuarial valuation (latest available and includes amounts for post-employment healthcare benefits), were as follows:

	2020		2019	
	Healthcare			
	Pension	Benefit Plan	Totals	
Regular contributions:				
District contributions	\$ 77,645	\$ 11,089	\$ 88,734	\$ 84,551
Member contributions	18,661	195	18,856	17,825
	96,306	11,284	107,590	102,376
Other contributions:				
Member buybacks	29	-	29	40
	\$ 96,335	\$ 11,284	\$ 107,619	\$ 102,416

Regular District and member contributions in fiscal year 2020 represent an aggregate of 40.98% and 8.72% of covered payroll, respectively. The District's contributions include amounts for post-employment healthcare benefits at a rate of 5.12% of covered payroll, determined by the actuarial dated June 30, 2019. The actual payroll for the District employees covered by the Plan for the year ended June 30, 2020, was \$216,549 which was 91.06% of the total District payroll of \$237,803.

The total District contribution \$88,734 in regular contributions (\$31,740 for normal cost and service cost) also includes \$56,994 for amortization of the unfunded actuarial accrued liability.

Regular District and member contributions in fiscal year 2019 represented an aggregate of 41.38% and 8.74% of covered payroll, respectively. The District's contributions include amounts for post-employment healthcare benefits at a rate of 5.10% of covered payroll, determined by the actuarial valuation dated June 30, 2018. The actual payroll for the District employees covered by the Plan for the year ended June 30, 2019, was \$204,331 which was 90.61% of the total District payroll of \$225,512.

The total District contribution of \$84,551 as of June 30, 2019, in regular contributions (\$30,506 for normal cost and service cost; also includes \$54,045 for amortization of the unfunded actuarial accrued liability).

Member buyback contributions relate to prior years' service credits for Plan participants. The Plan was amended in 1998 for limited temporary construction workers and in 2003 for intermittent employees to allow current members, who previously worked for the District in a status which did not qualify for membership in the System, to establish retirement service credit for prior service with payments over a period of two to eight years.

**EAST BAY MUNICIPAL UTILITY DISTRICT  
EMPLOYEES' RETIREMENT SYSTEM**  
(A Component Unit of the East Bay Municipal Utility District)

Notes To Basic Financial Statements  
(Dollars in thousands)  
For the Year Ended June 30, 2020

**NOTE 3 – CONTRIBUTION INFORMATION (Continued)**

**Public Employees' Pension Reform Act (PEPRA)**

Assembly Bill 340 (AB 340) created the Public Employees' Pension Reform Act (PEPRA) that implemented new benefit formulas and final compensation periods, as well as new contribution requirements for new employees hired on or after January 1, 2013, who meet the definition of a new member under PEPRA. In the System, Members covered under PEPRA are 2013 Plan Members.

The table below provides the details of the 2013 Plan provisions in accordance with PEPRA.

Benefit Formula	2.5% at Age 67
Final Compensation Period	Average of last 3 years
Employer Normal Cost Contribution Rate as a percentage payroll	9.04% of Reportable Compensation
Member Normal Cost Contribution Rate as a percentage of payroll	8.75% of Reportable Compensation

The employer contribution rate listed above was in effect as of June 30, 2020. In accordance with the provisions of AB 340, the member contribution rate shown above was set at 50 percent of the expected total normal cost rate for the benefits that will apply to new members on January 1, 2013. The total normal cost rate used for this calculation is 17.79% of payroll for new members. Under AB 340, the member contributions rate is adjusted when the normal cost deviates by 1% or more.

**NOTE 4 – CONTRIBUTION REFUNDS**

When a member's District service is terminated, except by death or retirement, and prior to five years of continuous full-time employment, the amount of that member's accumulated contributions, plus interest, is refunded and membership is terminated. After a member has completed five years of continuous full-time employment, upon termination, except death or retirement, the member has the option of (a) ceasing to be a member and receiving the amount of his accumulated contributions, plus interest, or (b) remaining as a member and leaving his accumulated contributions, plus interest, in the Plan. After termination, a member cannot make additional contributions to the Plan.

If a member with fewer than five years of employment terminates employment and within six months becomes a member of the California Public Employees' Retirement System or another reciprocal retirement system, the individual may elect to remain a member, leaving his accumulated contributions, plus interest, in the Plan.

**EAST BAY MUNICIPAL UTILITY DISTRICT  
EMPLOYEES' RETIREMENT SYSTEM**  
(A Component Unit of the East Bay Municipal Utility District)

Notes To Basic Financial Statements  
(Dollars in thousands)  
For the Year Ended June 30, 2020

**NOTE 5 – CASH AND INVESTMENTS**

**A. *Authorized Investment Strategy***

The System's Statement of Investment Policy and Procedures authorize the System to invest in financial instruments in three broad investment categories: equity, fixed income, and real estate. These financial instruments can include, but are not limited to, corporate bonds, commercial paper, U.S. government securities, common and preferred stock, real estate investment trusts, and mutual funds. Fixed income investments may include futures and options contracts in order to provide added flexibility in managing the fixed income portfolio. The following is a summary of the System's Statement of Investment Policy and Procedures adopted by the System on March 21, 2019.

The Retirement Board is authorized to designate multiple investment managers to manage the assets under their supervision subject to the laws of the State of California and the Investment Guidelines established by the Retirement Board. Allocation of assets to the investment managers are determined by the Retirement Board to accommodate changing conditions and laws.

On March 15, 2018, the System adopted an updated asset allocation, which is shown in the table below.

US Equity	25%
Non-US Equity	25%
Core Fixed-Income	20%
Non-Core Fixed Income	5%
Covered Calls	20%
Real Estate	5%

The Director of Finance is authorized to transfer assets as provided in the System's Statement of Investment Policy and Procedures. The Director of Finance is further authorized to withdraw assets from assigned managers as necessary to efficiently meet operating needs.

The core fixed income target allocation (20% of the total portfolio) will primarily consist of U.S. denominated fixed income securities.

The non-core fixed income target allocation (5% of the total portfolio) will primarily consist of U.S. denominated fixed income securities. It is expected that this allocation may have a material allocation to below investment grade securities.

The domestic equity allocation target (25% of the total portfolio) will consist of the allocation to securities that corresponds to the weight of securities within the Russell 3000 Index.

The covered calls target allocation (20% of the total portfolio) may consist of a combination of Chicago Board Options Exchange S&P 500 BuyWrite Index (the "BXM Index") replication strategy and/or active non-replication strategies and their underlying domestic equity portfolios.

**EAST BAY MUNICIPAL UTILITY DISTRICT  
EMPLOYEES' RETIREMENT SYSTEM**  
(A Component Unit of the East Bay Municipal Utility District)

Notes To Basic Financial Statements  
(Dollars in thousands)  
For the Year Ended June 30, 2020

**NOTE 5 – CASH AND INVESTMENTS (Continued)**

The international equity target allocation (25% of the total portfolio) will consist of the allocation to securities that correspond to the weight of securities within the MSCI ACWI xUS Index for 10% of the total portfolio and of active strategies for 15% of the total portfolio.

The real estate target allocation (5% of the total portfolio) will consist of either equity (ownership) and/or fixed income participation in commercial, industrial, or residential properties. Investments may include interests in mortgages pools secured by loans of underlying properties.

The asset allocation does allow for the fact that at any time equity and fixed income managers may have transactional cash on hand and the District will maintain enough cash as working capital to effectively meet cash flow demands on the system. However, there is no specific allocation for cash as all investable cash is allocated to specific investment mandates.

**B. Financial Statement Presentation**

Total cash and investments at fair value as of June 30, consisted of the following:

	2020			
	Post-			
	Employment			
	Pension Plan	Healthcare	Total	2019
	Benefits	Benefits		
Cash and cash equivalents	\$ 56,506	\$ 1,346	\$ 57,852	\$ 42,729
Invested securities lending collateral	78,852	1,879	80,731	48,857
Investments	1,764,250	42,039	1,806,289	1,795,813
Total cash and investments	\$ 1,899,608	\$ 45,264	\$ 1,944,872	\$ 1,887,399

**EAST BAY MUNICIPAL UTILITY DISTRICT

(Dollars in thousands)  
For the Year Ended June 30, 2020

**NOTE 5 – CASH AND INVESTMENTS (Continued)**

**C. Fair Value Hierarchy**

The System categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure fair value of the assets. Level 1 inputs are quoted prices in an active market for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs.

The following is a summary of the fair value hierarchy of investments held by the System as of June 30, 2020:

Investment Type	Level 1	Level 2	Level 3	Total
<b>Investments by Fair Value:</b>				
Asset Backed Securities	\$ -	\$ 13,094	\$ -	\$ 13,094
Equities	637,430	-	74	637,504
Bank Loans	-	6,684	-	6,684
Commercial Mortgage-Backed	-	6,967	-	6,967
Corporate Bonds	-	233,243	-	233,243
Corporate Convertible Bonds	-	400	-	400
Govt Agencies	-	72,856	-	72,856
Govt Bonds	-	10,577	-	10,577
Govt Mortgage Backed Securities	-	41,210	-	41,210
Index Linked Govt Bonds	-	19,551	-	19,551
Municipal/Provincial Bonds	-	705	-	705
Other Fixed Income	-	23,711	-	23,711
Real Estate-Partnerships	-	-	50,541	50,541
Total Investments at Fair Value	\$ 637,430	\$ 428,998	\$ 50,615	1,117,043
<b>Investments Not Subject to Fair Value Hierarchy:</b>				
Comingled Funds and Other				689,246
Total System Investments				1,806,289
Invested Securities Lending Collateral				80,731
<b>Cash and Cash Equivalents:</b>				
California Local Agency Investment Fund				4,518
Cash & Short-term Investments				53,334
Total System Cash and Investments				\$ 1,944,872

**EAST BAY MUNICIPAL UTILITY DISTRICT  
EMPLOYEES' RETIREMENT SYSTEM**  
(A Component Unit of the East Bay Municipal Utility District)

Notes To Basic Financial Statements  
(Dollars in thousands)  
For the Year Ended June 30, 2020

**NOTE 5 – CASH AND INVESTMENTS (Continued)**

Investments classified in Level 1 of the fair value hierarchy, valued at \$637,430, are valued using quoted prices in active markets. \$428,998 of investments classified in Level 2 of the fair value hierarchy, are valued using matrix pricing techniques maintained by various pricing vendors. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices. Investments totaling \$50,615 classified in Level 3 of the fair value hierarchy are valued using appraisals and estimates by investment managers. Fair value is defined as the quoted market value on the last trading day of the period. These prices are obtained from various pricing sources by our custodian bank.

**D. Interest Rate Risk**

For fixed income investments, interest rate risk is the risk that changes in market rates will adversely affect the fair value of an investment. Normally, the longer the maturity of a fixed income investment, the greater the sensitivity of its fair value to changes in market interest rates.

Information about the sensitivity of the fair values of the System's investments (including investments held by bond trustees) to market interest rate fluctuations is provided by the following table that shows the distribution of the System's investments by maturity or earliest call date:

Investment Type	Less than 12 Months	12 to 72 Months	72 to 120 Months	More than 120 Months	Maturity not Determined	Total
Asset Backed Securities	\$ -	\$ 10,157	\$ 1,937	\$ 1,000	\$ -	\$ 13,094
Equity Securities	637,504	-	-	-	-	637,504
Bank Loans	-	4,857	1,827	-	-	6,684
Commercial Mortgage-Backed	-	-	300	6,667	-	6,967
Corporate Bonds	1,915	109,039	84,309	37,980	-	233,243
Corporate Convertible Bonds	-	400	-	-	-	400
Govt Agencies	3,769	61,599	2,777	4,711	-	72,856
Govt Bonds	-	2,832	2,369	5,376	-	10,577
Govt Mortgage Backed Securities	-	-	865	40,345	-	41,210
Index Linked Govt Bonds	-	9,176	7,921	2,454	-	19,551
Municipal/Provincial Bonds	-	-	-	705	-	705
Other Fixed Income	1,671	21,079	961	-	-	23,711
Real Estate-Partnerships	-	-	-	-	50,541	50,541
Comingled Funds and Other	-	-	-	-	689,246	689,246
Total System Investments	<u>\$ 644,859</u>	<u>\$ 219,139</u>	<u>\$ 103,266</u>	<u>\$ 99,238</u>	<u>\$ 739,787</u>	<u>\$ 1,806,289</u>

**EAST BAY MUNICIPAL UTILITY DISTRICT  
EMPLOYEES' RETIREMENT SYSTEM**  
(A Component Unit of the East Bay Municipal Utility District)

Notes To Basic Financial Statements  
(Dollars in thousands)  
For the Year Ended June 30, 2020

**NOTE 5 – CASH AND INVESTMENTS (Continued)**

The System's investments include the following investments that are highly sensitive to interest rate fluctuations to a greater degree than already indicated above:

Highly Sensitive Investments	Fair Value at Year End
Government Mortgage - Backed Securities	\$ 41,210
Commercial Mortgage - Backed Securities	6,967

**E. Foreign Currency Risk**

Foreign currency risk is the risk that changes in foreign exchange rates will adversely affect the fair values of an investment or deposit. Presented below in US dollars is the fair market value of the System's foreign investments at June 30, 2020:

Foreign Currency	Equity Securities Investment Type
Euro	\$ 74,178
British Pound Sterling	22,077
Japanese Yen	46,519
Hong Kong Dollar	16,904
South Korean Won	8,866
Swiss Franc	9,729
Danish Krone	3,263
Canadian Dollar	3,825
Australian Dollar	4,138
Norwegian Krone	3,967
Indonesian Rupiah	1,710
Singapore Dollar	1,272
Total	\$ 196,448

The Fund's investment policy permits it to invest 20% of total investment on foreign currency denominated investments. The Fund's current position is 10.88%.

**F. Credit Risk**

For fixed income investments, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization to the fixed income investments. Presented below is the actual rating as of June 30, 2020, for each investment type as provided by Moody's or Standard and Poor's, displayed by using Moody's ratings scale.

Investment Type	Aaa	Aa	A	Baa	Ba	B	Caa	C	U.S. Government		Total
									Guaranteed	Not Rated	
Asset Backed Securities	\$ 5,570	\$ 1,247	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ 6,277	\$ 13,094
Equity Securities	-	-	-	-	-	-	-	-	-	637,504	637,504
Bank Loans	-	-	-	523	2,399	3,003	369	-	-	390	6,684
Commercial Mortgage - Backed Securities	3,624	-	-	527	-	-	-	-	-	2,816	6,967
Corporate Bonds	1,218	13,519	159,451	21,397	16,572	13,747	2,075	50	-	5,214	233,243
Corporate Convertible Bonds	-	-	-	48	-	224	-	-	-	128	400
Government Agencies	43,523	692	-	-	-	-	-	-	26,599	2,042	72,856
Government Bonds	5,612	-	-	1,115	-	-	-	-	3,850	-	10,577
Government Mortgage - Backed Securities	-	-	-	-	-	-	-	-	40,191	1,019	41,210
Index Linked Government Bonds	19,551	-	-	-	-	-	-	-	-	-	19,551
Municipal Bonds	-	705	-	-	-	-	-	-	-	-	705
Other Fixed Income	-	-	-	-	-	-	-	-	-	23,711	23,711
Real Estate - Partnerships	-	-	-	-	-	-	-	-	-	50,541	50,541
Comingled Funds and Other	-	-	-	-	-	-	-	-	-	689,246	689,246
<b>Total System Investments</b>	<b>\$ 79,098</b>	<b>\$ 16,163</b>	<b>\$ 159,451</b>	<b>\$ 23,610</b>	<b>\$ 18,971</b>	<b>\$ 16,974</b>	<b>\$ 2,444</b>	<b>\$ 50</b>	<b>\$ 70,640</b>	<b>\$ 1,418,888</b>	<b>\$ 1,806,289</b>

**G. Concentration Risk**

As of June 30, 2020, and June 30, 2019, the District did not have investments in any one organization exceeding 5% of the System's investments.

The District held demand deposits (overdrafts) amounting to \$2,874 and \$4,941 on behalf of the System as of June 30, 2020 and 2019, respectively. The financial institution which holds these deposits is required by state law to maintain collateral pools against all public deposits they hold.

**EAST BAY MUNICIPAL UTILITY DISTRICT  
EMPLOYEES' RETIREMENT SYSTEM**  
(A Component Unit of the East Bay Municipal Utility District)

Notes To Basic Financial Statements  
(Dollars in thousands)  
For the Year Ended June 30, 2020

**NOTE 5 – CASH AND INVESTMENTS (Continued)**

**H. Custodial Credit Risk**

Custodial credit risk for cash on deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty (e.g. broker-dealer) to a transaction, the System will not be able to recover the value of its investment or collateral securities that are in the possession of another party.

California Law requires banks and savings and loan institutions to pledge government securities with a market value of 110% of the System's cash on deposit, or first trust deed mortgage notes with a market value of 150% of the deposit, as collateral for these deposits. Under California Law this collateral is held in a separate investment pool by another institution in the System's name and places the System ahead of general creditors of the institution.

The System invests in individual investments and in investment pools. Individual investments are evidenced by specific identifiable securities instruments, or by an electronic entry registering the owner in the records of the institution issuing the security, called the book entry system. In order to increase security, the System employs the Trust Department of a bank or trustee as the custodian of certain System investments, regardless of their form.

As of June 30, 2020 and 2019, the System's brokers/dealers held \$0 and \$0 respectively, in cash exposed to custodial credit risk.

**NOTE 6 – NET PENSION LIABILITY**

The net pension liability (the Plan's liability determined in accordance with GASB 67 less the fiduciary net position) as of June 30, is as shown below:

	2020	2019
Total Pension Liability	\$ 2,340,773	\$ 2,220,978
Plan Fiduciary Net Position	(1,792,124)	(1,716,478)
Employer Net Pension Liability	<u>\$ 548,649</u>	<u>\$ 504,500</u>
Plan Fiduciary Net Position as a		
Percentage of Total Pension Liability	76.56%	77.28%
Covered Payroll	\$ 203,541	\$ 193,717
Liability as a Percentage of Covered Payroll	269.55%	260.43%

**EAST BAY MUNICIPAL UTILITY DISTRICT  
EMPLOYEES' RETIREMENT SYSTEM**  
(A Component Unit of the East Bay Municipal Utility District)

Notes To Basic Financial Statements  
(Dollars in thousands)  
For the Year Ended June 30, 2020

**NOTE 6 – NET PENSION LIABILITY (Continued)**

The actuarial assumptions used in the June 30, 2019 valuation were based on the July 1, 2012 through June 30, 2016 Actuarial Experience Study report dated November 10, 2016, and the Review of Economic Actuarial Assumptions report dated September 12, 2018. They are the same as the assumptions used in the June 30, 2019 funding actuarial valuation. Actuarial valuation of the ongoing System involves estimates of the reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment mortality and future salary increases. Amounts determined regarding the net pension liability are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The Schedule of Employers' net pension liability presents multi-year trend information about whether the plan fiduciary net positions are increasing or decreasing over time relative to the total pension liability. These schedules are presented in the Required Supplementary Information section. The net pension liability was measured as of June 30, 2019 and 2018 and are not adjusted or rolled forward to the June 30, 2020 and 2019 reporting dates, respectively.

A summary of the actuarial assumptions as of the latest actuarial valuation is shown below:

Valuation date	June 30, 2019
Actuarial cost method	Entry Age Normal Cost Method
Amortization method	Level percent of payroll
Remaining amortization period	Plan changes, assumption changes, and experience gains/losses prior to July 1, 2011 are amortized over separate decreasing 30-year amortization periods. On or after July 1, 2011, plan changes are amortized over separate decreasing 15-year periods; assumption changes are amortized over separate decreasing 25 year periods; experience gains/losses are amortized over separate decreasing 20 year periods.
Assets valuation method	Market value of assets less unrecognized returns in each last five years. Unrecognized return is equal to the difference between the actual market return and the expected return on the market value, and is recognized over a five year period, further adjusted, if necessary, to be within 30% of the market value.
Actuarial assumptions:	
Net Investment Return	7.00%, net of investment and administrative expenses.
Average projected salary increases*	Ranges from 3.75% to 9.25% based on years of service*
Inflation rate	2.75%
Cost-of-living adjustments	3.00% per annum
Mortality	Pre-retirement: Headcount-Weighted RP-2014 Employee Mortality Table projected 20 years with the two-dimensional improvement scale MP-2015, set forward two years for males and one year for females. After Service Retirement and All Beneficiaries: Headcount-Weighted RP-2014 Healthy Annuitant Mortality Table projected 20 years with the two-dimensional improvement scale MP-2015, set forward two years for males and one year for females.
	After Disability Retirement: Headcount-Weighted RP-2014 Healthy Annuitant Mortality Table projected 20 years with the two-dimensional improvement scale MP-2015, set forward nine years for males and females.

\*Includes inflation of 2.75% plus across the board salary increase of 0.50% plus merit and promotional increases.

**EAST BAY MUNICIPAL UTILITY DISTRICT  
EMPLOYEES' RETIREMENT SYSTEM**  
(A Component Unit of the East Bay Municipal Utility District)

Notes To Basic Financial Statements  
(Dollars in thousands)  
For the Year Ended June 30, 2020

**NOTE 6 – NET PENSION LIABILITY (Continued)**

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target allocation and projected arithmetic real rates of return, after deducting inflation, but before investment expenses, used in the derivation of the long-term expected investment rate of return assumption for each major asset class are summarized below:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic Large Cap Equity	22.5%	5.32%
Domestic Small Cap Equity	2.5%	6.07%
Developed International Large Cap Equity	20.0%	6.67%
Emerging Market Equity	5.0%	8.87%
Core Bond	20.0%	1.04%
High-Yield Bond	2.5%	3.31%
Bank Loan	2.5%	3.14%
Real Estate	5.0%	4.68%
Covered Calls	20.0%	4.00%
Total	<u>100.0%</u>	

The discount rates used to measure the total pension liability was 7.00% as of June 30, 2019 and 7.00% as of June 30, 2018. The projection of cash flows used to determine the discount rate assumed plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the actuarially determined contribution rates. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, the Pension Plan's fiduciary net position was projected to be available to make all projected future benefit payments for current plan members. Therefore, the long-term expected rate of return on Pension Plan investments was applied to all periods of projected benefit payments to determine the total pension liability as of both June 30, 2019 and June 30, 2018.

**EAST BAY MUNICIPAL UTILITY DISTRICT  
EMPLOYEES' RETIREMENT SYSTEM**  
(A Component Unit of the East Bay Municipal Utility District)

Notes To Basic Financial Statements  
(Dollars in thousands)  
For the Year Ended June 30, 2020

**NOTE 6 – NET PENSION LIABILITY (Continued)**

In accordance with GASB 67 regarding the disclosure of the sensitivity of the net pension liability to changes in the discount rate, the following table presents the net pension liability of the Plan as of June 30, 2020, calculated using the discount rate of 7.00% as well as what the Plan's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00%) or 1- percentage-point higher (8.00%) than the current rate:

	1% Decrease (6.00%)	Current Discount (7.00%)	1% Increase (8.00%)
Net Pension Liability	\$ 846,917	\$ 548,649	\$ 300,151

**NOTE 7 – NET OPEB LIABILITY**

The net OPEB liability (The Plan's liability determined according to GASB 74) as of June 30, is shown below:

	2020	2019
Total OPEB Liability	\$ 173,712	\$ 167,770
Plan Fiduciary Net Position	(40,841)	(36,762)
Employer Net OPEB Liability	\$ 132,871	\$ 131,008
Plan Fiduciary Net Position as a Percentage of Total OPEB Liability	23.51%	21.91%

The actuarial assumptions used in the June 30, 2019 valuation were based on the July 1, 2012 through June 30, 2016 Actuarial Experience Study report dated November 10, 2016, the Review of Economic Actuarial Assumptions report dated September 12, 2018, and the Retiree Health assumptions letter dated December 17, 2019. They are the same as the assumptions used in the June 30, 2019 funding actuarial valuation except the discount rate is calculated as a blend of the investment return on plan assets and municipal bond rate in accordance with GASB 74, and implicit subsidy benefit payments are based on the age-based costs. The net OPEB liability is measured as of June 30, 2019 and 2018 and is not adjusted or rolled forward to the June 30, 2020 and 2019 reporting dates.

After Disability Retirement: Headcount-Weighted RP-2014 Healthy Annuitant Mortality Table projected 20 years with the two-dimensional improvement scale MP-2015, set forward nine years for males and

\*Includes inflation of 2.75% plus across the board salary increase of 0.50% plus merit and promotional increases.

**EAST BAY MUNICIPAL UTILITY DISTRICT  
EMPLOYEES' RETIREMENT SYSTEM**  
(A Component Unit of the East Bay Municipal Utility District)

Notes To Basic Financial Statements  
(Dollars in thousands)  
For the Year Ended June 30, 2020

**NOTE 7 – NET OPEB LIABILITY (Continued)**

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation and subtracting expected investment expenses and a risk margin.

The target allocation and projected arithmetic real rates of return, after deducting inflation, but before investment expenses, used in the derivation of the long-term expected investment rate of return assumption for each major asset class are summarized below:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic Large Cap Equity	22.5%	5.32%
Domestic Small Cap Equity	2.5%	6.07%
Developed International Large Cap Equity	20.0%	6.67%
Emerging Market Equity	5.0%	8.87%
Core Bond	20.0%	1.04%
High-Yield Bond	2.5%	3.31%
Bank Loan	2.5%	3.14%
Real Estate	5.0%	4.68%
Covered Calls	20.0%	4.00%
Total	100.0%	

The municipal bond rates used to determine the blended discount rate, as discussed below, were 3.50% and 3.87% which are based on the 20-year municipal bond rate for the Bond Buyer 20-Bond GO Index as of June 30, 2020 and June 30, 2019, respectively.

The discount rates used to measure the total OPEB liability were 5.23% and 5.59% as of June 30, 2020 and June 30, 2019, respectively. The projection of cash flows used to determine the discount rate assumed plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the actuarially determined contribution rates for the \$450/\$550 HIB Subsidy excluding the implicit subsidy that will continue to be paid on a pay-as-you-go basis. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included.

**EAST BAY MUNICIPAL UTILITY DISTRICT  
EMPLOYEES' RETIREMENT SYSTEM**  
(A Component Unit of the East Bay Municipal Utility District)

Notes To Basic Financial Statements  
(Dollars in thousands)  
For the Year Ended June 30, 2020

**NOTE 7 – NET OPEB LIABILITY (Continued)**

Based on those assumptions, the OPEB Plan's fiduciary net position was projected to be available to make projected future benefit payments for current plan members through June 30, 2043. Therefore, the long-term expected rate of return on OPEB Plan investments (7.00%) was applied to periods of projected benefit payments through June 30, 2043, and the 20-year municipal bond rate (3.50%) to determine the total OPEB liability as of June 30, 2020.

In accordance with GASB 74 regarding the disclosure of the sensitivity of the net OPEB liability to changes in the discount rate, the following table presents the net OPEB liability of the Plan as of June 30, 2020, calculated using the discount rate of 5.23% as well as what the Plan's net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (4.23%) or 1-percentage-point higher (6.23%) than the current rate:

	1% Decrease (4.23%)	Current Discount (5.23%)	1% Increase (6.23%)
Net OPEB Liability	\$ 150,673	\$ 132,871	\$ 117,641

Additionally, in accordance with GASB 74 regarding disclosure of the sensitivity of the net OPEB liability to changes in the trend rate (only applied to implicit subsidy and not the \$450/\$550 cash subsidy), the following table presents the net OPEB liability of the Plan as of June 30, 2020, calculated using the current trend rates as well as what the Plan's net OPEB liability would be if it were calculated using a trend rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

	1% Decrease	Current Trend	1% Increase
Net OPEB Liability	\$ 130,405	\$ 132,871	\$ 135,666

**NOTE 8 – BENEFIT GUARANTY**

**A. Pension Plan**

The District may, at any time, change or repeal the ordinance governing the Plan. The District's obligations to those members receiving or eligible for a retirement allowance prior to such change or repeal shall continue in full force. The District is obligated to those members neither receiving nor eligible for a retirement allowance at the time of such change or repeal. This allowance will be a retirement allowance at retirement age equal to the actuarial equivalent of the accumulated value of the member's contributions standing to the member's credit at the date of retirement and the accumulated value of the District's contribution for current service to the date of such change or repeal, increased by the accumulation of interest to date of retirement.

**EAST BAY MUNICIPAL UTILITY DISTRICT  
EMPLOYEES' RETIREMENT SYSTEM**  
(A Component Unit of the East Bay Municipal Utility District)

Notes To Basic Financial Statements  
(Dollars in thousands)  
For the Year Ended June 30, 2020

**NOTE 8 – BENEFIT GUARANTY (Continued)**

***B. Post-Employment Healthcare Benefits***

In addition to retirement benefits, the District provides post-employment health benefits assistance (administered by the Employees' Retirement System) for employees who retire from the District or their surviving spouses. As of June 30, 2019 (date of latest actuarial valuation), there were 1,646 participants receiving these health care benefits.

Effective July 1, 1996, a 20-year vesting schedule for full benefits was implemented for all new participants. Effective January 1, 1999, retired members who had separated from the District prior to their retirement who has at least 10 years of service also became eligible for the post-employment health benefits based on the same sliding scale. The scale provides for 25% of healthcare benefits for service from 5 through 10 years, 50% of healthcare benefits for service from 10 through 15 years, 75% of healthcare benefits for service from 15 through 20 years, and 100% of healthcare benefits for service of 20 years or more. Effective July 1, 2003, the District reimbursed up to \$450 per month (\$550 per month effective July 1, 2004, for membership of a spouse or registered domestic partner) for any health, dental, or long-term care insurance premiums paid by the retiree for themselves, current spouse, or domestic partner, or any health, dental, or long-term care insurance premiums paid by the eligible surviving spouse of a retiree. These benefits are paid from a separate post-employment healthcare benefits fund which up until June 17, 2002, was advance funded entirely by the District on an actuarially determined basis. Cash reimbursement of these benefits totaled \$8,963 in the year ended June 30, 2020. Effective June 18, 2002, a portion of the post-employment healthcare benefits costs is recovered through employee contributions.

Through June 30, 1999, the medical premium subsidy was not a vested benefit and the District reserved the right to modify or terminate the benefit at any time. If the medical subsidy were terminated, assets accumulated from contributions made for the subsidy would be used to provide other pension benefits. Effective July 1, 1999, the medical premium subsidy became a vested benefit to a maximum of \$200 per month, was changed effective October 1, 2000, to a maximum of \$250 per month, and was changed effective July 1, 2002, to a maximum of \$400 per month per month, and was changed effective July 1, 2003, to a maximum of \$450 per month, and was changed again effective July 1, 2004, to a maximum of \$450 per month and \$550 per month for membership of a spouse or registered domestic partner.

**NOTE 9 – RELATED PARTY TRANSACTIONS**

The District provides the System with accounting, treasury, and other administrative services, which are reimbursed by the System on a monthly basis. Total reimbursements in fiscal years 2020 and 2019 were \$999 and \$1,061 respectively.

Notes to Required Supplementary Information

(Dollars in thousands)

For the Year Ended June 30, 2020

The pension-related information presented in the required supplementary schedules was determined as part of the Pension actuarial valuation at the date indicated. Additional information as of the latest Pension actuarial valuation is as follows:

Valuation date	June 30, 2017
Actuarial cost method	Entry Age Normal Cost Method
Amortization method	Level percent of payroll
Remaining amortization period	Plan changes, assumption changes, and experience gains/losses prior to July 1, 2011 are amortized over separate decreasing 30-year amortization periods. On or after July 1, 2011, plan changes are amortized over separate decreasing 15-year periods; assumptions changes are amortized over separate decreasing 25-year periods; and experience gains/losses (including year-to-year health assumption changes) are amortized over separate decreasing 20-year periods.
Assets valuation method	Market value of assets less unrecognized returns in each last five years. Unrecognized return is equal to the difference between the actual market return and the expected return on the market value, and is recognized over a five year period, further adjusted, if necessary, to be within 30% of the market value.
Actuarial assumptions:	
Investment Rate of Return	7.25%, net of investment and administrative expenses
Average projected salary increases*	Ranges from 4.00% to 9.50% based on years of service*
Inflation rate	3.00%
Cost-of-living adjustments	3.00% per annum
Mortality	<i>Pre-retirement:</i> Headcount-Weighted RP-2014 Employee Mortality Table projected 20 years with the two-dimensional improvement scale MP-2015, set forward two years for males and one year for females. <i>After Service Retirement and All Beneficiaries:</i> Headcount-Weighted RP-2014 Healthy Annuitant Mortality Table projected 20 years with the two-dimensional improvement scale MP-2015, set forward two years for males and one year for females. <i>After Disability Retirement:</i> Headcount-Weighted RP-2014 Healthy Annuitant Mortality Table projected 20 years with the two-dimensional improvement scale MP-2015, set forward nine years for males and females.

\*Includes inflation of 3.00% plus across the board salary increases of 0.50% plus merit and promotional increases.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL  
OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE  
WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Directors  
East Bay Municipal Utility District  
Oakland, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the basic financial statements of the East Bay Municipal Utility District, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated August 31, 2020.

**Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

To the Board of Directors  
East Bay Municipal Utility District  
Oakland, California

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
