ADOPTING THE REPORT OF THE EAST BAY MUNICIPAL UTILITY DISTRICT WET WEATHER FACILITIES CHARGE AND DIRECTING THE SECRETARY TO FILE SAID REPORT WITH THE ALAMEDA COUNTY AUDITOR-CONTROLLER AND THE CONTRA COSTA COUNTY AUDITOR-CONTROLLER AND TO REQUEST THE AUDITOR-CONTROLLERS TO PLACE THE FISCAL YEAR 2026 WET WEATHER FACILITIES CHARGE ON THE PROPERTY TAX ROLLS

Introduced by Director _____ ; Seconded by Director _____

WHEREAS, on June 10, 2025, the Board of Directors (Board) adopted Resolution No. 35453-25 establishing the East Bay Municipal Utility District's (District) Wet Weather Facilities Charge (WWFC); and

WHEREAS, the WWFC was approved by at least two-thirds of the members of the Board (i.e., by five (5) Board members), in compliance with California Health & Safety Code (H&SC) section 5473; and

WHEREAS, the WWFC funds the capital expenses of the District's infiltration and inflow (I&I) facilities that are required to handle wet weather flows that enter the wastewater system; and

WHEREAS, the amount of wet weather flows that enter the wastewater system is generally proportional to the size of the collection system to serve each property, and accordingly, the WWFC is based on the customer's lot size to reflect the potential amount of I&I entering into the wastewater system from a customer's lot; and

WHEREAS, three categories of lot sizes are used to calculate the WWFC: 0-5,000 square feet (sq. ft.); 5,001-10,000 sq. ft.; and greater than 10,000 sq. ft. The applicable WWFC for each respective lot size is set forth in the District's Wastewater System Schedule B - Wet Weather Facilities Charge, attached hereto as Exhibit A; and

WHEREAS, because the WWFC is a fixed charge that is based on the size of the property and unrelated to water or wastewater usage at the property, the District collects the WWFC on the property tax rolls of Alameda and Contra Costa Counties, pursuant to its authority under H&SC section 5471, et seq., for all parcels that have connections to the local wastewater collection systems within the District's wastewater service area; and

WHEREAS, for entities that are exempt from property taxes, and in select circumstances when necessary to correct for issues in a property's billing files, the WWFC is collected through the District's billing process; and

WHEREAS, in accordance with H&SC section 5471(c), revenues from the WWFC will be used to fund capital expenses for District facilities required to handle wet weather flows that are in excess of normal discharges from wastewater customers; and

WHEREAS, a written report (Report) has been filed with, and may be obtained from, the Secretary of the District, describing each parcel of real property subject to the WWFC and the amount of the WWFC to be imposed thereon for Fiscal Year 2026; and

WHEREAS, the Secretary of the District has caused notice of the filing of the Report, and of the time and the date of the hearing to consider such Report and to consider the question of whether to collect the WWFC on the property tax roll, to be published in a newspaper of general circulation within the District's service area, all in accordance with H&SC section 5473.1; and

WHEREAS, on July 8, 2025, the Board conducted a public hearing, noticed in the manner and for the time required by law, at which time all interested persons were afforded an opportunity to be heard on matters pertaining to the collection of the WWFC on the property tax rolls, as well as to the Report, all in accordance with H&SC section 5473.2; and

WHEREAS, all comments, objections, and protests to the Report have been given full opportunity to be heard by the Board, and the Board has fully considered the Report; and

WHEREAS, the Board has determined to adopt the Report and collect the WWFC on the property tax roll, which WWFC shall constitute a lien against the parcel or parcels of land described in the Report in accordance with H&SC section 5471, et seq.; and

WHEREAS, Alameda and Contra Costa Counties have agreed to place the WWFC as direct assessments on property tax rolls which the Counties collect on the District's behalf;

NOW, THEREFORE, BE IT RESOLVED that the Board of Directors of the East Bay Municipal Utility District hereby finds and determines as follows:

1. The foregoing Recitals are true and correct, and by this reference are incorporated herein and made a part hereof.

BE IT FURTHER RESOLVED:

2. At the Hearing held on July 8, 2025 the Board of Directors heard and considered all objections and protests to the Report and has determined and hereby finds that protests have not been made by the owners of a majority of separate parcels or property described in the Report.

BE IT FURTHER RESOLVED:

3. The Board of Directors hereby adopts the Report and votes by at least two-thirds of the members of the Board (i.e., by at least five (5) Board members), as required by H&SC section 5473, to collect the WWFC on the property tax roll.
4. The Board of Directors hereby authorizes District staff to adjust the Fiscal Year 2026 WWFC for any affected parcels if and to the extent new information is provided which District staff deems to warrant an adjustment.

5. On or before August 10, 2025, the Secretary of the District is hereby directed to file a copy of the Report with the Alameda County Auditor-Controller and the Contra Costa County Auditor-Controller, together with a statement endorsed thereon over her signature that the Report has been adopted by the Board of Directors, and shall request that the WWFC be collected on the property tax rolls for the taxable parcels identified in the Report and that such WWFC shall be collected at the same time and in the same manner and by the same persons as, together with and not separately from, the property taxes for the Counties, and shall be delinquent at the same time and thereafter be subject to the same delinquency penalties to be levied on and collected from the owners of said parcels.

The provisions of this Memorandum supersede all previous agreements and understandings, whether written or oral, between the parties.

The District recognizes the Union as the exclusive representative of all regular, probationary, limited term (LT), temporary construction (TC) and part-time employees within the class titles of the formally recognized unit as enumerated in Attachment A, "Class Titles/Salary Ranges", which is attached hereto and made a part hereof.

The District shall furnish monthly a list of all employees appointed within the foregoing unit, and shall notify each new employee of the District's recognition of the Union as the exclusive representative in said unit. The monthly list shall contain the following information:

The following applies to employees in LT and TC appointments in classifications represented by Local 39:

Employees who have Civil Service status in a District classification and who are promoted or transferred continue to retain rights to a position in their former Civil Service classification when the LT or TC position is completed.

The District has the obligation to assign such employees back to a position in their former Civil Service classification. Ending LT or TC appointments shall not be grievable.

LT/TC employees with Civil Service status will retain the benefits they were receiving at the time of acceptance of the LT/TC appointment. LT/TC employees without Civil Service status will be provided all District benefits except retirement.

An employee who promotes or transfers to an LT or TC position shall, while in an LT or TC position, receive continuous service credit for purposes of this Memorandum.

LT and TC employees are subject to all Memorandum provisions unless specifically exempted.

C. Automatic Payroll Deduction and Remittance.

The District agrees to maintain the Union rights to payroll deduction and maintenance of membership.

Upon certification by the Union that an employee has signed a deduction authorization, the District will deduct the appropriate dues and or initiation fees from the employee's pay, as established and may be changed from time to time by the Union, and remit such dues to the Union. Employee requests to cancel or change deductions must be directed to the Union rather than the District. Deductions will continue unless the employee mails a written revocation to the Union in accordance with the terms of the authorization form, or absent any such terms, by mailing a written revocation to the Union that is postmarked during the thirty (30) calendar day period immediately prior to the annual anniversary on which the employees signed the authorization form.

The effective date of the dues deductions for employees shall be made from the pay due employees on the first payday of each calendar month following the Union's notification to the District of the dues deduction authorization. The effective date of any revocation to an existing authorization will be effective on the first pay day of the next calendar month following the Union's written notice of revocation no less than seven (7) calendar days prior to the first payday of the month. Requests to begin or revoke dues that are received with less than seven (7) calendar days prior to the first payday of each month will be processed the following month.

D. Indemnification.

The District shall not be liable to the Union by reason of the requirements of this Article for the remittance or payment of any sum other than that constituting actual deductions made from the pay earned by the employee. In addition, the Union shall indemnify and save the District harmless from any liability resulting from any and all claims, demands, suits, or any other action arising from compliance with this Article, or in reliance on any list, notice, certification, or authorization furnished under this Article. The Union agrees to refund to the District any amounts paid to it in error.

ARTICLE II. DISTRICT RIGHTS

It is further mutually agreed that Union and District have met and conferred on all matters reserved to District by this Article and Union does expressly waive any and all rights to further meet and confer on such issues, or any of them, during the period of this Memorandum. Any dispute concerning the interpretation or application of District's rights shall be deemed a grievance and must be processed under Article XV.

The District agrees to apply the rights reserved by this Article in a prudent and reasonable manner; furthermore, the District shall consider the impact that the application of these rights may have on the work force, before applying these rights. The District agrees to make reasonable efforts to mitigate any significant impacts arising out of the application of any and all rights reserved by this Article.

Employees selected by the Union to act as Union representatives shall be known as "stewards". The Union may select six stewards. The names of employees so selected and the areas to which they are assigned shall be certified in writing to the District by the Union Business Representative. In the absence of the steward, an alternative may be appointed by the Union. Prior notice of two (2) work days shall be given to the work unit supervisor.

F. New Employee Orientation.

The District agrees to provide the Union notice of all new employee orientations (no matter how few participants) at their earliest opportunity, but no less than ten (10) calendar days prior to each event. The District further agrees to provide the Union a list of unit employees scheduled to attend at least five (5) business days prior to the event. The list shall include all employee's information contained in Article I Recognition. A. Exclusive Representations. Items 1-11. New employees will be scheduled to attend New Employee Orientation, which is held every two months. The District will make every attempt to ensure that employees are advised of their scheduled New Employee Orientation date within thirty (30) days of hire. In the event that the orientation is at maximum capacity and the employee cannot be scheduled, the employee will be scheduled for the following orientation date.

As part of the District's new employee orientation, the Union shall have thirty (30) minutes to provide information and answer questions to new employees who are in classifications covered by this Memorandum of Understanding. The Union may designate one (1) employee representative to attend each new employee orientation without the loss of time or pay, during their regularly scheduled work hours. Assignments to perform the work of a higher classification pursuant to this Section, will be tracked by hours worked and shall not exceed 480 hours in a calendar year. By use of this Section, the District will not attempt to avoid District Civil Service Rules and the filling of regular full time positions. The District will make reasonable efforts to distribute work-out-of-class on an equal and rotational basis for qualified employees, beginning with the most senior unit member.

E. New Classifications.

The Union recognizes the right of the District to establish new job classifications and to amend existing class descriptions to reflect changes in assigned duties and responsibilities. In the event a substantial change is made in the description of a class represented by the Union, the District will advise the Union of such change and of the salary for the class. Upon request of the Union, the parties shall meet and confer on the salary for the classification. Establishment of salary is not subject to the grievance procedure as contained in this Memorandum.

F. Payment for Licenses/Certificates.**1. General Provision.**

The District shall pay all normal and regular fees incurred in the obtaining of any water treatment and/or distribution licenses or certificates that are required by the District for the job classification of the employee. The District shall pay actual fees for employees who obtain higher level licenses or certificates than required for their class but within their normal class series. Employees shall be granted paid time to take tests for any licenses or certificates required for the employee's current job classification.

Employees in Water Distribution classifications who obtain a Water Distribution Operator's certificate at a higher level than required for their classification (e.g. D4 and/or T4) shall receive a monthly premium of \$130 effective the first pay period following the adoption of this MOU by the EBMUD Board of Directors; \$135 effective the first full pay period in 2026; and \$140 effective the first full pay period of 2027. Employees on unpaid status for two (2) consecutive pay periods, due to illness or injury, will have their over-certification premium payments discontinued until they return to

work. Employees who request leave without pay (LWOP) for reasons other than illness or injury, will have their over certification premium payments discontinued effective the first full pay period after their leave begins, and their payments will resume once they have returned to work.

G. Salary on Promotion.

The new base salary of an employee who is promoted shall be either the beginning step of the new class, or the step in the salary schedule in the new class which is at least 5% above the employee's current base salary, whichever is the greater amount, provided that in no instance shall the employee's base rate exceed the maximum salary wage rate established and in effect for the new class.

H. Adjustment for Overpayments.

In the event an employee is erroneously overpaid by the District, regardless of fault, the District shall provide written notification to the affected employee detailing the date(s) the overpayment occurred, and the amount of the overpayment. Upon obtaining written authorization from that employee to make the deductions to recoup the overpayments, the District shall recover overpayment by making the agreed upon deductions from the employee's regular paycheck. Said deductions will continue for as many consecutive pay periods as necessary until full overpayment is recovered.

When the deductions are necessary to recoup insurance premiums or recover health and welfare or pension contributions, the District shall not commence recovery by payroll deductions until written notification has been given to the employee at least ten (10) working days in advance, which includes details of the overpayment, and provides the employees with an opportunity to respond before any deduction is made. If an employee disputes the overpayment, the District will meet with that employee and their chosen representative to resolve the dispute. The District shall recover overpayment by deducting from the employee's regular paycheck either the full amount of the overpayment or ten percent (10%) of the employee's gross salary, whichever is less, and continue said deductions for as many consecutive pay periods as necessary until full payment is recovered. The District shall not seek written authorization to recoup insurance premiums and/or health and welfare or pension contributions from the employee.

ARTICLE VI. DAYS AND HOURS OF WORK

A. Workday.

The standard workday shall consist of eight (8) consecutive hours of work (exclusive of any unpaid meal period) within a 24-hour period beginning at 12:00 midnight except as otherwise mutually agreed.

B. Workweek.

The standard workweek shall consist of five (5) consecutive workdays within a seven (7) day period beginning at 12:01 a.m. Monday and ending at 12:00 midnight Sunday, except as otherwise mutually agreed.

C. Seniority.**1. Definitions.**

District Seniority: The total length of continuous employment with the District calculated from the date of hire, including the probationary period.

Classification Seniority: The total continuous time an employee has within a classification that also meets the requirements for District Seniority. Time spent in an acting appointment (example, work-out-of-classification) to a classification shall not be counted as service time in that classification, unless such acting appointment is immediately followed by appointment to such classification in a probationary, part-time, or less than full-time (Intermittent) status.

2. Continuous Service and Breaks in Service.

Continuous District Seniority: The length of uninterrupted employment from the most recent date of hire to the present.

Continuous Classification Seniority: The length of uninterrupted employment in a specific classification from the most recent date of appointment to the present.

Break in Service: An interruption in continuous length of service. The following occurrences result in a break in service:

- a. Discharge for cause
- b. Voluntary resignation
- c. Retirement for service or disability
- d. Absence from work for more than thirty-six (36) consecutive months because of layoff.
- e. Failure to return from layoff as provided in section XIV.C.
- f. Failure to return from an approved leave of absence upon the date specified for return.
- g. Unapproved leave of absence without pay of any length.

If two or more employees have the same length of service in a classification, then greatest/longest length of District seniority shall be used to break ties.

If District seniority is equal, the employee with the lower District Employee Identification Number shall have greater seniority.

An employee's seniority shall terminate when they resign or retire, are discharged for just cause, have been laid off for a period of thirty-six (36) months, or fail to return from layoff.

In the event of a reduction in force or layoff and reinstatement, an employee's service will be reduced by the time that they were laid off or not employed by the District.

D. Alternate Work Schedules.

Alternative work schedules shall be offered to employees as an option in accordance with the Compressed Workweek Guidelines. Notwithstanding Section A and B above, upon request of an individual employee or a group from the work unit, in accordance with the Compressed Workweek Guidelines, the District will investigate and may change the work schedules of that employee, or employees within any particular work unit, provided the work or the operation of the work unit or plant will not be unduly impaired by such adjustment. Such adjustment shall not affect the total length of the workweek. The decision of the District on granting or refusing to grant a change in the beginning and ending workday hours or workweek shall be final and conclusive and shall not be subject to the grievance procedure of this Memorandum. Upon request the District shall provide the Union a written basis for the approval or denial.

When a shift pattern is requested and agreed to by the supermajority of at least 75% of employees of the classification permanently assigned within a work unit or plant and approved by the District, all new hires, transfers or promotions within the classification that work the shift pattern will be required to adhere to that schedule subject to the requirements of the Compressed Workweek Guidelines. The new permanent shift assignments shall be decided based on classification seniority among employees in the affected plant.

E. Continuous Operations.

In operations in which there is regularly scheduled employment for twenty-four (24) hours per day, seven (7) days per week, the hours of work shall consist of eight (8) consecutive hours per workday and, except during scheduled rotation or relief operation, five (5) consecutive days per workweek (except where alternate schedules are approved by the Division Manager for the work unit).

All members of Local 39 are considered continuous operations for the entire length of this MOU.

In continuous operations, except where such occurs on a regular, recurring basis as part of a rotating shift schedule, employees who are called back to work an eight (8) hour shift after being off their previous shift eight (8) or fewer hours shall be paid one (1) hour at the overtime rate in addition to their pay for such time worked.

When a treatment facility is shutdown as part of a planned seasonal shutdown, employees assigned to work at that facility will be moved to the day shift for the duration of the facility shutdown and will be paid their regular shift differential for the first two weeks of the plant shutdown.

Employees in continuous operations who are required to be at their work stations for eight (8) consecutive hours shall eat during working hours, and shall take their breaks in the general vicinity of their work stations.

In operations where regularly assigned work schedules are changed, the work schedule shall be posted, and changes in schedule shall be posted a minimum of seven (7) calendar days in advance of the effective date of change. In those instances when the District does not meet this advance notice requirement, the operator shall be paid a premium of one (1) additional hour at the overtime rate for the next shift he/she works.

Penalty Pay

- a. Roving Operators and unassigned Operators shall be notified 120 hours (5 days) in advance of changes in their work schedules. This advance notice shall not apply in cases of illness or other emergencies. In those instances when the District does not meet this advance notice requirement, the Roving Operator shall be paid a premium of one (1) additional hour at the overtime rate for the next shift he/she works.
- b. Roving Operators and unassigned Operators shall be notified 24 hours in advance of changes in work location. In those instances when the District does not meet this advance notice requirement, the Roving Operator shall be paid a premium of one (1) additional hour at the overtime rate for the next shift he/she works.

Classification seniority will determine the assignment of shifts.

F. Changes in Days and Hours Of Work.

It is understood that all other provisions of this Article notwithstanding, the hours of work, workday, and workweek practices in effect on the effective date of this Memorandum may be continued. Changes in such practices shall be subject to prior notification to the Union.

Notwithstanding the above, the District shall be permitted to schedule shifts one (1) hour earlier or later than current shift starting times. If such shift creates work in two (2) different calendar days, all time will be treated as if it were worked in the calendar day containing the majority of the workday. For example, if the start of the workday is changed from 12:00 midnight to 11:00 p.m., the employee will be paid as if all work commenced at 12:00 midnight.

The District will not temporarily change the scheduled workday or workweek of employees for the purpose of avoiding overtime payments. Employees shall be compensated for time worked in

excess of their regularly scheduled workday or workweek as provided in Article VII, Section A of this Memorandum of Understanding. Nothing herein shall be interpreted as limiting the District's right to reschedule shifts on a long-term or permanent basis as provided in this Article.

G. Rest Periods.

Employee work schedules shall provide for fifteen (15) minute rest periods during each one-half (1/2) of the workday. Rest periods shall be scheduled so as not to interfere with efficient operations of the District.

H. Meal Periods.

Employees shall be granted a thirty (30) minute lunch period, without pay, except as otherwise provided, scheduled at approximately the middle of the workday. Time taken for meals eaten away from the work location shall be unpaid time.

I. Clean up Time.

Where the nature of the work is such that cleanup is required, work schedules shall be arranged to allow reasonable time for that purpose prior to the end of the workday. The District shall provide facilities for cleanup.

J. Reimbursement For Use of Private Car.

The District will reimburse employees at the rate identified by the American Automobile Association (AAA) composite average per mile cost in the 15,000 miles per year category for each mile they are authorized and required to drive their private cars within the employees' normal areas of operations in the performance of their assigned duties. The District will adjust this amount to conform to the most recent published rate. This information is obtained from the Annual Edition of Your Driving Costs, published by the American Automobile Association. In the event such publication is not updated or published during the calendar year, the standard mileage rate established by the prior year's published rate will remain in effect until December 31st of the current year. Thereafter, effective January 1st of the next calendar year, the IRS standard mileage rate for that year will be in effect until such time the AAA rate is updated or published.

K. Fatigue Time.

Employees shall receive full pay for fatigue time if they have worked overtime and the overtime has been completed with less than eight (8) hours between the completion of the overtime and the start of the employee's next regularly scheduled shift. Fatigue time can be taken at the beginning or end of the shift. Fatigue time shall be calculated as follows:

- a) Subtract the ending time of overtime from the beginning time of the next regular shift.

- b) Subtract that figure from eight (8) hours.
- c) The difference is the fatigue time due to the employee.

Example. OT is worked from 1:00 a.m. until 4:00 a.m. Regular shift begins at 8:00 a.m. The difference is 4 hours between the end of OT and the beginning of the next regular shift. (8 hours - 4 hours = 4 hours of fatigue time due to the employee.)

Employees shall not receive fatigue time if: (a) the overtime is completed more than eight (8) hours prior to the start of their next regularly scheduled shift, or (b) employees are called out to perform overtime work within four (4) hours of the start of their next regularly scheduled shift, or (c) they are assigned to continuous operations.

Fatigue time must be taken during the first or last part of the next regularly scheduled workday. Employees receiving fatigue time shall notify their immediate or after hours supervisor at the completion of the overtime work, if possible, or a minimum of one (1) hour before the start of their next regularly scheduled shift when their fatigue time will be taken.

ARTICLE VII. OVERTIME

A. Rate of Pay.

1. Standard Rate of Pay. One and one-half (1-1/2) times the employee's regular hourly rate of pay shall be paid for all work performed in excess of eight (8) hours per workday or forty (40) hours per workweek except as provided in Article VI, Section B. Time worked at the overtime rate due to Call Time (as defined in Article IX) overlap of the employee's regular workday shall be counted in determining the eight (8) hours per workday or forty (40) hours per workweek required to establish a base for overtime. There shall be no pyramiding of overtime pay.

2. Holiday and Compressed Work Week:

Article VII of the MOU must be read in conjunction with the Compressed Workweek Guidelines with respect to holidays only.

Compressed Work Week Holiday Work. When a holiday(s) falls on the employee's nine-hour day (or other regularly scheduled workday that is longer than 8 hours), the employee may make up the shortfall of hour(s) within the same work week and the additional hour(s) will be paid at the employee's regular rate of pay. If the employee fails to account for the additional hour(s), the hour(s) will be charged to vacation or

compensatory time off on the employee's timesheet. If the employee does not have any available vacation or compensatory time off accrued the time will be unpaid.

B. Limitation and Distribution of Overtime.

No employee shall be required to work more than sixteen (16) hours in any twenty-four (24) hour period. If an employee works thirty-two (32) hours in a pay period on emergency overtime work, that employee will not be subject to non-emergency necessary overtime work in the same pay period unless the employee volunteers for such work. An employee shall be obligated to work non-emergency necessary overtime work to the extent that the employee has not worked thirty-two (32) hours in a pay period as emergency overtime work, (defined below) i.e., emergency overtime hours worked shall reduce the hours' limitation for non-emergency necessary overtime in the same pay period.

C. Voluntary Overtime Lists.

Work units having overtime work will establish lists of employees who are available to work overtime on a voluntary basis. The initial order of call when the lists are established shall be by classification seniority; thereafter, employees will be called on a rotating basis subject to the operating procedure of the work unit. The operating procedure for such lists shall be developed by each work unit and shall take into account the nature of the overtime work available, skills required to do the overtime work, and the operational requirements of the work unit.

D. Emergency Overtime.

Emergency or unscheduled overtime is defined as overtime that is not scheduled a minimum of eight (8) or more hours in advance of the overtime work.

All employees are subject to working in emergency situations. An emergency includes, but is not limited to, situations which involve disruption of service to customers and actual or threatened danger of injury to person or damage to property or threat to public health and safety.

E. Non-Emergency Necessary Overtime.

The District will request volunteers for all available necessary overtime. Overtime work shall be distributed as equally as possible among qualified employees working within the same job classification, within the same work unit. No volunteer may work more than sixteen (16) consecutive hours without approval of the Division Manager.

No employee will be assigned to work more than sixteen (16) hours in any 24-hour period or to work more than thirty-two (32) hours per pay period of non-emergency necessary overtime work. The parties emphasize the distribution commitment contained in Article VII, Section B, to minimize the impact of assigned overtime on an individual employee. In the event an insufficient number of employees volunteer for necessary overtime, the District shall assign employees to fill vacancies (on a rotating basis) in inverse classification seniority order in the

affected unit. Whenever an employee is on standby, the District will not assign other overtime work to that employee unless the entire rotation of their classification has been exhausted and overtime is still necessary. However, an employee shall be permitted to volunteer for overtime during a week the employee is also on standby.

With District approval, employees may trade all overtime assignments. Until a trade is approved, all overtime assignments are part of an employee's job responsibilities.

Employees are expected to comply with overtime assignments and failure to do so shall subject an employee to appropriate discipline. However, an employee who, because of illness or other compelling emergency, is unable to work assigned or scheduled overtime, and who notifies the District a minimum of one (1) hour before the employee is scheduled to report to work, shall not be subjected to disciplinary action for failure to work.

F. Compensatory Time.

Compensatory time will be provided at 1.5 hours for each hour of overtime worked. Employees may receive a maximum of 75 hours compensatory time in lieu of paid overtime in a payroll year. Payroll year is defined as the period beginning with the first pay period for which pay is received in January and ending with the last pay period for which pay is received in December. All overtime worked after an employee has earned 75 hours of compensatory time in a payroll year will be paid at the appropriate overtime rate. All employees who have earned compensatory time at the end of the last pay period, for which pay is received in December, shall have that compensatory time carried over as compensatory time into the next (following) payroll year. All compensatory time carried over from the last payroll year to the next must be used by the end of the next payroll year or it will be paid out to the employee at the end of the next (following) payroll year at the applicable FLSA rate. Any compensatory time used in the next (following) year will first be deducted from any compensatory time that was carried over from the last payroll year, if any. Compensatory time earned after the last full pay period of the payroll year, but prior to the end of the calendar year, will be credited and included in the accrual for the following payroll year. Use of accumulated compensatory time shall be scheduled and approved by the District so as not to disrupt the operation of the work units.

G. Paid Meals.

Each employee who works continuously two (2) hours or more immediately after a regular scheduled shift workday shall be paid a meal allowance of \$20.00. In the event such an employee continues to work beyond such first two (2) hours, and such work is not part of the regular shift, the employee shall be paid an additional meal allowance of \$20.00 for each successive four (4) hour period so worked. In the event an employee works overtime that is not contiguous to their regular shift, the employee shall be paid a meal allowance of \$20.00 for each four (4) hour period worked.

ARTICLE VIII. STANDBY PAY

A. Compensation Rates.

An employee assigned to be on call during non-working hours shall receive a premium of twenty-five percent (25%) of their base pay during the standby period, provided such employee makes themselves available and responds to all calls for work. Overtime work performed during a standby period shall be paid at the rate of one and one-half (1-1/2) times the straight-time hourly rate for the time worked exclusive of such standby premium.

In the event an employee assigned to standby is not called for overtime work because of District error, which is verified by the District, the employee shall receive payment equivalent to 2.5 hours at their overtime rate exclusive of special or premium pay provided such employee makes themselves available and responds to all standby calls for overtime work during that week.

When an employee is on standby on a day that is designated as a District holiday, the employee shall receive standby pay for three (3) eight-hour standby periods on that holiday, in addition to receiving regular holiday pay.

B. Compliance.

Employees are expected to comply with standby assignments and failure to do so shall subject an employee to appropriate discipline. However, an employee who, because of illness or other compelling emergency, is unable to be available for standby, and who notifies the District at the onset of the illness or at the time they become aware of the compelling emergency, shall not be subjected to disciplinary action for failure to be available. Such employee shall only be compensated for the actual time he/she was available for standby.

ARTICLE IX. CALL TIME

A. Minimum Call Time Period.

Employees called to work outside of their regularly scheduled shift shall be paid for a minimum of two and one-half (2-1/2) hours at the appropriate overtime rate.

B. Shift Overlap.

If the call-time work assignment and the employee's regular shift overlap, the following shall occur:

1. The time that the minimum call-time guarantee overlaps the employee's regular shift will be paid as a premium using a separate payroll code and will not affect the employee's regular shift or hours. Minimum call-time overlap is a premium pay and is not subject to retirement withholding and will not be counted toward retirement service credit.

2. The District and employee will pay retirement contributions for the regular shift hours worked by the employee at the regular rate of pay and the employee will receive service credit in the Retirement System for the employee's regular shift hours.
3. No retirement contributions will be made for overtime compensation paid to the employee for the minimum overtime guarantee and no retirement service shall be credited for overtime work.

C. Rest/Meal Break.

If an employee is called to start work less than two and one-half (2- 1/2) hours before the start of their regularly scheduled shift, the employee shall be allowed a fifteen (15) minute break prior to the start of his/her shift. If the employee is called to start work two and one-half (2-1/2) or more hours before the start of their regularly scheduled shift, they shall receive a thirty (30) minute paid meal break prior to the start of their regular shift.

ARTICLE X. SHIFT DIFFERENTIAL

A. Definition and Compensation for 8-Hour Shifts:

Employees who work a scheduled eight (8) hour shift between the hours specified below shall receive shift differential as follows:

1. Scheduled shifts beginning between 12:00 p.m. through 7:59 p.m., an additional 10% of their hourly rate per hour.
2. Scheduled shifts beginning between 8:00 p.m. through 3:59 a.m., an additional 15% of their hourly rate per hour.

B. Definition and Compensation for 12-HourShifts:

Employees who work a scheduled twelve (12) hour shift between the hours specified below shall receive shift differential as follows:

1. Scheduled shifts beginning between 5:00 a.m. through 4:59 p.m., no shift differential.
2. Scheduled shifts beginning between 5:00 p.m. and 4:59 a.m., an additional 15% of their hourly rate per hour.

C. Continuous Operations.

In continuous operations, when an employee's shift is extended by additional hours either before or after the normal shift, overtime compensation shall be based on the hourly rate for the shift that was extended or actually worked, whichever is greater.

ARTICLE XI. CONTRACTING AND SUBCONTRACTING

A. Right to Contract.

The rights to contract and subcontract are vested exclusively in the District; provided, however, if such contracting or subcontracting work would result in the layoff of an employee in a classification set forth in Attachment A, the District will consult with the Union, prior to such contracting or subcontracting, in an attempt to avert, by reassignment or other reasonable means, the layoff of such employee.

ARTICLE XII. LEAVE PROVISIONS

A. Holidays.

4. Floating Holiday.

In addition to the holidays specified above, each employee shall receive one floating holiday per calendar year. The District will allow the individuals to choose any day as the floating holiday, with advance supervisor approval and subject to operational need. If all applicants for a day cannot be satisfied, selection of which requests are approved will be made on the basis of date of request.

If the floating holiday is not used by the last day of the last full pay period in the calendar year, it shall be forfeited. Use of this floating holiday after the payroll year but prior to the end of the calendar year will be charged against the following year's entitlement.

New hires who begin employment after November 30, will not receive Floating Holiday for that calendar year but will receive the Floating Holiday for each subsequent year.

5. Holiday Pay.

- (a) Employees who work on a designated holiday shall receive overtime pay for hours worked in addition to their regular straight time pay.

- (c) In the event that a holiday falls on an employee's day off, (including an employee's compressed day off) the employee will be credited with eight (8) hours of vacation, or the employee may choose to receive holiday pay, to be added to 80 hours of regular pay (a total of 88 hours at regular rate for the pay period). If the employee does not indicate that they wish to receive holiday pay, the holiday will be added to their vacation accrual.
- (d) In continuous operations and seven (7) day operations, the employee will receive the actual holiday according to the stated conditions, instead of the District observed holiday.
- (e) In the event that a holiday(s) falls on the employee's nine-hour day (or other regularly scheduled workday that is longer than 8 hours), the employee's ability to make up the shortfall of hour(s) shall be governed by section Article VII.A.2.

6. Holiday Pay Retirement Contributions and Career Credit

- (a) Eight Hour Work Schedule. Employees who work in a 24-hour continuous operation or a 7-day per week operation and are scheduled to work on a holiday and actually work on the holiday as specified in this MOU shall receive the following:
 - 1. Eight (8) hours of regular straight time pay for the holiday worked that will be subject to retirement contributions from both the District and employee and be counted toward retirement service credit.
 - 2. Eight (8) hours of holiday pay at the straight time rate that the employee may choose either to receive as pay or add to their vacation accruals. If taken as pay, holiday pay is a premium pay and is not subject to retirement withholding and will not be counted toward service credit.

If taken as pay; holiday premium pay is not subject to retirement withholding and will not be counted toward service credit. The four (4) hours of holiday premium pay will be reported using a separate payroll code.

(b) Compressed Work Week Schedule. Employees who work in a 24-hour continuous operation or a 7 day per week operation and work a compressed workweek schedule and are scheduled to work on a holiday and actually work on the holiday as specified in this MOU between the District and Local 39 shall receive the following:

2. Eight (8) hours of holiday pay at the straight time rate that the employee may choose either to receive as pay or add to their vacation accrual. If taken as pay, holiday pay is a premium pay and is not subject to retirement withholding and will not be counted toward retirement service credit.
3. Holiday premium pay equal to one-half of the duration of the employee's regularly scheduled workday at their regular straight time rate that may be paid or added to their compensatory time accruals in accordance with this MOU. If taken as pay, holiday premium pay is not subject to retirement withholding and will not be counted toward retirement service credit. The holiday premium pay equal to one-half of these regularly scheduled hours worked will be reported using a separate payroll code.
4. No retirement contributions shall be taken from overtime compensation paid to the employee for holidays and no retirement service credit for overtime work.

7. Holiday During Vacation.

Holidays that fall during a vacation shall not be charged against vacation credits.

8. One Day Special Birthday Float.

Each employee shall be granted special leave for their birthday based on the employment status of that employee, not to exceed a total of eight (8) hours within the payroll year of their birthday.

New hires who begin employment after November 30 will not receive the One Day Special Birthday Float for that calendar year but will receive the On Day Special Birthday Float for each subsequent year.

The District will make every reasonable effort to accommodate an employee's request for a specific special leave day off, subject to the operational needs of the District. This birthday float must be taken by the beginning of the last pay period in December. Eligible employees shall request and use the one-day special birthday float by the end of the last full pay period in the calendar year. If the one-day special birthday float is not used by the last day of the last full pay period in the calendar year, it shall be forfeited. Use of this birthday holiday after the payroll year but prior to the end of the calendar year shall be charged against the following payroll year.

B. Vacations.

1. Eligibility and Allowance.

Eligible employees shall accrue vacation leave on the basis of hours paid as follows:

<u>Continuous Service Years</u>	<u>Vacation Leave Hours Per Pay Period</u>	<u>Vacation Days Per Year</u>
1st through 4th	3.692	12
5th through 9th	4.616	15
10 years	5.539	18
11 years	5.539	18
12 years	5.539	18
13 years	5.847	19
14 years	6.154	20
15 years	6.462	21
16 years	6.770	22
17 years	7.077	23
18 years	7.385	24
19 and subsequent	7.693	25

2. Initial Use.

At any time after completion of six (6) months of service, an eligible employee may use the six (6) vacation days credited for the first six (6) months of employment. Thereafter, employees may use vacation leave equal to the accrued vacation leave credited to their account.

3. Use of Vacation.

A maximum of 50 vacation leave days (400 hours) may be deferred by employees annually unless there is a specific written authorization from the General Manager to exceed such limits. Any employee with deferred vacation accrued in excess of 50 days (400 hours) as of December 31 shall have their vacation leave balance adjusted and reduced to 50 vacation days (400 hours) via the two following options (or combination thereof):

- (a) use vacation hours in excess of 400 hours as of December 31 within the first three months of the next year; and/or
- (b) being paid for all unused hours in excess of 400 hours as of December 31 on the pay date of the second paycheck in April of the next payroll year.

4. Choice of Vacation.

- (a) Whenever possible, vacations shall be scheduled for the time requested by the employee. In order to avoid undue disruption of work activities or to minimize conflicts with other employees' vacations, the Division Manager or designee may place reasonable seasonal or other restrictions on the use of vacation. Restrictions shall be provided in writing to all impacted employees prior to the start of the annual vacation bid process.
- (b) Annual Vacation Bid Lists. The Water Treatment Section shall establish vacation lists by job classification for those employees that are assigned at each plant. A separate vacation list by classification shall be established for all employees who are not permanently assigned to a plant. Vacation selection will be by District seniority on plant lists.
 - 1. The most senior District employee on each list will make their first vacation choice and pass the list to the employee next on the seniority list. (The employee will make a selection within five (5) consecutive workdays after receiving the list. If the employee does not select vacation within the five (5) day period, he/she waives

selection for that vacation cycle and the list moves on to the next most senior District employee.) The list will be complete when all employees have made up to six (6) vacation choices.

- (c) Supervisors shall recommend the completed schedule to the Division Manager or designee. After the vacation schedule has been approved by the Division Manager or designee, an employee promoted or transferred into a unit may not "bump" another employee's previously scheduled vacation period without that employee's consent.

5. Vacation on Separation.

An employee eligible for vacation who is separated from District service for any reason shall receive a lump sum payment for any unused, earned vacation.

6. Vacation Sell Back.

An employee may sell back a maximum of two hundred (200) hours of vacation leave, or the amount of hours the employee will accrue in the next calendar year, whichever is less, to the District in one-hour increments during each calendar year. Employees may do so by making a one-time, irrevocable election no later than December 31 during the calendar year prior to the year the vacation hours are to be sold. The number of vacation hours an employee may elect to sell is limited to the number of vacation hours the employee will accrue in the following year, or 200 hours, whichever is less. The employee, at the time of election, may choose payments of vacation hours in either the first pay period in June or the first pay period in October (one date or the other, not both) in the calendar year following their submission of irrevocable election to sell. If the number of vacation hours elected to be sold exceeds the number of vacation hours actually accrued at the time of payment, vacation hours sold will be limited to the number of hours accrued and available at the time of payment. Payments to employees resulting from such sell back of vacation shall not be considered "compensation" as defined in the Retirement Ordinance for the purpose of calculating terminal compensation.

7. Unscheduled Vacation, Compensatory Time, and Floating Holiday Leave.

- a. Supervisors shall approve leave requests for unscheduled (not included in annual bid) vacation, compensatory time off, and floating holiday leave if the following conditions are satisfied:
 - 1) Leave is requested at least two (2) weeks in advance.
 - 2) Coverage is available for the shift (the Roving Operator is available, there are no conflicting training

requirements, or other disruptive schedule changes required for other operators).

- 3) There is no operational need to deny the leave as determined by the supervisor.
- 4) Leave requested less than two (2) weeks in advance will only be considered on a case-by-case basis.

b. Leave Requests When Another Operator Already Has Approved Leave Or When Bid Shift Coverage Is Not Available. When an employee requests leave for the same period that another employee already has approved leave or when coverage for a bid shift is not available, the supervisor will consider the following factors in evaluating the leave requests:

- 1) Leave is requested at least two (2) weeks in advance.
- 2) There is no operational need to deny the leave as determined by the supervisor.
- 3) No significantly disruptive schedule changes are required for other operators.
- 4) Controllable plant overtime is within acceptable limits.

C. Sick Leave.

1. Eligibility. Any represented employee who, through no fault of their own, is unable to be present to perform their duties due to illness, injury, medical or dental treatment, or serious medical emergency in the employee's immediate family shall be granted sick leave in accordance with the provisions of this Section.
2. Accrual. Employees shall accrue four (4) hours of sick leave for each full biweekly pay period of continuous service, to a maximum of 1040 hours (130 days). There shall be no sick leave accrual for any workday of unpaid leave in excess of twenty (20) workdays in a calendar year.
3. Use. All sick leave used shall be deducted from the employee's accrued sick leave, with the minimum chargeable time being thirty (30) minutes. When accrued sick leave is exhausted, unpaid sick leave may be granted.

4. Sick Leave/FMLA. Eligible employees who are on paid sick leave or job injury leave will be granted simultaneous leave pursuant to the Family and Medical Leave Act (FMLA).
5. Family Sick Leave. When employee absence is required due to medical reasons (e.g., illness or medical appointment) in the employee's immediate family (i.e., parents; step parents; spouse; registered domestic partner; child (biological, adopted or by marriage); or siblings) a maximum of thirteen (13) days (104 hours) of accrued sick leave may be used in a payroll year. Payroll year is defined as the period beginning with the first pay period for which pay is received in January, and ending with the last pay period for which pay is received in December.
6. Substitution of Sick Leave for Vacation. If an employee becomes ill and takes sick leave before a scheduled vacation begins, the starting date of vacation may be postponed or vacation rescheduled as approved by the District. If an employee becomes ill after their last workday before vacation begins or during vacation and the illness extends more than two (2) vacation days, accumulated sick leave shall be substituted for vacation leave for each full day involved. Each vacation leave day that an employee was hospitalized may be converted to sick leave upon submission of satisfactory evidence of hospitalization. Request for such substitution shall be made when the employee returns to work, unless they wish to extend their absence, in which case they shall contact their supervisor before they are scheduled to return to work. Request for sick leave substitution shall be accompanied by a doctor's statement or other satisfactory evidence verifying the length of time the employee was incapacitated.
7. Limitations. An employee who is unable to report for work and who fails to notify their supervisor in accordance with work unit procedures, may not qualify for paid sick leave. An employee whose illness or injury arises out of non-District employment is not entitled to sick leave. All sick leave use is subject to review, verification and approval by the District. A doctor's certificate indicating time under doctor's care, approval for return to work, and any work limitations is required if sick leave extends to ten (10) consecutive workdays or more. Upon return to work from sick leave, the employee's supervisor and Department Director/Division Manager may require an employee to be evaluated by a District-selected physician, if there is reasonable concern about the employee's fitness for duty, or endangering the health of other employees. These evaluations will be conducted on District time.

8. Retirement Credit. Consistent with the terms and conditions of the Retirement Ordinance, when an employee's sick leave accumulation reaches the maximum of 1040 hours (130 days), any hours which would have otherwise accrued thereafter shall be accumulated without limit. Such hours, when added to the existing sick leave accumulation, become Service Extension Credit, to be applied when computing the employee's retirement allowance.
9. Service Extension Credit/Conversion. When an employee is released for return to work as shown by medical evidence satisfactory to the District, after sick leave extending for ninety (90) calendar days or more, the hours of sick leave taken shall be restored to the employee's sick leave account by deducting that number of hours from any service extension credit in the employee's account at the time of return to work to a maximum of five hundred twenty (520) hours. Such sick leave shall be credited and available for use after the employee's return to work.
10. Sick Leave Buy Back. Employees who use 18 hours or less of sick leave in a six month period are eligible to sell back 8 hours or 16 hours of sick leave to the District. Eligible employees may also convert 8 hours or 16 hours of sick leave to vacation hours.
11. Sick Leave Pay-Out in Lieu of Service Extension Credit. Employees who separate from service due to retirement shall have the option of receiving a lump sum cash payment equal to the value of fifty percent of the accrued hours in the employee's sick leave account and Service Extension Credit account, at base rate, not including shift or other differential or premiums, less applicable taxes, instead of receiving the Service Extension Credit pursuant to Article XIIC 9 and the Retirement Ordinance. Such lump sum payment shall not be considered "compensation" as defined in the Retirement Ordinance for the purpose of calculating terminal compensation.

D. Special Leave.

1. Bereavement.
 - a. Death in Family. In the event of death in an employee's immediate family (i.e., parent, parent-in-law, stepparent, spouse, domestic partner, child, stepchild, sibling, grandparent, grandchild or any other person sharing a comparable relationship resulting from a registered domestic partner relationship), the employee shall be granted 40 hours special leave.

In the event of reproductive loss, defined as the day or, for a multiple-day event, the final day of a failed adoption, failed surrogacy, miscarriage, still

birth, or unsuccessful assisted reproduction, the employee shall be granted up to (5) workdays of special leave. To be eligible for reproductive loss leave the employee must have been employed for at least thirty (30) calendar days, experienced the reproductive loss, or be the current spouse or domestic partner, or another individual, if the employee would have been a parent of the child born or adopted. If an employee experiences more than one reproductive loss event within a twelve (12) month period, the employee shall not be granted more than a total of twenty (20) days of leave.

- b. Funeral of Relative. An employee shall be granted eight (8) hours of special leave to attend the funeral of a close relative not in the employee's immediate family. Close relative includes, spouse's grandparent, mother-in-law, father-in-law, daughter-in-law, son-in-law, sister-in-law, brother-in-law, spouse's sister-in-law, spouse's brother-in-law, and employee's aunt, uncle, niece, nephew, and first cousin.
 - c. Other Deaths. An employee may request authorization by the General Manager or their designee for special leave involving deaths other than those listed in paragraphs XII D1 and XII D2 above, where the employee considers special leave justified. The decision of the General Manager is final and not subject to appeal.
 - d. Death in Family, Funeral of Relative, and Other Death Leave Use. This leave shall be taken immediately following the death of the person unless, because of extenuating circumstances, another specified time is required and specific written authorization is granted by the General Manager to defer such leave to another specified period of time.
2. Jury Duty. An employee shall be granted necessary special leave for jury duty as detailed in an appropriate summons or order. The employee must immediately notify the supervisor when they receive a jury duty summons and provide a copy of the instructions that they receive. Employees shall follow the instructions of the jurisdiction for which they are summoned, but must report back to work as soon as possible if not required to be present for jury duty or if released from jury duty during the workday.
- a. For employees who are empaneled and work a schedule other than normal business hours (e.g. Monday to Friday, 8 am to 5 pm) , at the employee's request, the supervisor will consider transferring the employee to a Monday through Friday day shift assignment starting the week of the jury duty assignment. If the employee starts jury duty mid-week, they will work the days of the week on Monday through Friday day shift schedule prior to starting jury duty.

- b. The employee on jury duty may remain on Monday through Friday day shift assignment until the jury duty assignment is completed. The employee shall notify the supervisor as soon as the jury duty assignment is completed. The employee may finish out the week on a Monday through Friday day shift assignment and return to their regular assignment the following week. The employee shall give the supervisor necessary paperwork to show days served on jury duty.
 - c. Employees placed on a Monday through Friday day shift schedule will continue to receive their shift differential and any other additional pay/differentials while on jury duty.
- 3. Court Appearance. An employee subpoenaed to appear before a court or other public body on any matter not related to their work shall be granted special leave for such purposes. Such leave shall not be granted if the employee is the plaintiff or defendant or if the court appearance is in the Family Law or Juvenile Division of the Superior Court unless otherwise provided by law.
- 4. Military Physical Examination. An employee shall be granted special leave to take a required military physical examination.
- 5. Military Leave. The District shall grant military leave in accordance with applicable laws of the State of California.
- 6. Blood Donations. Consistent with District operating requirements, employees shall be granted special leave of two (2) hours for giving blood donations at the District, Union, accredited hospital or Red Cross blood banks.
- 7. Voting Time. An employee who is eligible to vote in primary and general elections shall be granted special leave, when required, if the employee is unable to cast their ballot outside of their regular working hours, not to exceed two (2) hours, at a time when the polls are open, in accordance with California State Law.

E. Job Injury Leave.

- 1. Eligibility. Job injury leave shall be granted an employee who is unable to report to work following an injury or industrial disease which arises out of and during the course of their employment, provided that:
 - a. Requests for leave are accompanied by a statement from an authorized treating physician indicating the nature of the injury and an estimate of the time the employee will be incapacitated from work; and

- b. The reported injury or disease is accepted as compensable by the District Workers' Compensation Administrator.
2. Compensation. When a job injury leave is authorized, the District will grant paid leave or supplement payments made by the Workers' Compensation Administrator so that the employee will suffer no loss in their regular pay for a period not to exceed 480 total hours for each such authorized injury. When lost time totals 480 hours, the employee may choose to receive, or they may choose to use, their accrued sick leave and/or vacation leave and/or compensatory time to supplement their compensation payments so that they will suffer no loss in their regular pay until such accrued sick leave and/or vacation leave and/or compensatory time is exhausted.
3. Designation of Employee Personal Physician. Notwithstanding the above, pursuant to and consistent with applicable law, an employee may seek treatment from their personal physician. The employee must select their personal physician thirty (30) days prior to the injury by submitting a completed "Designation of Personal Physician". The personal physician must have treated the employee previously and maintain records of prior treatment. If a chiropractor is selected, the employee must initially see a District-designated physician.

The Superintendent shall provide a written answer to the employee that sets forth the Superintendent's rationale and decision within fifteen (15) calendar days of receipt by the Superintendent of the "Statement of Grievance Form". The decision of the Superintendent shall be applicable only to the grievance being reviewed and considered.

The purpose of the Board of Adjustment meeting shall be (1) to review the facts of the grievance and to conduct a further investigation of the situation if appropriate, and (2) to explore alternative methods of resolving the grievance. H. Election of Remedies.

It is specifically and expressly understood and agreed that taking a grievance appeal to arbitration constitutes an election of remedies and a waiver of any and all rights by the appealing employee, the Union, and all persons it represents to litigate or otherwise contest the appealed subject matter through the District Civil Service Procedure.

Litigation or any other contest of the subject matter in any court or other available forum shall constitute an election of remedies and a waiver of the right to utilize this grievance procedure or to arbitrate the matter. This paragraph is not intended to bar an employee from pursuing any cause of action which has been established by statute.

I. Waiver of Steps and Time Limits.

Except when otherwise provided, all steps of the grievance procedure shall be utilized unless a waiver of one (1) or more steps is mutually agreed upon in writing. If the employee or the Union fails to process a grievance within specified time limits, the grievance shall be deemed concluded on the basis of the last decision reached, unless an extension of time limits is mutually agreed upon by the parties in writing. If the District fails to respond within the specified time limits, the grievant may appeal the next step, within the specified time limits.

J. Suspension of the Grievance Procedure.

If this Memorandum is violated by the occurrence of a strike, work stoppage, other interruption, or impending disruption of work, no grievance shall be processed while such violation continues. The grievance procedure outlined herein shall not be applicable to grievances arising in the period between the termination of this Memorandum and the effective date of its successor. However, if the parties, despite the termination of the Memorandum, are continuing to

meet and confer in good faith and an impasse in the negotiations has not been reached, the grievance procedure shall continue to be applicable.

- D. **Savings Clause and Future Negotiations.** Should any part of this Memorandum, or any provision contained herein, be rendered or declared invalid by reason of any existing or subsequently enacted legislation, or by any decree of any court of competent jurisdiction, such invalidation of such part or portion of this Memorandum shall not invalidate the remaining portions thereof. The remaining portions or parts shall remain in full force and effect. It is mutually agreed that upon any such invalidation, the District and the Union will meet and confer with reference to the parts and provisions thus invalidated.

Scope of Agreement. Except as otherwise specifically provided herein, this Memorandum fully and completely incorporates the understanding of the parties hereto and constitutes the sole and entire Memorandum between the parties on any and all matters contained in this Memorandum. Neither party shall, during the term of this Memorandum, demand any change therein; provided, however, that nothing herein shall prohibit the parties from changing the terms of this Memorandum by mutual agreement.

EXHIBIT B

PREAMBLE

This Collective Bargaining Agreement (hereinafter "Agreement") is entered into by the East Bay Municipal Utility District (hereinafter "District") and International Federation of Professional and Technical Engineers (hereinafter "Union"). The District and the Union agree that this Agreement shall be administered by the parties in a manner consistent with the District's mission; specifically, to manage the natural resources with which the District is entrusted, to provide reliable, high-quality water and wastewater services for the people of the East Bay and to preserve and protect the environment for future generations.

ARTICLE I- GENERAL PROVISIONS

A. Recognition. The District recognizes the Union as the exclusive bargaining representative for all employees of the District included in the unit and classifications listed in Appendix A of this Agreement. The terms and conditions of this Agreement shall be automatically applicable to any classification for which the Union has become the recognized bargaining representative during the term of this Agreement.

B. Automatic Pay roll Deduction and Remittance. Upon certification by the Union that an employee has signed a deduction authorization, the District will deduct the appropriate dues from the employee's pay, as established and as may be changed from time to time by the Union and remit such dues to the Union. Employee requests to cancel or change deductions must be directed to the Union, rather than the District. Deductions will continue unless the employee mails a written revocation to the Union in accordance with the terms of the authorization form, or absent any such terms, by mailing a written revocation to the Union that is postmarked during the thirty (30) calendar day period immediately prior to the annual anniversary on which the employee signed an authorization form.

The effective date of dues deductions for employees shall be made from the pay due employees on the first payday of each calendar month following the Union's notification to the District of the dues deduction authorization. The effective date of any revocation to an existing authorization will be effective on the first pay day of the next calendar month following the Union's written notice of revocation no less than seven (7) calendar days prior to the first payday of the month. Requests to begin or revoke dues that are received with less than seven (7) calendar days prior to the first payday of each month will be processed the following month.

a. The District shall not be liable to the Union by reason of the requirements of this Section for the remittance of payment of any sum other than that constituting actual deductions made from the pay earned by the employee. In addition, the Union shall indemnify and save the District

harmless from any liability resulting from any and all claims, demands, suits or any other action arising from compliance with this Section, or in reliance on any list, notice, certification or authorization furnished under this Section. The Union agrees to refund to the District any amount paid to it in error.

C. District Rights. The rights of the District include, but are not limited to, the exclusive right to determine the missions of its constituent departments and divisions; set standards of services; determine the procedures and standards of selection for employment and promotion; direct and assign its employees; take disciplinary action; relieve its employees from duty because of lack of work or for other legitimate reasons; maintain the efficiency of District operations; determine the methods, means and personnel by which District operations are to be conducted; determine the content of job classifications; take all necessary actions to carry out its mission in emergencies; and exercise complete control and discretion over its organization and the technology of performing its work; provided, however, that the exercise of such District rights shall not conflict with the express provisions of this Agreement. Members of the bargaining unit may be required to exercise any or all of these rights on behalf of the District in the regular performance of their supervisory duties.

D. No Discrimination/Harassment/Workplace Violence. There shall be no discrimination, harassment, or retaliation of any kind by the Union or the District against any employee, to the extent the applicable law prohibits such conduct based on a protected basis such as race (i.e. racial characteristics including hair style/texture), color, religion, creed, sex, reproductive health decision making, gender, gender identity (including transgender status), gender expression, marital or registered domestic partnership status, age for individuals forty or older, national origin, ancestry, disability (mental or physical), medical condition (cancer or genetic characteristics), genetic information, sexual orientation, military and/or veteran status, family or medical leave status, pregnancy (including childbirth, lactation or related medical condition), pregnancy disability leave status, domestic violence victim status, political affiliation, or any other status protected by federal, state and/or local laws.

To the extent applicable law prohibits, there shall be no discrimination or harassment because of lawful Union activity, Union membership, or non-membership.

E. No Harassment, Disparate Treatment and Inappropriate Behavior.

In addition to behavior which violates Paragraph D above, the following behavior will not be permitted, tolerated, or condoned:

Dishonesty, including providing false information to District management about the performance of an employee or circulation of private personnel files;

Abusive, threatening, or intimidating behavior, gestures or language;

Physical threats or physical striking of an employee;

Repeated threats of discipline without counseling, warning, investigation, or a progressive disciplinary approach, including untimely discipline;

Inequitable treatment regarding the application of District policies, District rules, this Contract, or those items listed in Paragraph D above;

Disrespect toward each other regardless of position, status, or job responsibilities.

F. Union Activities.

1. Union Business Leave. The District agrees to provide Union representatives with reasonable time off to conduct Union business and to represent the Union in various forums, including but not limited to meetings, hearings and Board of Directors' meetings. Employees eligible to receive overtime need to be released to attend meetings with the District or to conduct any Union business. The District and the Union will discuss and agree upon the appropriate number of representatives to attend meetings.

2. Officers and Stewards. The Union agrees to provide the District with an accurate list of its officers and stewards and to notify the District in the event officers or stewards are succeeded by different individuals.

3. Union Access.

a) Bulletin Board Postings. The District agrees to provide adequate space on District bulletin boards to permit the posting of information and reasonable use of email to notify members of Union activities, policies and announcements of scheduled Union meetings. The Union will provide copies of the bulletin board postings and/or email notices to the Director of Employee Relations.

Notices posted by the Union on District bulletin boards and internal email notices should not contain anything which may reasonably be construed as maligning to the District or any of its employees and may not contain any political campaign recommendations or information. These privileges may be revoked in the event of repeated abuse after the Director of Employee Relations consults with representatives of the Union.

b) Work Locations. The Union shall have reasonable access to all work locations to verify that the terms and conditions of this Agreement are being carried out and for the purpose of conferring with employees, provided that access shall be subject to such rules and regulations immediately below, as well as to such rules and regulations as may be agreed to by a department and the Union. Union access to work locations will not disrupt or interfere with a department's mission and services. Arrangements for visits to District premises by accredited-non-employee representatives shall be made through the Director of Employee Relations.

c) Meeting Space. Union representatives must identify themselves upon arrival at the District. Union representatives may use department meeting space with a reasonable amount of notice, subject to availability. Nothing herein is intended to disturb existing written departmental Union access policies.

d) New Employee Orientation. A "new employee orientation" is the onboarding process of newly hired District employees when they receive information about their employment status, rights, benefits, duties, and responsibilities, and any other employment related matters.

A "new employee" includes a permanent, temporary, full-time, part-time, or seasonal employee who is represented by Local 21.

The District will provide at least 10 days' notice to the Local 21 representative of a pending new employee orientation for the representative's bargaining unit member(s).

The District may provide a shorter notice in a specific instance where there is an urgent need critical to the District's operations that were not reasonably foreseeable.

The Local 21 representative will be granted reasonable release time to travel to and from the meeting and will have 30 minutes to address the new employee(s) without management presence.

The District and Local 21 agree that notification will include location and time of the new employee orientation.

If the Local 21 representative is not available on the day of the new employee orientation, they may arrange with the District to meet the new employee on another day during the employee's first week at work.

e) Employee Information. The District will provide Local 21 with a new employee's name, job title, department, mail stop, work, home and personal cellular telephone numbers on file with the employer (if available), and the home address of the new employee within 30 days of the employee's start date. All the information referenced in the preceding paragraph for all employees Local 21 represents will be provided on a monthly basis. Consistent with Government Code section 6254.3, employees may opt to prevent the personal contact information from being released to Local 21 by making a written request to that effect.

G. Interference With Work. The Union agrees to refrain from engaging in, encouraging, or condoning, either directly or indirectly, any strike, work stoppage, slow-down, sit-down, stay-away, picketing, or any other forms of interference with operations of the District during the term of this Agreement. The District agrees that there shall be no lock-out against employees during the life of this Agreement.

H. Indemnification.

1. **Definition.** The District shall defend and indemnify its employees and former employees against liability for acts or omissions committed within the scope of their employment pursuant to the California Tort Claims Act ("Act"), Government Code Sections 810 *et seq.*, unless the District determines that there exists one of the exceptions provided by the Act listing grounds for refusal to defend and/or indemnify the employee.

2. **Scope.** Nothing in this Section is intended to expand or limit the District's duty or discretion to defend and/or indemnify employees under the California Tort Claims Act except, however, that the District shall provide for the defense of an employee in a criminal action or proceeding brought against the employee if (a) the criminal action or proceeding is brought on account of an act or omission in the scope of their employment as an employee of the District; and (b) the District determines that the employee acted, or failed to act, in good faith, without actual malice and in the apparent interests of the District. The District will not provide a defense to an employee in a criminal action or proceeding if (a) the employee fails to reasonably cooperate in good faith in the defense of the action or proceeding; (b) the act or omission was not within the scope of their employment; (c) the employee acted, or failed to act, in bad faith and with actual malice; or (d) the defense of the action or proceeding by the District would create a specific conflict of interest between the District and the employee. For purposes of this Section, "specific conflict of interest" means a conflict of interest or an adverse or pecuniary interest for which the District is excused from providing a defense by statute or by a rule or regulation of the District. When retention of outside counsel is necessary as deemed by the District, the District will consult with the employee in the selection of outside counsel but reserves the right to make the final determination with respect therein. The District also reserves the right to conduct the employee's defense against the criminal action or proceeding pursuant to an agreement with the employee reserving the District's rights against the employee.

3. **Interpretation.** The interpretation, application and enforcement of this Section shall not be subject to the grievance and arbitration procedure of this Agreement, or the civil service grievance and hearing procedures of the District's Civil Service Personnel Rules and Regulations. Nothing in this Section shall be construed to deprive an employee of the right to petition for a writ of mandate to compel the District to perform the duties imposed by the California Tort Claims Act.

4. **Employee.** For purposes of this Section, the term "employee" includes any current employee of the District and any former employee who was employed by the District at the time of the act or incident for which a criminal or civil action or proceeding has been brought against that person, in their official or individual capacity, or both.

a) All employees transferred from Management Salary Plan (MSP) to the Local 21 Salary Schedule who are below the top step of the new range of their assigned classification will be placed at the nearest step that is not less than their current salary.

b) All employees whose salary is above the top step of the new range of their classification at the time of system conversion will continue to be paid their current salary and continue to receive all future salary increases so long as they remain in the same classification. Any employee who is assigned to a temporary LT or TC classification at the time of system conversion and who would have a salary in their regular civil service classification that is above the top step of the new range for that classification will receive the salary, above the top step of their regular class, that they would have received had they been assigned to their regular class on system conversion, when they return to their regular civil service classification.

B. Career Service Pay.

1. Eligibility. Each employee who is employed by the District prior to January 1, 2013 or who is an employee covered by the 1980 Retirement Plan shall be entitled to a salary increment following completion of twenty (20) years' continuous full-time District service. The adjustment for such employee shall be 2.75% (plus or minus no more than one dollar per month) added to the monthly salaries set forth, exclusive of overtime, night shift differential, standby pay or merit pay. Employees who receive this benefit are not eligible for the benefit listed in Section E.2 below.

2. Employees who are covered by the 2013 Retirement Plan shall be entitled to a salary increment of 3.75% (plus or minus no more than one dollar per month) following completion of twenty (20) years' continuous full-time District service. The

adjustment shall be added to the monthly salaries set forth, exclusive of overtime, night shift differential, standby pay or merit pay. Employees who receive this benefit are not eligible for the benefit listed in Section E.1 above.

C. Performance Pay.

1) Program. Employees on the Local 21 Salary Schedule will be eligible to receive lump sum merit awards in accordance with the Performance Pay Program Guidelines. The performance pay monetary pool available to Local 21 represented employees for each program year will be 3.85% of the fiscal year (July 1 to June 30) monetary pool including salary increases that occurred during the same fiscal year (i.e. fiscal year 2026 includes salary increases from April 2026).

In the event that the total amount of all recommended individual awards is below or in excess of the available agreed monetary pool for any given Performance Pay Program Year there will be a proportionate increase or reduction in individual performance awards until the total amount of all awards is equal to the available monetary pool for that year.

2) Awards. Performance pay lump sum awards will be granted based on each employee's performance rating as follows:

Unsatisfactory	0%
Needs Improvement	0%
Meets Expectations	2.5%
Exceeds Expectations	4.5%
Exceptional	6.5%

D. Overtime and Fair Labor Standards Act Exception. The parties agree that the employees in classifications represented by Local 21 are exempt employees under the Fair Labor Standards Act (FLSA) except for those employees in classifications in Work Group I (Appendix A).

1. Work Group I (Appendix A). Employees in classifications in Work Group I shall be provided overtime compensation (one and one-half times (1.5) their regular rate) for each hour worked beyond their regular workday or work week as established by the District.

Exception: Compressed Work Week Holiday Work. When a holiday(s) falls on the employee's nine-hour day (or other regularly scheduled workday that is longer than 8 hours), the employee may be allowed to make up the shortfall of hour(s) within the same workweek as the holiday(s), and the additional hour(s) will be paid at the employee's regular rate of pay. If the employee fails to account for the additional hour(s), the hour(s) will be charged to vacation on the employee's timesheet. If the employee does not have any available vacation accrual, the time will be unpaid.

Article II of the MOU must be read in conjunction with the Compressed Workweek Guidelines with respect to holidays only.

Employees in Work Group I are eligible to receive compensatory time in lieu of paid overtime. Compensatory time will be provided at 1.5 hours for each hour of overtime worked. Employees may receive a maximum of seventy-five (75) hours compensatory time in a payroll year. Payroll year is defined as the period beginning with the first pay period for which pay is received in January and ending with the last pay period for which pay is received in December. All overtime worked after an employee has earned 75 hours of compensatory time in a payroll year will be paid at the appropriate overtime rate. All employees who have earned compensatory time at the end of the last pay period, for which pay is received in December shall have that compensatory time carried over as compensatory time into the next (following) payroll year. All compensatory time carried over from the last payroll year to the next must be used by the end of the next payroll year or it will be paid out to the employee at the end of the next (following) payroll year at the applicable FLSA rate. Any compensatory time used in the next (following) year will first be deducted from any compensatory time that was carried over from the last payroll year, if any. Compensatory time earned after the last full pay period of the payroll year, but prior to the end of the calendar year, will be credited and included in the accrual for the following calendar year. Use of earned compensatory time off shall be scheduled and approved by the District so as not to disrupt the operation of the work unit of the District.

All employees in Work Group I are required to work in emergencies and necessary overtime situations.

2. Work Group II (Appendix A). Employees in classifications in Work Group II are salaried exempt under the FLSA. Employees in classifications in Work Group II:

- a) Do not receive extra compensation on the basis of hours worked, except as authorized by the General Manager.
- b) Are not subject to salary deductions except as permitted by FLSA. Vacation leave, sick leave, administrative leave, birthday holiday and floating holiday will be taken in full day increments.
- c) Notify supervisors in advance of absences :from work for any time missed during their regularly scheduled workday. Employees in classifications in Work Group II are required to be present at the workplace when it is necessary to carry out their responsibilities.
- d) Continue to record work time for specific projects or activities for the purpose of allowing the District to allocate costs.

It is understood that tardiness or absenteeism that adversely affects work

performance or District operations will continue to be grounds for disciplinary actions permitted under FLSA.

3. Management Administrative Leave - Work Group II (Appendix A). Employees who are in Work Group II and who are not eligible for overtime compensation or call back pay shall be entitled to administrative leave of seven (7) days per payroll year. Any administrative leave left in an employee's account at the end of the payroll year will be forfeited. (Employees in Work Group I do not receive management administrative leave.)

a) Administrative leave can only be taken in full day increments.

b) Employees hired by the District prior to September 30 of any calendar year in a classification in Work Group II will receive seven (7) days management administrative leave. Employees hired between October 1 and October 31 in the calendar year will receive two (2) management administrative leave days. Employees hired between November 1 and November 30 in a calendar year will receive one (1) management administrative leave day. Employees hired after November 30 in a calendar year will not receive management administrative leave.

E. Paid Standby.

1. Eligibility. An employee assigned to be on paid standby shall receive compensation for standby assignments in the amount of thirty percent (30%) of their weekly straight time pay rate per week (base hourly rate x 40 hours) of standby assignment (exclusive of any overtime or other pay premiums). Standby for an individual 8-hour shift will be calculated by dividing the 30% of weekly straight time pay rate (exclusive of overtime and other premiums) by the number of standby shifts in a week (16). Employees who complete a standby shift will be eligible for standby pay provided, the employee must make themselves available and respond to all calls and be available to work.

Employees in Work Group I (Appendix A) who are hourly employees entitled to overtime compensation shall also receive compensation for overtime work actually performed during periods of standby. Employees in Work Group II (Appendix A) who are salaried employees and exempt from overtime requirements shall not receive overtime compensation for work actually performed during periods of standby. In no event shall this Agreement provision cause a reduction in the weekly salary of employees designated exempt from overtime under the provisions of the FLSA.

2. Process. Each work group where the District requires formal standby will create a rotational scheduling process that will utilize qualified volunteers prior to assigning standby to an employee. Employees are expected to comply with standby assignments and failure to do so shall subject an employee to appropriate discipline.

3. **Supervisory Duties.** It is expressly understood that this paid standby program does not relieve supervisors of the requirement to be available to perform supervisory duties on off hours as necessary or required by the District without standby compensation.

F. Call Time. The call time provisions for Work Group I (Appendix A) employees who are eligible for overtime are as follows:

1. **Minimum Call Time Period.** Employees called to work outside of their regularly scheduled shift shall be paid for a minimum of two and one-half (2-1/2) hours at the appropriate overtime rate, unless a remote response is required as described in this Article.

2. **Shift Overlap.** If the call time work assignment and the employee's regular shift overlap, the employee shall be paid at the overtime rate until they complete two and one-half (2- 112) hours worked. The employee shall be paid for the balance of the regular shift at the straight- time rate.

The time that the minimum call time guarantee overlaps the employee's regular shift will be paid as a premium using a separate payroll code and will not affect the employee's regular shift or hours. Minimum call time overlap is a premium pay and is not subject to retirement withholding and will not be counted toward retirement service credit.

The District and employee will pay retirement contributions for the regular shift hours worked by the employee at the regular rate of pay and the employee shall receive service credit in the Retirement System for the employee's regular shift hours.

3. **Rest/M meal Break.** If an employee is called to start work less than two and one- half (2-1/2) hours before the start of their regularly scheduled shift, the employee shall be allowed a fifteen (15) minute break prior to the start of their shift. If the employee is called to start work two and one half (2-1/2) or more hours before the start of their regularly scheduled shift, they shall receive a thirty (30) minute paid meal break prior to the start of their regular shift.

4. **Remote Response.** An employee, whether or not on paid standby, who is contacted by an authorized District employee regarding work related issues that requires a response outside of the employee's regular work hours, but not directed to report to a work site shall be compensated for a minimum of one (1) hour at the appropriate overtime rate. This section shall apply to work that can be completed from a remote location. This provision does not apply to inquiries regarding administrative matters

G. Shift Differential. This Section applies to represented employees in Work Group I (Appendix A) who are scheduled to work shifts.

1. **Premium.**

A. Definition and Compensation for 8-Hour Shifts: Employees who work a scheduled eight (8) hour shift between the hours specified below shall receive shift differential as follows:

1. Beginning at 11:00 a.m. through 10:59 p.m. an additional 10% of their hourly rate per hour.
2. Beginning at 11:00 p.m. through 3:59 a.m., an additional 15% of their hourly rate per hour.

B. Definition and Compensation for 12-Hour Shifts: Employees in continuous operations who are scheduled to work a twelve (12) hour shift between the hours specified below shall receive shift differential as follows*:

1. Beginning at 7:00 a.m. through 7:00 p.m., no shift differential.
2. Beginning at 7:00 p.m. through 7:00 a.m., an additional 15% of their hourly rate per hour.

* Please refer to Article 111.C: Days and Hours of Work

2. **Continuous Operations.** In continuous operations, when an employee's shift is extended by additional hours either before or after their normal shift, overtime compensation shall be based on the rate for the shift that was extended or actually worked, whichever is greater.

H. Work-Out-of-Classification

1. **Definition.** When an employee is designated by the District to work in a higher classification and perform the duties of that classification to temporarily replace another employee, they shall be paid the appropriate higher rate for such work retroactive to the first day the employee was assigned. In the case of work out of classification assignments replacing another employee in a higher classification and expected to last seven (7) calendar days or longer, the employee must assume the work schedule of the employee being replaced. Whenever practical, work out of class assignments to an individual will be made in increments of (five) 5 workdays or more.

The District shall make reasonable efforts to distribute work out of class on an equal and rotational basis for qualified employees. For employees in Workgroup I, assignments to perform the work of a higher classification pursuant to this Section shall be tracked by hours worked and shall not exceed 480 hours in a calendar year. By use of this Section, the District shall not attempt to avoid District Civil Service Rules and the filling of regular full-time positions.

2. **Purpose.** The purpose of this Section is not to restrict training opportunities but to encourage proper classification and compensation for work performed.

3. **Training.** Nothing herein shall prohibit the training of an employee in work of a more advanced nature without additional compensation, as long as full duties are not substantially assumed.

4. **Compensation.** Employees shall receive 5% Work-Out-of-Class pay or minimum of the range whichever is greater, not to exceed range maximum.

5. **Process.** The District will first request qualified volunteers for work-out-of-class assignments but in the event that there are no qualified volunteers, the District will assign the work- out-of-class to a qualified employee.

I. Paid Overtime Meals. Represented employees in Work Group I (Appendix A) required to continue work for two (2) or more hours of unscheduled overtime prior to their shift or beyond their regular quitting time shall receive overtime meal allowance twenty-five dollars (\$25.00). Employees shall be provided an additional meal allowance (\$25) for every additional completed four (4) hours of unscheduled overtime work. Emergency or unscheduled overtime work is defined as overtime work that is not scheduled a minimum of eight (8) or more hours in advance of the overtime work. Scheduled or planned overtime work on a regular workday or sixth or seventh day in a week shall not require a meal allowance unless an employee works two (2) or more consecutive hours beyond their regular eight (8) or more hour scheduled shift.

If an employee works unscheduled overtime resulting in their eligibility for an additional meal period, time taken for the additional meal period at the work location shall be paid time. Time taken for additional meal periods away from the work location shall be unpaid time. To be eligible to receive the additional meal period, employees who work unscheduled overtime must report this overtime to their direct supervisor.

J. Salary on Promotion. Salary on promotions will be the closest step of the new range that ensures a minimum increase of 5% provided that such increase does not exceed the top step of the range.

K. Bilingual Pay. Employees using more than one language (spoken, written or in sign language) in the course of their employment may be paid \$200/month for use of each language, including sign language, provided the following conditions are met: a) the District verifies in writing the recurring need to utilize the second language skill on the job, b) the District verifies the employee's language proficiency, and c) the District has the exclusive right to determine the need for job required usage of the second language, the number of persons receiving the pay, and which individuals will be assigned duties requiring second language proficiency. Employees on unpaid status for two consecutive pay periods, due to illness or injury, will have their bilingual premium payments

discontinued until they return to work. Employees who request leave without pay (LWOP) for reasons other than illness or injury, will have their bilingual premium pay discontinued effective the first full pay period after their leave begins and the payments will be resumed once they return to work.

L. Mileage Reimbursement. The District shall reimburse employees at the rate identified by the American Automobile Association (AAA) composite per mile cost for a 6-cylinder, 4-door sedan in the 15,000 miles per year category for each mile they are authorized and required to drive their private cars within the employee's normal areas of operation in the performance of their assigned duties. Annually in July, the District shall adjust the amount to conform to the newly published rate. This information is obtained from the Annual Edition of Your Driving costs, published by the American Automobile Association, Falls Church, Virginia. In the event such publication is not available, the current rate of the IRS rate will be used, whichever is higher. Consistent with current policy, employees may select to receive mileage reimbursement at the rate designated by the Internal Revenue Service. Both rates are published annually.

M. Transportation Subsidy. The District will provide a transportation subsidy up to a value of \$145 per month to subsidize the cost of an employee's regular commute between work and home. Public transportation commuters receive the subsidy by Commuter Check Voucher, Commuter Check Prepaid MasterCard, Clipper or Chariot SF.

N. Adjustment for Overpayments. In the event an employee is erroneously overpaid wages by the District, regardless of fault, upon obtaining written authorization from the employee to make the deductions to recoup the overpayments; the District shall recover overpayment by making the deductions from that employee's regular paycheck. Said deductions will continue for as many consecutive pay periods as necessary until full payment is recovered.

When the deductions are necessary to recoup insurance premiums or recover health and welfare or pension contributions, the District shall not commence recovery by payroll deductions until written notification has been given to the employee at least ten (10) working days in advance, which includes all the details of the overpayment, and provides employees with an opportunity to respond before any deduction is made. If an employee disputes the overpayment, the District will meet with that employee and their chosen representative to resolve the dispute. The District

shall recover overpayment by deducting from the employee's regular paycheck either the full amount of the overpayment or ten (10) percent of the employee's gross salary, whichever is less, and continue said deductions for as many consecutive pay periods as necessary until full payment is recovered. The District shall not seek written authorization to recoup insurance premiums and/or health and welfare or pension contributions from the employee.

O. Payment for Licenses/Certificates. The District shall pay all normal and regular

fees incurred in the obtaining of any licenses or certificates that are required by the District for the job classification of the employee. It is understood that any late or penalty fees which are not caused by District action shall not be included in normal or regular fees. The District shall pay actual fees for employees who obtain higher level licenses or certificates than required for their class but within their normal class series. Employees shall be permitted time during their normally scheduled work shift, including reasonable travel time to take tests for any licenses or certificates required for the employee's current job classification with the exception of Class C driver's licenses, without loss of pay. The District shall not accrue any overtime liabilities for the period of time during which an employee takes a test.

ARTICLE III -DAYS AND HOURS OF WORK

A. Workday and Workweek Defined. The standard workday shall consist of eight (8) consecutive hours of work within a 24-hour period beginning at 12:01 a.m. The standard workweek shall consist of five (5) consecutive workdays within a seven (7) day period beginning at 12:01 a.m. Monday and ending at 12:00midnight Sunday.

B. Compressed Work Week. Consistent with current practice, employees shall be afforded the right to work flexible work schedules as provided for in the District's Compressed Work Week Guidelines.

C. Days and Hours of Work. Work Group I (Appendix A) - In operations where work schedules are changed regularly, either annually or throughout the year, the work schedule shall be posted a minimum of one (1) week in advance of the effective date of the change. The District will not temporarily change the scheduled workday or workweek of employees for the purpose of avoiding overtime payments. These types of changes impact a work unit, rather than one or few employees. These changes are not subject to the limitations on schedule changes described in Article 111.2.

1. 7-Day Per Week/Continuous Operations

a. **7 Day Per Week Operations.** In operations in which there is regularly scheduled employment for seven (7) days per week, the hours of work shall consist of eight (8) consecutive hours per workday, notwithstanding compressed work week schedules, and except during scheduled rotation or relief operations, five (5) consecutive days per work week. Employees in 7-day per week operations who are required to be at their workstations for eight (8) consecutive hours shall eat during work hours.

b. **Continuous Operations.** Continuous Operations are those that are running continuously (24/7) with downtime for routine maintenance and scheduled repair and require around the clock staffing to ensure successful, safe operation. In operations in which there are regularly scheduled

employment for twenty-four (24) hours per day, seven (7) days per week, the hours of work shall consist of eight (8) consecutive hours per workday, and except during scheduled rotation or relief operation, five (5) consecutive days per workweek (except where alternate schedules are approved by the superintendent for the work unit).

In continuous operations, except where such occurs on a regular recurring basis, as part of rotating shift schedule, employees who are called back to work an eight (8) hour shift after being off their previous shift eight (8) or fewer hours shall be paid one (1) hour at the overtime rate in addition to their pay for such time worked.

Employees in continuous operations who are required to be at their workstations for eight (8) consecutive hours shall eat during working hours.

Seniority will be an important consideration in the assignment of shifts.

2. Changes in Days and Hours of Work. It is understood that all other provisions of this Article notwithstanding the hours of work, workday, and workweek practices in effect on the effective date of this Memorandum may be continued at the option of the District; provided, however, changes in such practices shall be subject to prior consultation with the Union.

Notwithstanding the above, the District shall be permitted to schedule shifts one (1) hour earlier than current shift starting times. This provision applies in instances when a schedule is set, but a minor change in shift is warranted for one or few employees (e.g., an employee on a regular day shift is asked to adjust their shift by one hour to accommodate a project or other work activity for a period of time). If such shift creates work in two (2) different calendar days, all time will be treated as if it were worked in the calendar day containing the majority of the workday. For example, if the start of the workday is changed from 12:00 midnight to 11:00 p.m., the employee will be paid as if all work commenced at 12:00 midnight.

The District will not temporarily change the scheduled workday or workweek of employees for the purpose of avoiding overtime payments. Employees in Work Group I shall be compensated for time worked in excess of their regularly scheduled workday or workweek as provided in Article II, Section G of this Memorandum of Understanding. Nothing herein shall be interpreted as limiting the District's right to reschedule shifts on a long-term or permanent basis as provided in this Article.

3. Fatigue Time

a. Fatigue time is paid time away from work for Local 21 Work Group I represented employees who have worked overtime without eight (8) hours off between the

overtime worked and the beginning of their next regularly scheduled shift, provided that the employee worked two (2) or more consecutive hours of overtime after 10:00 p.m. fatigue time shall be calculated as follows:

1. Subtract the ending time of overtime from the beginning time of the next regular shift.
2. Subtract that figure from eight (8) hours.
3. The difference is the fatigue time due to the employee

Example: OT is worked from 1:00 a.m. until 4:00 a.m. Regular shift begins at 8:00 a.m. The difference if there are 4 hours between the end of OT and the beginning of the next regular shift (8 hrs - 4 hrs= 4 hrs of fatigue time due to the employee).

b. Local 21 Work Group 1 represented employees shall not receive fatigue time if:

1) the overtime is completed more than eight (8) hours prior to the start of their regularly scheduled shift, or 2) employees are called out to perform overtime work within four (4) hours of the start of their next regularly scheduled shift, or 3) they are assigned to continuous operations.

There shall be no loss of vacation leave accrual for leaves without pay of 160 hours or less in a payroll year; thereafter, there shall be no accrual of vacation leave credits for any workday of unpaid leave in the same payroll year.

2. **Initial Use.** At any time after completion of the initial six (6) months of service, an eligible employee may use six (6) days credited for the first six (6) months of employment.

3. **Use of Vacation.**

a) Employees may use vacation leave equal to the accrued vacation leave

credited to their account after the first six (6) months of service.

b) Work Group I (Appendix A) employees must charge approved vacation leave against vacation credits in increments of 30 minutes.

c) Work Group II (Appendix A) employees may only charge vacation in full day increments.

d) A maximum of fifty (50) vacation leave days (400 hours) may be deferred by employees annually, unless there is specific written authorization from the General Manager to exceed such limits. Any employee with deferred vacation accrued in excess of (fifty) 50 days (400 hours) as of December 31 shall have their vacation leave balance adjusted and reduced to fifty (50) vacation days via the two following options (or combination thereof):

4. Vacation Upon on Separation. An employee eligible for vacation who is separated from District service for any reason shall receive a lump sum payment for any unused, earned vacation.

5. Vacation Sell Back. An employee may choose to sell back a maximum of two hundred (200) hours of vacation leave, or the amount of hours the employee will accrue in the next calendar year, whichever is less to the District in one-hour increments during each calendar year. Employees may do so by making a one-time, irrevocable election no later than December 31 during the calendar year prior to the year the vacation hours are to be sold. The number of vacation hours an employee may elect to sell is limited to the number of vacation hours the employee will accrue in the following year, or 200 hours, whichever is less. The employee, at the time of election, may choose payments of vacation hours in either the first pay period in June or the first pay period in October (one date or the other, not both) in the calendar year following their submission of irrevocable election to sell. If the number of vacation hours elected to be sold exceeds the number of vacation hours actually accrued at the time of payment, vacation hours sold will be limited to the number of hours accrued and available at the time of payment. Payments to employees resulting from such sell back of vacation shall not be considered "compensation" as defined in the Retirement Ordinance for the purpose of calculating terminal compensation.

a) As part of the District's open enrollment packet each year, the District will provide all employees with a copy of the Irrevocable Vacation Sell-Back Election Form and a reminder of the last business day before December 31st deadline for submission of the Form. The Open Enrollment Notice sent prior to the mailing of the packet shall also include reference to the Election Form and shall be sent to the employee via e-mail and U.S. mail.

b) As an exception to the irrevocable election requirement set forth in the above restriction, an employee may cash out vacation in the event of an unforeseen financial emergency where: 1. the employee can demonstrate that the employee has a real and immediate unforeseen emergency outside of the employee's control; 2. it would result in serious financial hardship if the cash payment were not made; and 3. the amount of the cash payment is limited to the amount necessary to meet the emergency.

i) To sell back unused Vacation Leave in the event of financial emergency, the employee must provide a signed, verified statement describing the type of hardship and the amount of the requested sell-back. The amount of requested sell-back shall not exceed the amount of available accrued vacation hours at the time of payment or 200 hours, whichever is less. The employee shall not be required to produce financial or other private information to support the statement.

ii) Employee shall be fully liable for all tax or other financial consequences in the event that a taxing authority later finds any of the information provided by the employee to demonstrate financial emergency to be inaccurate or that it is impermissible to allow for a cash out based on a financial emergency.

c) Should the IRS through an official circular letter or regulation such that the constructive receipt tax issue concerning vacation cash-out addressed by the paragraphs above be rendered inapplicable or otherwise not mandated by law, limitations on vacation sell-back will be void and the 2021-2025 MOU language on vacation pay-outs shall be reinstated.

d) These provisions shall have no effect on an employee's right to pay-out all the employee's available accrued vacation at the time of the employee's separation/retirement from District employment.

C. Sick Leave.

1. Definition. Any represented employee who, through no fault of their own, is unable to be present to perform their duties due to illness, injury, medical or dental treatment, on the part of the employee or a qualifying individual under California's Paid Kincare Leave law shall be granted sick leave in accordance with the provisions of this Section.

In any instance where Family Sick Leave Kincare is also a qualifying FMLA/CFRA Leave, the leaves will run concurrently. This does not prohibit an employee from declining FMLA/CFRA leave. An employee shall provide reasonable advance notification of their need to use accrued paid sick leave to their supervisor if the need for paid sick leave use is foreseeable (e.g., doctor's appointment scheduled in advance). If the need for paid sick leave use is foreseeable, the employee shall provide notice of the need for the leave to their supervisor as soon as is practicable.

5. Substitution of Sick Leave for Vacation. If an employee becomes ill and takes sick leave before a scheduled vacation begins, the starting date of vacation may be postponed, or vacation rescheduled as approved by the District. If an employee becomes ill after their last workday before vacation begins or during vacation, and the illness extends more than two (2) vacation days, accumulated sick leave shall be substituted for vacation leave for each full day involved. Request for such substitution shall be made when the employee returns to work, unless they wish to extend the absence, in which case they shall contact the supervisor before they are scheduled to return to work. Documentation to support such request may be required by the employee's supervisor. Each vacation leave day that an employee was hospitalized may be converted to sick leave upon submission of satisfactory evidence of hospitalization.

These evaluations will be conducted on District time.

7. Service Extension Credit. Consistent with the terms and conditions of the

Retirement Ordinance, when an employee's sick leave accumulation reaches the maximum of 1040 hours, any hours which would have otherwise accrued thereafter shall be accumulated without limit. Such hours, when added to the existing sick leave accumulation, become Service Extension Credit to be applied when computing the employee retirement allowance.

Service Extension Credit -Conversion. When an employee is released for return to work as shown by medical evidence satisfactory to the District, after sick leave extending for ninety (90) calendar days or more, the hours of sick leave taken shall be restored to the employee's sick leave account when requested by the employee, by deducting that number of hours from any service extension credit in the employee's account at the time of return to work to a maximum of five hundred twenty (520) hours. Such sick leave shall be credited and available for use after the employee's return to work.

Sick Leave Pay-Out In lieu of Service Extension Credit. Employees who separate from service due to retirement shall have the option of receiving a lump sum cash payment equal to the value of fifty percent of the accrued hours in the employee's sick leave account and Service Extension Credit account, at base rate, not including shift or other differentials or premiums, less applicable taxes, instead of and in lieu of receiving the Service Extension Credit pursuant to Article IV C 7 and the Retirement Ordinance. or any other District policy or procedure. The Retirement Ordinance and any impacted Retirement Board Rules will be updated to reflect the following changes to both the vesting schedule and the value of the HIB.

4. Health Insurance Benefit (HIB) Vesting

Effective January 1, 2026, a Member who either (i) became a Member on or after July 1, 1996 and retires for service or for disability after the first full pay period following adoption of this MOU by the EBMUD Board of Directors, (ii) or made an election to remain a Member pursuant to Section 12(b)(2) after the first full pay period following adoption of this MOU by the EBMUD Board of Directors will be eligible for HIB based on continuous years of service with EBMUD using the schedule below.

The HIB Adjustment Factor is calculated using the annual percent change in the monthly premiums for the District KSA Low couple Medicare Plan as named above (Kaiser Index), adjusted by the Carryforward Balance which could be a positive or negative number. The Carryforward Balance is created by the change in the Kaiser Index that is not fully applied to the HIB Adjustment Factor in each year.

Each year, the Kaiser Index will be calculated, then the Carryforward Balance

will be applied to the Kaiser Index. If the result of the Kaiser Index plus Carryforward Balance is greater than 3 percent, the HIB Annual Adjustment will be 3 percent; if the result is less than 0 percent, then the HIB Annual Adjustment will be 0 percent. Any Carryforward Balance remaining after applying it to the HIB Annual Adjustment, will continue to carry forward for future adjustments.

If this Agreement is violated by the occurrence of a strike, work stoppage, other interruption or impending disruption of work, no grievance shall be processed while such violation continues. The grievance procedure outlined herein shall not be applicable to grievances arising in the period between the termination of this Agreement and the effective date of its successor. However, if the parties, despite the termination of the Agreement, are continuing to meet and confer in good faith and an impasse in the negotiations has not been reached, the grievance procedure shall continue to be applicable.

ARTICLE IX -DISCIPLINARY PROCEEDINGS

A. Eligibility. An employee who has successfully passed a probationary period may be disciplined for cause by written warning, suspension or termination. Such disciplinary action(s) shall be subject to appeal through the Grievance Procedure provided for in Article VIII of this Agreement.

B. Employee Notification. When the District is considering imposing major discipline (defined as a suspension of five days or more, or termination), it will notify the employee and the Union in writing of the pending disciplinary action and will provide copies of any known written materials, reports or documents upon which action is based to the employee and their representative

before the scheduled pre-disciplinary meeting. The employee will be given the right to respond informally -- either orally, in writing or both -- to the proposed charges. The District is not precluded from using information obtained in the pre-disciplinary meeting in any subsequent meeting or hearing in the event discipline is imposed. The District is also not precluded from using information obtained in investigating information and statements presented at the pre-disciplinary meeting in subsequent meetings or hearings if the discipline is imposed.

C. Union Notification. An employee ordered to leave their place of work for disciplinary reasons shall, before leaving the District premises, have the right to consult with their Union representative. Consultation with a Union representative will not be required in instances in which the supervisor removes an employee from the premises in cases involving violence, willful destruction of property, or to prevent injury to the employee or others. The supervisor shall promptly notify the Union of the action taken, the reasons for and duration of the suspension.

D. Right to Appeal. The employee, with or without their designated representative, shall have the right to appeal a suspension or discharge either in accordance with the Grievance Procedure provided for in Article VIII of this Agreement or in accordance with Civil Service Rule **XIII**, APPEALS, but in no case under both.

E. Administrative Leave.

1. **Notification.** If it is necessary to place an employee on Paid Administrative Leave, the District shall notify the employee and Union. The notification shall include:

- a) The reason why the employee was placed on Paid Administrative Leave.
- b) The steps to be taken during the time the employee is on Paid Administrative Leave.
- c) Anticipated length of the Paid Administrative Leave.

2. **Leave Extension.** If the anticipated length of the Paid Administrative Leave needs to be extended, the District shall notify the employee and the Union of the reasons for the change.

ARTICLE X - SAFETY AND HEALTH

A. Definition. The District shall devote every effort to see that District operations are conducted in a safe and healthful manner consistent with the requirements of the work to be performed.

B. Medical Tests on Employees. The District recognizes that medical information about individual employees pertaining to accidents or injuries is confidential. The District also recognizes that in the event employees are exposed to carcinogens or other harmful substances which exceed Cal-OSHA Permissible Exposure Limits, Ceiling Limits and Short-Term Exposure Limits, medical monitoring shall be made available at no cost to the employee but may be required when legally mandated.

- C. **Results of Government Inspections.** The District will prominently post Cal/OSHA Citations and Notification of Penalties at or near the location of each violation until the violative condition is corrected or for three working days, whichever is longer as required by California Labor Code Section 6317.
- D. **Injury and Illness Records.** Upon request of the Union, the District shall make available reports on employee job injuries and illness through the Cal/OSHA 300 Log.
- E. **List of Substances and Processes.** The District, in compliance with CCR T8 Section 5194 Hazard Communication, shall maintain Safety Data Sheets on hazardous substances. Upon request of the Union, the District shall make available a list of all chemicals, etc. for which it has such data sheets. In addition, upon request, the District shall also make available specific Safety Data Sheets to the Union .
- F. **Report of Safety Violations.** Employees are obligated to report all known safety violations at the time they occur or as soon thereafter as is practical to their immediate supervisor.
- G. **No Smoking.** The present "no smoking" policy in effect for District buildings and vehicles shall remain in full force and effect.

ARTICLE XI UNIFORMS/SAFETY SHOES

- A. **Uniforms.** With the approval of the appropriate department manager, employees in supervisory classifications who are required to wear coveralls to perform their job duties shall be provided overalls at no cost to the employee.
- B. **Safety Shoes.** With the approval of the appropriate department manager, the District shall provide a safety shoe allowance for District approved safety shoes for employees in supervisory classifications who are required to wear safety shoes in the course of performing their job duties.

The District shall provide a safety shoe allowance of two hundred and eighty-five dollars (\$285) on receipt of evidence of the purchase of District approved safety shoes and other shoe-related items (boot inserts/insoles, laces, socks, and/or shoe care products). Employees shall procure their District provided safety shoes at District identified vendors under a purchase order program. Employees can visit the selected vendors and select their shoes from the vendors provided that: 1) the shoes meet the ASTM-F2413- 05 safety standards and 2) the after-tax cost for the shoes and approved shoe-related items (boot inserts/insoles, laces, socks and/or shoe care products) does not exceed two hundred and eighty-five dollars (\$285). Costs for shoes in excess of this amount shall be paid by the employee. Safety shoes may be purchased on District work time and an employee identification badge must be shown to the contract supplier to verify District employment.

ARTICLE XII CONTRACTING AND SUBCONTRACTING

- A. **Right to Contract.** The right to contract and subcontract are vested exclusively in the District; provided, however, if such contracting or subcontracting work would result in the layoff of an employee in a classification set forth in Appendix "A", the District shall consult with the Union, prior to such contracting or subcontracting, in an attempt to avert, by transfer or other reasonable means, the layoff of such employee.
- B. **Meeting.** In addition to current practice, the District and Union representatives shall meet by department to review contract work and other work that is customarily performed by Union members that the District intends to contract out during the fiscal year. The District shall provide the Union with summary information on the projects and services planned for contracting out at least five (5) workdays prior to the annual contracting out meetings.
- C. **Union Review.** The Union shall be offered the opportunity to review and provide comments on the District's Five-Year Plan prior to its consideration by the Board of Directors.
- D. **Training.** When the District is required to contract out work because District employees lack specific expertise or specialized equipment, the District shall make reasonable efforts to provide training to the affected employees.

ARTICLE XIII SAVINGS CLAUSE AND FUTURE NEGOTIATIONS/SCOPE OF AGREEMENT/TERM

- A. **Savings Clause and Future Negotiations.** Should any part of this Agreement or any provision contained herein, be rendered or declared invalid by reason of any existing or subsequently enacted legislation, or by any decree of any court of competent jurisdiction, such invalidation of such part or portion of this Agreement shall not invalidate the remaining portions thereof. The remaining portions or parts shall remain in full force and effect. It is mutually agreed upon that upon any such invalidation, the District and the Union will meet and confer with reference to the parts and provisions thus invalidated.
- B. **Scope of Agreement.** Except as otherwise specifically provided herein, this Agreement fully and completely incorporates the understanding of the parties hereto and constitutes the sole and entire Agreement between the parties on any and all matters contained in this Agreement. Neither party shall, during the term of this Agreement, demand any change therein; provided, however, that nothing herein shall prohibit the parties from changing the terms of this Agreement by mutual agreement.
1. The parties shall exclude from the scope of Agreement (Article XII B), and separately negotiate any revisions to the Civil Service Rules and District Policies and Procedures not contained in the MOU, during the term of this Contract.
- C. **Term.** Subject to approval by the Board of Directors, the terms of this Agreement shall become effective at 12:01 a.m., April 21, 2025, and remain in effect until midnight, April 16, 2028. If

at least ninety (90) days prior to April 20, 2025 either party shall not have served written notice upon the other that it desires revision or modification of any designated provision or provisions contained herein or termination of all such provisions, this Agreement shall be automatically renewed for successive periods of one (1) year.

It is further mutually agreed that Union and District have met and conferred on all matters reserved to District by this Article and Union does expressly waive any and all rights to further meet and confer on such issues, or any of them, during the period of this Memorandum. Any dispute concerning the interpretation or application of District's rights shall be deemed a grievance and must be processed under Article 22.

Infractions of this Article are subject to the Grievance Procedure.

4.3. Accommodation for Disabled Employees.

The Union understands that the District has a lawful obligation under federal and state law to make reasonable accommodations for qualified individuals with disabilities. Any accommodation will be on a case-by-case basis, and will not be precedential, or constitute a past

practice for anyone other than qualified individuals with disabilities.

ARTICLE 5. UNION ACTIVITIES AND DISTRICT SENIORITY

5.1. Union Stewards.

5.1.1. Employees selected by the Union to act as Union representatives shall be known as "stewards". The Union may select one steward for each thirty-five (35) filled positions or major fractions thereof for those classifications represented by the Union. The names of employees so selected and the areas to which they are assigned shall be certified in writing to the District by the Union. In the absence of the steward, an alternate may be appointed by the Union President. Stewards, during the regular working hours, shall be permitted to investigate, prepare, and present grievances to the District without loss of time or pay, provided that this is done in a manner consistent with District operating requirements, and the steward is first excused by his/her District supervisor. Permission to perform steward functions shall not be unreasonably denied.

5.1.2. If it becomes necessary during the course of their investigation for a steward to contact an employee in another department or division, the steward shall state to and notify the supervisor of that department or division the purpose of their investigation. When the investigation is completed, the steward shall promptly report back to their supervisor.

5.1.3. The District shall keep a record of time spent by stewards in the processing of grievances, and shall review this record periodically with officials of the Union. In order to have time approved to investigate a grievance, stewards shall complete the Grievance Investigation Request form and submit it to their immediate supervisor, prior to the start of the investigation. It is agreed that in the event any abuse is found to exist, the Union officials will cooperate with the District in taking such steps as are necessary to correct such abuse.

5.2. District Board Meetings.

5.2.1. Consistent with District operating requirements, the Union may designate two (2) employee representatives to attend each District Board meeting and workshop (which meeting is otherwise open to the public), including the Retirement Board meeting, without loss of time or pay.

5.2.2. Authorization to attend such Board meetings must be obtained from the Manager of Employee Relations no later than twenty-four (24) hours prior to the time of such meetings.

5.2.3. In addition, the Union may designate two (2) employees to serve on the combined 401K and 457 Deferred Compensation Committee without loss of time or pay.

5.4. **District Vehicle Use.** Union representatives are prohibited from using District vehicles other than sedans and pick-up trucks to attend District meetings. If Union representatives are driving District vehicles other than sedans and pick-ups at the time they are requested to attend meetings, the District will arrange for transportation or for a sedan or pick-up

5.5. **Communication with Employees.** The Union shall have designated for official Union business a specific portion of District Bulletin Boards with space adequate for the posting of 4 sheets of paper (8.5 inches by 11 inches), or a contiguous area approximately 17 inches wide by 22 inches long. Items placed in the Union section of the District bulletin boards shall be signed by an officer of the Union and shall not contain salacious or inflammatory material that is derogatory towards the District, its employees, or its policies. The Union may distribute materials to employees within the classifications it represents through District mail distribution channels, with all such mailings subject to the prior approval of the Manager of Employee Relations. The District will provide cell phones and laptop computers to the President and Chief Steward of the Union. These provisions may be revoked in the event of abuse after the Manager of Employee Relations consults with representatives of the Union.

5.6. **Visits by Union Representatives.** The District agrees that accredited non-employee representatives of the Union, whether local, district council, or international representatives, shall have access to District premises for the purpose of meeting with Union officials when investigating grievances or determining compliance with this Memorandum. Arrangements for visits to District premises for these purposes shall be made through the Manager of Employee Relations. Employee meetings with non-employee Union representatives shall not be paid for by the District.

5.7. **Limitation on Union Activities.** Activities involving internal management of the Union such as collection of dues, assessment of other funds, membership meetings, campaigns for office, distribution of literature or conducting of membership drives, shall not be conducted during working hours, in District work areas, or on District property without prior approval of the Manager of Employee Relations. The election of stewards on nonworking time may be

conducted at work sites when it does not interfere with the operations of the District. Prior notice of two (2) workdays shall be given to the work unit supervisor.

5.8. **Union Business.**

5.8.1. Employees elected to any Union office or selected by the Union to do work that takes them from their employment with the District shall, at the written request of the Union, be granted leave for up to six (6) months, provided that the work of the operation concerned will not be unduly impaired by such absence. While such employees are on Union Business Leave, they will remain on the District payroll.

5.8.2. The Union will reimburse the District for the employees' wages and benefits while the employees are on Union Business Leave. If Union reimbursement is not received within forty-five (45) calendar days of District billing, the employees' status for that time will be changed to Union Business Leave Without Pay and the appropriate amount will be deducted from their next paycheck.

5.8.3. It is understood the intent of this section is to permit employees to continue to accrue sick leave, vacation, and retirement system credits while on Union Business Leave With Pay.

5.8.4. Notification. Requests for Union Business Leave shall be submitted in writing from the Union President to the Manager of Employee Relations a minimum of three (3) workdays before the effective date of the leave. The Manager of Employee Relations may waive

these notification requirements at her/his discretion.

5.8.5. Minimum Duration. Union Business Leaves must normally be for a minimum of one (1) hour.

5.8.6. Unpaid Leave Requirements. Union Business Leaves Without Pay shall be subject to the provisions of Section 17.1 of this Memorandum.

5.9. **Orientation.**

Pursuant to California Government Code Section 3555, et seq., the District and the Union mutually agree and intend the Union shall have access to the District's new employee orientation as follows:

As part of the District's new employee orientation program, the Union shall have thirty (30) minutes prior to the start of the new employee orientation program to provide information and answer questions to new employees who are in classifications covered by this Memorandum of Understanding.

Access to the new employee orientation program, as described herein, shall remain in effect and shall control for the duration of this MOU pursuant to Cal. Govt. Code Section 3557(g).

5.10. **Labor Management Committee**

5.10.1. Scope of the Committee. The scope of the Labor Management Committee (LMC) is to discuss concerns of the Union related to working conditions with Management, and for Management to present potential issues or actions affecting the Union or its represented classifications (e.g., training, classification concerns, jobsite reporting) except for matters related to contracting out or other issues properly addressed in a different forum. The LMC is an informal venue for discussion and does not constitute a per se meet and confer, but should agreements arise, they shall be in writing.

5.10.2 The meeting shall occur monthly and have an agenda created by the parties.

5.10.3 The meeting agenda shall include classification, vacancy and recruitment and classification concerns (place holder at monthly meetings) and insurance concerns (semi-annually in January and July).

5.11. **Seniority**

5.11.1. District Seniority: The total length of continuous employment with the District calculated from the most recent date of hire, including the probationary period.

5.11.2. Ties in District Seniority. If District seniority is equal, the employee with the lower District Employee Identification Number shall be deemed to have the greater seniority.

5.11.3. Breaks in District Seniority. An employee's District seniority shall terminate when the employee resigns or retires, is discharged, or fails to return from layoff. An employee who is reinstated as a result of an Arbitrator's decision or settlement agreement between the District and the Union shall retain their seniority.

In the event of a reduction in force and reinstatement or Reemployment Preferences After Job Injury in accordance with section 16.3.4, not rehire, an employee's District Seniority will be reduced by the time that they were laid off or not employed by the District.

5.12 Annual Steward Training

5.12.1. District and Union will provide equal amounts of release time for officers and stewards to attend an annual steward training. The training will be conducted by the Union and the District.

ARTICLE 6. SALARY AND WAGE SCHEDULE

6.1. Wages.

6.1.1. First Year Increases. Effective April 21, 2025, the monthly salary rates of District employees covered by this Memorandum of Understanding will be increased by 3.7%.

6.1.2. Second Year Increases. Effective April 20, 2026, the monthly salary rates of District employees covered by this Memorandum of Understanding will be increased by the February 2026 San Francisco/Oakland CPI-W plus 0.5% with a minimum increase of 2.0% and a maximum increase of 6.0%, with no reopener.

6.1.3. Third Year Increases. Effective April 19, 2027, the monthly salary rates of District employees covered by this Memorandum of Understanding will be increased by February 2027 San Francisco/Oakland CPI-W plus 0.50% with a minimum increase of 2.0% and a maximum increase of 6.5%, with no reopener.

6.2 Pay Period. Salaries shall be paid biweekly on Friday of the appropriate week. In the event that this day is a holiday, the preceding day shall be the payday.

6.3 Twenty-year Wage Increment. Each employee who is employed by the District prior to January 1, 2013 or who is an employee covered by the 1980 Retirement Plan shall be entitled to a salary increment following completion of twenty (20) years' continuous full-time District service. The adjustment for such employees shall be 2.75% (plus or minus no more than one dollar per month) added to the monthly salaries set forth, exclusive of overtime, night shift differential or standby pay. Employees who receive this benefit are not eligible for the benefit listed in Section 6.3.1.

6.3.1 Employees who are covered by the 2013 Retirement Plan shall be entitled to a salary increment of 3.75% (plus or minus no more than one dollar per month) following completion of twenty (20) years' continuous full-time District service. The adjustment shall be added to the monthly salaries set forth, exclusive of overtime, night shift differential, standby pay or merit pay. Employees who receive this benefit are not eligible for the benefit listed in Section 6.3.

6.4 Work-Out-of-Classification. When an employee is assigned by a District supervisor to temporarily replace another employee in a higher classification or to perform the full range of duties required for a particular assignment of a higher classification, they shall be

paid the lowest step of the higher classification or at least 5% whichever is greater for such work. Assignments to perform the work of a higher classification pursuant to this Section 6.4, will be tracked by hours worked and shall not exceed 480 hours in a payroll year. By use of this Section, the District will not attempt to avoid District Civil Service Rules and the filling of regular full-time positions. The District will make reasonable efforts to distribute work-out-of-class on an equal and rotational basis for qualified employees, beginning with the qualified employee with the most District seniority in the unit.

6.5 New Classifications. The Union recognizes the right of the District to establish new job classifications and to amend existing class descriptions to reflect changes in assigned duties and responsibilities. In the event a change is made to the description of a class represented by the Union, the District shall notify the Union President, Chief Steward, and Business Agent of such change. In the event a substantial change is made in the description of a class represented by the Union, the District will advise the Union of such change and of the salary for the class. Upon request of the Union, the parties shall meet and confer on the salary for the classification within ten (10) working days prior to presentation to the Board of Directors. Establishment of salary is not subject to the grievance procedure as contained in this Memorandum.

6.5.1 Classification Study Requests. Employees are encouraged to first discuss any concerns regarding the classification of their position with their immediate supervisor. If review of the issues with the supervisor and appropriate department management staff does not resolve the classification concerns, an employee may submit a written request for a study of their position. The District shall determine whether the issue causing the request is clearly one of classification. In conducting this initial review, staff shall discuss the request with the employee, their supervisor, and/or other management personnel in the department. The District will issue a memo to employees with a copy to the union acknowledging the receipt of a written

classification study request within fifteen (15) workdays of receiving the request. If the written request is found to be one in which a classification study is appropriate, the District will also provide a projected timeframe for conducting the study. In the event that the study results in reclassification of the employee and their position to a higher pay level, the effective date of the higher salary would be retroactive to the lesser of six (6) months or the date the employee submitted the formal request.

6.6 Payment for Licenses/Certificates.

6.6.1 The District shall pay all normal and regular fees incurred in the obtaining of any licenses or certificates that are required by the District for the job classification of the employee. It is understood that any late or penalty fees which are not caused by District action shall not be included in normal or regular fees. The District shall pay actual fees for employees who obtain higher level licenses or certificates than required for their class but within their normal class series. Employees shall be granted paid time to take tests for any licenses or certificates required for the employee's current job classification. The District will reimburse actual fees for and provide paid time for California Class A and B driver's tests and licenses.

6.6.2 Employees in the Wastewater Plant Operator I/II and Treatment Plant Specialist classifications who obtain a Wastewater Plant Operator's certificate at a higher level than required for their classification will receive a \$35.00 per month premium. If they receive a second, higher classification certificate, they will receive an additional \$40.00 per month, for a maximum total of \$75.00 per month premium. Employees on unpaid status for two consecutive pay periods due to illness or injury will have their certificate premium payments discontinued

until they return to work. Employees who request leave without pay (LWOP) for reasons other than illness or injury will have their certificate premium payments discontinued effective the first full pay period after their leave begins, and the payments will be resumed once they return to work.

6.7 Salary on Promotion.

The new base shall be either the beginning step of the new class, or the step in the salary schedule in the new class which is at least 5% above the employee's current base salary, whichever is the greater amount, provided that in no instance shall the employee's base rate exceed the maximum salary wage rate established and in effect for the new class.

6.8 Adjustments for Overpayments/Underpayments. In the event an employee is erroneously overpaid wages by the District, regardless of fault, written notice (detailing amounts overpaid/underpaid) shall be provided to the employee. Simultaneously, the Union shall be notified that the employee received an overpayment notice from the District. The District shall not commence recovery by payroll deductions until written notification has been given to the employee at least ten (10) working days in advance, which includes all the details of the overpayment. Upon obtaining written authorization from the employee the District shall make the deductions to recoup the overpayments from the employee's regular paycheck. Said deductions shall be in compliance with State law and continue for as many consecutive pay periods as necessary until full payment is recovered.

When the deductions are necessary to recoup underpayments for insurance premiums or recover health and welfare or pension contributions, the District shall not commence recovery by payroll deductions until written notification has been given to the employee at least ten (10) working days in advance, which includes all the details of the underpayment. Simultaneously, the Union shall be notified that the employee received an underpayment notice from the District. The employee shall have the opportunity to respond within ten (10) working days from receipt of notice before any deduction is made. If an employee disputes the underpayment, the District will meet with that employee and his/her chosen representative to resolve the dispute. The District shall recover the underpayment by deducting from the employee's regular paycheck either the full amount of the underpayment or ten (10) percent of the employee's gross salary, whichever is less, and continue said deductions for as many consecutive pay periods as necessary until full payment is recovered. The District shall not need or seek additional written authorization to recoup insurance premiums and/or health and welfare or pension contributions from the employee.

6.9 Wastewater Plant Operator Vector Truck Premium Pay. Wastewater Plant Operators who are assigned as the Vector Truck Lead Operator shall be paid a 5% premium on the straight-time hourly rate for the actual time worked as lead operator. A Vector Truck Lead Operator is defined as the individual who is responsible for both driving the Vector truck and operating it and who has been certified through the Wastewater Treatment Division's Vector Truck Training and Certification Program as competent to be a Vector Truck Lead Operator.

ARTICLE 7. DAYS AND HOURS OF WORK

7.1. Workday. The workday shall consist of eight (8) consecutive hours of work (exclusive of any unpaid meal period) within a 24-hour period beginning at 12 midnight except where otherwise mutually agreed.

7.2. Workweek.

7.2.1. The workweek shall consist of five (5) consecutive workdays within a seven (7) day period beginning at 12:01 a.m. Monday and ending at 12 midnight Sunday.

7.2.2. Notwithstanding Sections 7.1 and 7.2, upon request of an individual employee or a group from the work unit, the District will investigate and may change the beginning and ending work day hours of that employee or the work days and workweeks of employees within any particular work unit provided the work or the operation of the unit concerned will not be unduly impaired by such adjustment. Such adjustment shall not affect the total length of the workweek. All requests for flexible schedules will be examined and considered for implementation by the District. The decision of the District on granting or refusing to grant a change in the beginning and ending work day hours or workweek shall be final and conclusive and shall not be subject to the grievance procedure of this Memorandum.

7.3. Continuous Operations.

7.3.1. **Days and Hours of Work for Continuous Operations.** In operations in which there is regularly scheduled employment for twenty-four (24) hours per day, seven (7) days per week, the hours of work shall consist of eight (8) consecutive hours per workday, five (5) consecutive days per workweek. Operators in continuous operations shall work shifts consisting of three (3) shifts of no less than eight (8) hours in a day.

7.3.2. **Employees for Which Section 7.3 Applies.** Operators who bid on shifts in continuous operations work areas. The following groups of employees, while not meeting the criteria in section 7.3.1, are for the purposes of this MOU considered to be continuous operations employees: 1) Wastewater Plant Operator-IIs primarily assigned to remote operations, 2) Water Distribution Plumbers assigned as investigators in the Continuous Operations Organization, 3) Hydroelectric Power Plant Operators, and 4) employees working compressed workweek schedules in operations that otherwise meet the criteria of continuous operations in 7.3.1.

7.3.3. **Work Schedule Limitations.** The District shall not schedule work to require continuous operations employees to work three (3) shifts within a forty (40) hour period. Seniority will be an important consideration in the assignment of shifts.

7.3.4. **Double Back Pay.** Continuous operations employees who report back to work for a full shift following an off-duty period of eight (8) hours or less since the conclusion of their previous shift shall receive, in addition to compensation for time worked, one (1) hour of compensation at the overtime rate, which is referred to as "double back pay."

7.3.5. **Meals.** Continuous operations employees who are required to be at workstations for their full shift shall eat during working hours.

7.3.6. **Changes to Work Schedules.** In operations where work schedules are changed, the work schedule and changes shall be posted a minimum of fourteen (14) calendar days in advance of the effective date of change. (Applicable department work rules will be revised in accordance with this provision.)

7.3.7 **Operator Shift Bids.** Continuous operations Wastewater Plant Operators, Water Reclamation Operators, and Power Plant Mechanic/Operators shift assignments and days off shall be bid annually, based on District seniority. Wastewater Plant Operators, Water Reclamation Operators, and Power Plant Mechanic/Operators elected as Union President and Chief Steward shall have super seniority for the purpose of bidding for day shift, Monday through Friday, assignments.

7.4. Changes in Days and Hours of Work.

7.4.1. It is understood that, all other provisions of this Article notwithstanding, the hours of work, workday, and workweek practices in effect on the effective day of this Memorandum may be continued at the option of the District; provided, however, changes in such practices shall be subject to prior consultation with the Union.

7.4.2. Notwithstanding the above, the District may schedule shifts one (1) hour earlier than present. If such shift creates work in two (2) different calendar days, all time will be treated for payroll processing purposes as if it were worked in the calendar day containing the majority of the workday. For example, if the start of the workday is changed from 12:00 midnight to 11:00 p.m., the employee will be paid as if all work commenced at 12:00 midnight. Such treatment of time worked shall have no effect on eligibility for shift differential or other premiums.

7.4.3. Notwithstanding the above, in special circumstances when mandated by CalTrans or other agency, the District may temporarily change shift starting times to accommodate said agency's concerns, provided that such change shall not be for less than five nor more than one hundred and twenty calendar days. In such cases a minimum of two weeks prior notice shall be provided to the employee(s) whose shift starting time is temporarily changed, and a five percent premium shall be paid to those employees for all regular hours worked on all days so changed. In no case shall the combined shift differential and shift change premiums paid to an employee exceed fifteen percent. The District will not temporarily change the scheduled workday or workweek of employees for the purpose of avoiding overtime payments. Employees shall be compensated for time worked in excess of their regularly scheduled work day or workweek as provided in Section 8.1 of this Memorandum of Understanding. Nothing herein shall be interpreted as limiting the District's right to reschedule shifts on a long-term or permanent basis as provided in this Article.

7.5. Rest Periods. Employee work schedules shall provide for fifteen (15) minute rest periods during each one-half (1/2) of the work day. Rest periods shall be scheduled so as not to interfere with efficient operations of the District.

7.6. Meal Periods.

7.6.1. Employees shall be granted a thirty (30) minute lunch period, without pay, except as otherwise provided, scheduled at approximately the middle of the workday.

7.6.2. Overtime Meals. The District shall provide \$25.00 per meal on an employee's paycheck for employees who work unscheduled overtime for two (2) or more hours beyond their regular quitting time. Employees shall be provided additional meals or money on their paychecks, as above, for every completed four (4) hour period of unscheduled overtime work thereafter. Emergency or unscheduled overtime work is defined as overtime work that is not scheduled a minimum of eight (8) or more hours in advance of the overtime work. Scheduled or planned overtime work on a regular workday or sixth or seventh day in a week shall not require reimbursement for overtime meals unless an employee works two (2) or more consecutive hours beyond their regular eight (8) or more hour scheduled shift. Time taken for meals eaten at the work location shall be paid time. Time taken for meals eaten away from the work location shall be unpaid time.

7.7. Cleanup Time. Where the nature of the work is such that cleanup is required, work schedules shall be arranged to allow reasonable time for that purpose prior to the end of the workday. The District shall provide facilities for cleanup. All employees who report to a job site have the option (with the permission of their immediate foreman/supervisor), to go to the

nearest District facility to shower or change clothes in case of emergency or at the end of their workday.

7.8. Receiving Materials. District employees normally will not be required to unload or assist in unloading material from common carriers making deliveries on District premises except when weight or bulk of freight precludes reasonable physical handling by driver, or, when other unusual circumstances require such unloading or assistance by District employees one-half (1/2) hour before the end of the shift.

7.9. Reimbursement For Use of Private Car. The District will reimburse employees at the rate identified by the American Automobile Association (AAA) composite average per mile cost in the 15,000 miles per year category for each mile they are authorized and required to drive their private cars within the employee's normal areas of operations in the performance of their assigned duties. Annually in July, the District will adjust the amount to conform to the newly published rate. This information is obtained from the Annual Edition of Your Driving Costs, published by the American Automobile Association, Falls Church, Virginia. In the event such publication is not available, the current IRS mileage rate will be applied.

7.10. Fatigue Time.

7.10.1. To ensure safe working conditions by providing adequate rest time for employees, the District shall provide fatigue time such that employees are entitled to fatigue time when reporting to and/or performing overtime work within the period of time defined as nine (9) hours prior to the start of the next regularly scheduled shift. The duration of fatigue time rest period shall be nine (9) hours, but shall be subject to the following restrictions:

7.10.2. The fatigue time rest period starts when the overtime work is completed. [For example, if the overtime work associated with an early morning call out is not completed until after the start of the next regularly scheduled shift, fatigue time rest period begins when the overtime work is completed even though the overtime work extended into a regularly scheduled shift. The rest period shall continue beyond the regular shift for a cumulative nine (9) hours rest period.] In situations where an employee on standby is required to work multiple overtime periods within nine (9) hours prior to the start of the next regularly scheduled shift, fatigue time rest period shall commence with the completion of the last overtime period worked regardless of 7.10.4(b) below.

7.10.3. Employees shall not receive fatigue time for overtime worked on weekends. Weekends as referred to in this paragraph, extend between the end of the regularly scheduled shift on the last day of the workweek (typically a Friday), and nine (9) hours prior to the start of the next regularly scheduled shift (typically a Monday).

7.10.4. Employees shall not receive fatigue time if: a) the overtime is completed more than nine (9) hours prior to the start of their next regularly scheduled shift, or b) employees are called out to perform overtime work within two (2) hours of the start of their next regularly scheduled shift (unless 7.10.6 applies), or c) they are continuous operations employees as described in section 7.3, Continuous Operations, with the exception of Wastewater Plant Operator IIs primarily assigned to remote operations.

7.10.5. Paid fatigue time is the overlapping period of time where the fatigue time rest period coincides with an employee's regularly scheduled shift. Paid fatigue time shall not exceed the employee's regularly scheduled shift. Paid fatigue time will be paid at the

employee's regular rate of pay. [Example: An employee, whose normal start time is 6:30 AM, works four (4) hours continuous overtime from 10:00 PM until 2:00 AM. This results in requiring the employee to report for work nine (9) hours after completing the overtime work and in this example, at 11:00 AM. Additionally, the employee would record four and one-half (4 ½) hours of paid fatigue time on the employee's timesheet (11:00 AM less 6:30 AM).] In the event an employee requests to take off the remainder of their regular work shift; as unpaid time, vacation, or compensatory time, they may do so provided the request is approved by their immediate supervisor; When the fatigue time earned is half or more of the scheduled workday, such requests shall not be unreasonably denied.

7.10.6. Multiple call-outs: If an employee is called out to perform overtime work within two (2) hours preceding the start of the employee's regular shift and the employee has performed any other overtime work in the nine (9) hour period preceding the start of the employee's regular shift the employee shall receive the fatigue time provided in Section 7.10.5 and the fatigue time rest period shall begin when the last overtime assignment is complete.

7.10.7. **Fatigue Time Shift-Overlap:** If an overtime work assignment associated with fatigue time and the employee's regular shift overlap, the overtime shall be considered fatigue time overlap and shall be paid as an overtime premium at the appropriate overtime rate in addition to their regular pay. No employee shall be required to work fatigue time overlap in excess of 2.5 hours.

ARTICLE 8. OVERTIME

8.1. **Preamble.** At the present time the District has no plans and does not contemplate an expansion in the use of overtime. The District will make all reasonable efforts to avoid overtime including reviews of staffing to minimize its adverse effect on individuals and to control costs to the District, but occasionally overtime may be necessary to avoid greater costs as well as to meet legal obligations and Board commitments. The District agrees to provide the Union with reports on overtime utilization on a semi-annual basis. The District will provide the Union with specific overtime utilization reports upon reasonable request. Furthermore, the parties agree to consult on an annual basis regarding overtime, standby and call back usage in order to improve the system and eliminate practices that the parties agree should be corrected. The District will continue to assess all overtime use to ensure that overtime is necessary in order to maintain current District operations, services, and to ensure completion of projects on schedule. Whenever overtime is necessary, the District will give employees notice as soon as is reasonable and practical to do so.

8.2. **Rate of Pay.** One and one-half (1-1/2) times the employee's regular hourly rate of pay shall be paid for all work performed in excess of eight (8) hours per workday or forty (40) hours per workweek. Time worked at the overtime rate due to Call Time overlap of the employee's regular workday shall be counted in determining the eight (8) hours per workday or forty (40) hours per workweek required to establish a base for overtime. There shall be no pyramiding of overtime pay.

8.3. **Limitation and Distribution of Overtime.** No employee shall be required to work more than sixteen (16) hours in any twenty-four (24) hour period. If an employee works thirty-two (32) hours in a pay period on emergency overtime work, that employee will not be subject to non-emergency necessary overtime work in the same pay period unless the employee volunteers for such work. An employee shall be obligated to work non-emergency necessary overtime work to the extent that the employee has not worked thirty-two (32) hours in a pay

period as emergency overtime work, i.e., emergency overtime hours worked shall reduce the hours limitation for non-emergency necessary overtime in the same pay period.

8.4. Emergency Overtime. All employees are required to work in emergency situations. An emergency includes, but is not limited to, situations which involve disruption of service to customers and actual or threatened danger of injury to person or damage to property, or threat to public health and safety.

8.5. Non-Emergency Necessary Overtime.

8.5.1. The District will request volunteers for all available necessary overtime. Overtime work shall be distributed as nearly equally as possible among qualified employees working within the same job classification, within the same work unit.

8.5.2. No volunteer may work more than sixteen (16) consecutive hours without approval of the Division Manager.

8.5.3. No employee will be assigned to work more than sixteen (16) hours in any 24-hour period or to work more than thirty-two (32) hours per pay period of non-emergency necessary overtime work. The parties emphasize the distribution commitment contained in Article 8.5.1 above to minimize the impact of assigned overtime on an individual employee.

8.5.4. In the event an insufficient number of employees volunteer for necessary overtime, the District shall assign employees to fill vacancies (on a rotating basis) starting by reverse District seniority in the affected unit and classification. Whenever an employee is on standby, the District will not assign other overtime work to that employee unless the entire rotation of his/her classification has been exhausted and overtime is still necessary. However, an employee shall be permitted to volunteer for overtime during a week the employee is also on standby.

8.5.5. With District approval, employees may trade or relinquish to another employee all overtime assignments. Until a trade is approved, all overtime assignments are part of an employee's job responsibilities. If a trade is not approved, a reason for the denial will be provided in writing.

8.5.6. Employees are expected to comply with overtime assignments and failure to do so shall subject an employee to appropriate discipline. However, an employee who, because of illness or other compelling emergency, is unable to work assigned or scheduled overtime, and who notifies the District a minimum of one (1) or more hours before an employee is scheduled to report to work, shall not be subjected to disciplinary action for failure to work.

8.6. Voluntary Overtime Lists. Work units having overtime work will establish lists of employees who are available to work overtime on a voluntary basis. The initial order of call when the lists are established shall be by District seniority; thereafter, employees will be called on a rotating basis subject to the operating procedure of the work unit. The operating procedure for such lists shall be developed by each work unit and shall take into account the nature of the overtime work available, skills required to do the overtime work, and the operational requirements of the work unit.

8.7. Compensatory Time. Compensatory time will be provided at 1.5 hours for each hour of overtime worked. Employees may receive a maximum of 75 hours compensatory time in lieu of paid overtime in a payroll year. Payroll year is defined as the period beginning with the

first pay period for which pay is received in January and ending with the last pay period for which pay is received in December. All overtime worked after an employee has earned 75 hours of compensatory time in a payroll year will be paid at the appropriate overtime rate. All employees who have earned compensatory time at the end of the last pay period, for which pay is received in December, shall have that compensatory time carried over as compensatory time into the next (following) payroll year. All compensatory time carried over from the last payroll year to the next must be used by the end of the next payroll year or it will be paid out to the employee at the end of the next (following) payroll year at the applicable FLSA rate. Any compensatory time used in the next (following) payroll year will first be deducted from any compensatory time that was carried over from the last payroll year, if any. Compensatory time earned after the last full pay period of the payroll year, but prior to the end of the calendar year, will be credited and included in the accrual for the following calendar year.

8.7.1. Use of accumulated compensatory time off shall be scheduled and approved by the District so as not to disrupt the operation of the work unit or the District.

8.8 Compressed Work Week Holiday Work. When a holiday(s) falls on the employee's nine-hour day (or other regularly scheduled workday that is longer than 8 hours), the employee shall be allowed to make up the shortfall of hour(s) by working an additional hour(s) within the same workweek as the holiday(s) or debit available vacation or compensatory time to offset any loss of pay that would otherwise occur, and the additional hour(s) will be paid at the employee's regular rate of pay. If the employee fails to account for the additional hour(s), the hour(s) will be charged to leave accruals. If the employee does not have any available leave accruals the time will be unpaid.

ARTICLE 9. STANDBY PAY

9.1. Preamble. At the present time the District has no plans and does not contemplate an expansion in either the use of standby or in the classifications where standby is currently being utilized.

9.2. Compensation Rates.

9.2.1. An employee assigned to be on paid standby during non-working hours shall receive a premium of thirty percent (30%) of their weekly straight time pay rate per week (base hourly pay rate x 40 hours) of standby assignment (exclusive of any overtime or other pay premiums). Standby for an individual 8-hour shift will be calculated by dividing the 30% of weekly straight time pay rate (exclusive of overtime and other premiums) by the number of the standby shifts in a week (16). Employees who complete a standby shift will be eligible for standby pay provided such employee makes themselves available and responds to all calls for work. Overtime work performed during a standby period shall be paid at the rate of one and one-half (1-1/2) times the straight-time hourly rate for the time worked exclusive of such standby premium.

9.2.2. In the event an employee assigned to standby is not called for overtime work because of District error which is verified by the District, the employee shall receive payment equivalent to two and one-half (2.5) hours at their overtime rate exclusive of special or premium pay provided such employee makes himself/herself available and responds to all standby calls for overtime work during that week.

9.2.3. When an employee is on standby on a day that is designated as a District holiday, the employee shall receive standby pay for three (3) eight-hour standby periods on that holiday, in

addition to receiving regular holiday pay.

9.3. Scheduling. The District shall schedule its standby needs at least two (2) months in advance. Volunteers for standby to fill the schedule shall be allowed in each classification with the most senior District employee allowed first choice of assignments.

9.4. Rotation System. A rotation system in each department, in each classification, in each location, shall be developed by the District where standby is necessary. The rotation system shall not be utilized if the standby schedule is completely filled with volunteers. The rotation system, if used, shall, in its inception, first obligate the least senior District employee in each department, in each classification, in each location.

9.5. Trades. With District approval, employees may trade or relinquish to another employee all standby assignments. Unless and until a trade is approved, all standby assignments are part of an employee's job responsibilities. If a trade is not approved, a reason for the denial will be provided in writing.

9.6. Compliance. Employees are expected to comply with standby assignments during their paid standby period and failure to do so shall subject an employee to appropriate discipline. However, an employee who, because of illness or other compelling emergency, is unable to be available for standby, and who notifies the District at the onset of the illness or at the time they become aware of the compelling emergency, shall not be subjected to disciplinary action for failure to be available. Such employee shall only be compensated for the actual time they were available for standby.

ARTICLE 10. CALL TIME

10.1. Minimum Overtime Guarantee. Employees called and requested to work outside of their regularly scheduled shift and who report to work in response to such request, shall be paid for a minimum of two and one-half (2-1/2) hours at the appropriate overtime rate.

10.2. Shift Overlap. If the call time work assignment and the employee's regular shift overlap, the following process will be followed:

10.2.1. The time that the minimum overtime guarantee overlaps the employee's regular shift will be paid as a premium but will count towards the employee's regular shift or hours. Minimum overtime guarantee is a premium pay and is not subject to retirement withholding and will not be counted toward retirement service credit.

10.2.2. The District and employee will pay retirement contributions for the regular shift hours worked by the employee at the regular rate of pay and the employee shall receive service credit in the Retirement System for the employee's regular shift hours.

10.2.3. No retirement contributions will be made for overtime compensation paid to the employee for the minimum overtime guarantee and no retirement service shall be credited for overtime work.

10.3. Rest/M meal Break. If an employee is called to start work less than two and one-half (2-1/2) hours before the start of his/her regularly scheduled shift, the employee shall be allowed a fifteen (15) minute break prior to the start of his/her shift. If the employee is called to start work two and one-half (2-1/2) or more hours before the start of his/her regularly scheduled shift, they shall receive a thirty (30) minute paid meal break prior to the start of his/her regular

10.4. Telephone Response. An employee on paid standby who is called on the telephone but not required to report for work will be compensated for a minimum of one (1) hour at the appropriate overtime rate.

ARTICLE 11. SHIFT DIFFERENTIAL

11.1. Definition and Compensation. Employees who perform work on a scheduled eight (8) hour shift beginning between 11:00 a.m. and 7:59 p.m., inclusive, shall be paid ten (10) percent shift differential per hour. Employees who perform work on a scheduled eight (8) hour shift which begins between 8:00 p.m. and 3:59 a.m., inclusive, shall be paid fifteen (15) percent shift differential per hour.

11.2. Continuous Operations. In continuous operations, when an employee's shift is extended by additional hours either before or after the normal shift, overtime compensation shall be based on the rate for the shift that was extended or actually worked, whichever is greater.

ARTICLE 12. REDUCTION IN FORCE/DEMOTION AND TRANSFER AND DEMOTION APPEALS

12.1. Reasons. An employee may be separated from District employment by reduction in force due to lack of work or funds, retrenchment, or completion of work. The District shall notify the union of its intent to implement a reduction in force no less than thirty (30) calendar days prior to its effective date. The notice shall include the reason for the layoff, the classifications and positions affected, the names of the employee(s) subject to separation by reduction in force, and the seniority information associated with the reduction in force.

12.2. Application. Reduction in force in a given classification shall be from all positions in the classification, District-wide.

12.3. Priority. Reduction in force shall first affect employees having provisional or probationary appointments in the classification in question. Thereafter, employees having permanent appointments in the classification shall be subject to reduction in force in inverse order to the length of their continuous service within the affected classification.

12.3.1. Length of service for the purpose of Section 12.3. shall mean an employee's continuous uninterrupted service from the effective date of appointment as a probationary, part-time, or less than full-time (Intermittent) employee

12.3.2. An interruption in length of service within a classification shall occur as a result of any one of the following:

- a. Discharge for cause
- b. Voluntary resignation
- c. Retirement for service or disability
- d. Absence from work for thirty-six (36) consecutive months because of layoff
- e. Failure to return from layoff as provided in Article 12.6
- f. Failure to return from an approved leave of absence upon the date specified for return at the time said approval was granted
- g. Unapproved leave of absence without pay of any length

Acting appointments to a classification shall not be construed as service in such classification unless such acting appointment was contiguous with appointment to such classification in a probationary, part-time, or less than full-time (Intermittent) status.

12.4. Demotion to Previously Held Classifications. An employee subject to separation by reduction in force may elect demotion to classifications in which they have previously held permanent civil service status during his/her current period of employment. In such election, the procedures of reduction in force outlined in Section 12.3 shall be applied to the employee being separated and to all others in the classification in question.

12.5. Voluntary Demotion. In accordance with Civil Service Rules governing demotions and transfers, an employee subject to separation may also be considered for voluntary demotion to other lower classifications or for transfer to classifications at the same salary level, if any vacancies exist. Any employee who is not transferred or demoted to a permanent position shall be offered appointment to any temporary position in his/her classification which is currently filled at the time of his/her proposed termination.

12.6. Reinstatement List. Names of employees affected by reduction in force shall be placed on a layoff and reduction list in the order in which they have been laid off or demoted. Such list shall remain in effect for a period of two (2) years, during which time, when vacancies occur in the classification in which reduction in force took place, employees laid off or demoted shall be reinstated in the reverse order of layoff or demotion.

12.7. Severance Pay. Each permanent employee with a minimum of five (5) continuous years of District employment who is laid off due to a reduction in force shall receive twenty (20) workdays' severance compensation exclusive of any premium, overtime, standby or longevity pay.

12.8. Demotion. The General Manager may approve the demotion of an employee for inefficiency, or as a result of reduction in force or for other cause. Except in disciplinary situations, there shall be no involuntary demotion of an employee until reasonable effort has been made to transfer or reassign the employee in accordance with applicable Civil Service Rules.

12.9. Transfer and Demotion Appeals. In the event of transfer or demotion in accordance with the District's Civil Service Rules, the Personnel Officer shall give written notice to the employee, including the reasons for the action, and the employee shall have the same rights of appeal as employees who are discharged or suspended.

ARTICLE 13. CONTRACTING AND SUBCONTRACTING

13.1 Right to Contract. The rights to contract and subcontract are vested exclusively in the District; provided, however, if such contracting or subcontracting work would result in the layoff of an employee in a classification set forth in Appendix A, the District will consult with the Union, prior to such contracting or subcontracting, in an attempt to avert, by transfer or other reasonable means, the layoff of such employee.

13.2. Annual Meeting. In addition to current practice, District and Union representatives will meet annually to review contract construction work and other work that is customarily performed by Union members that the District intends to contract out during the fiscal year. Further, District and Union representatives will regularly hold meetings as a Contracting Out Committee.

14.3.3.1. Eight Hour Work Schedule. Employees who work an eight (8) hour schedule shall receive the following:

14.3.3.1.2. Eight (8) hours of holiday pay at the straight time rate that the employee may choose either to receive as pay or add to their vacation accruals. If taken as pay, holiday pay is a premium pay and is not subject to retirement withholding and will not be counted toward service credit.

Continuous Service <u>Years</u>	Vacation Leave Hours <u>Per Pay Period</u>	Vacation Days <u>Per Year</u>

1 st through 4 th	3.692	12

14 years	6.154	20
15 years	6.462	21
16 years	6.770	22
17 years	7.077	23
18 years	7.385	24
19 and subsequent	7.693	25

15.2.2. Any increases an employee receives in vacation shall be prorated for the calendar year.

15.3. Use of Vacation.

15.3.2. At any time after completion of six (6) months of service, an eligible employee may use the six (6) vacation days credited for the first six (6) months of employment. Thereafter, employees may use vacation leave equal to the accrued vacation leave credited to their account.

15.3.2. Vacation must be taken within the calendar year in which it is credited, with two (2) exceptions:

- a. Certain amounts of vacation may be deferred, as shown below.
- b. Vacation started before the end of the year may be continued into the next year.

15.3.3. A maximum of 50 vacation leave days (400 hours) may be deferred by employees annually. Unless there is specific written authorization from the General Manager or their designee to exceed such limits, any employee with deferred vacation accrued in excess of 50 days (400 hours) at the end of any payroll calendar year shall have their vacation leave balance adjusted and reduced to 50 vacation days via the two following options (or combination thereof) by:

- a. within the first three months of the year. If the employee did not take a vacation of at least eighty (80) hours in the preceding year, the employee must take at least 80 hours, cumulatively; and/or
- b. being paid for all hours in excess of 400 hours after the first quarter of the next payroll year.

15.4. Choice of Vacation.

15.4.1. Whenever possible, vacations shall be scheduled for the time requested by the employee. In order to avoid undue disruption of work activities or to minimize conflicts with other employees' vacations, the Department Head or Division Manager may place reasonable seasonal or other restrictions on the use of deferred vacation. Restrictions shall be provided in writing to all impacted employees prior to the start of the annual vacation bid process.

15.4.2. Supervisors shall prepare a schedule of available vacation periods for each classification in their organizational units which shall be based on efficient staffing of the unit in

relation to estimated workload. Each employee shall indicate, by order of preference, the vacation period desired. Supervisors shall review these requests and resolve any conflict in favor of the employee with the most District seniority provided, however, if an employee requests that their vacation be taken in two (2) or more noncontinuous vacation periods, such employee may exercise their seniority only for the first preference period of vacation.

15.4.3. Supervisors shall recommend the completed schedule to the Department Head or Division Manager. After the vacation schedule has been approved by the Department Head or Division Manager, an employee promoted or transferred into a unit may not "bump" another employee's previously scheduled vacation period without that employee's consent.

15.5. **Vacation upon Separation.** An employee eligible for vacation who is separated from District service for any reason shall receive a lump sum payment for any unused, earned vacation.

15.6 **Vacation Sell-Back.** An employee may choose to sell back a maximum of two hundred (200) hours of vacation leave, or the amount of hours the employee will accrue in the next calendar year, whichever is less to the District, in one-hour increments, during each calendar year. Employees may do so by making a one-time, irrevocable election no later than December 31 during the calendar year prior to the year the vacation hours are to be sold. The number of vacation hours an employee may elect to sell is limited to the number of vacation hours the employee will accrue in the following year, or 200 hours, whichever is less. The employee at the time of election, may choose payments of vacation hours in either the first pay period of June or the first pay period in October (one date or the other, not both) in the calendar year following their submission or irrevocable election to sell. If the number of vacation hours elected to be sold exceeds the number of vacation hours actually accrued at the time of payment, vacation hours sold will be limited to the number of hours accrued and available at the time of payment. Payments to employees resulting from such sell back of vacation shall not be considered "compensation" as defined in the Retirement Ordinance for the purpose of calculating terminal compensation.

15.6.1 As part of the District's open enrollment packet each year, the District will provide all employees with a copy of the Irrevocable Vacation Sell-Back Election Form and a reminder of the last business day before December 31st deadline for submission of the Form. The Open Enrollment Notice sent prior to the mailing of the packet shall also include reference to the Election Form and shall be sent to the employee via e-mail and U.S. mail.

15.6.2.a. As an exception to the irrevocable election requirement set forth in the above restriction, and employee may cash out vacation in the event of an unforeseen financial emergency where: 1. the employee can demonstrate that the employee has a real and immediate unforeseen emergency outside of the employee's control; 2. it would result in serious financial hardship if the cash payment were not made; and 3. the amount of the cash payment is limited to the amount necessary to meet the emergency.

15.6.2.b. To sell back unused Vacation Leave in the event of financial emergency, the employee must provide a signed, verified statement describing the type of hardship and the amount of the requested sell-back. The amount of the requested sell-back shall not exceed the amount of available accrued vacation hours at the time of the payment or 200 hours, whichever is less. The employee shall not be required to produce financial or other private information to support this statement.

15.6.2.c. The employee shall be fully liable for all tax or other financial consequences in the event that a taxing authority later finds any of the information provided by the employee to

demonstrate financial emergency to be inaccurate or that it is impermissible to allow for a cash out based on a financial emergency.

15.6.3. Should the IRS through an official circular letter or regulation such that the constructive receipt tax issue concerning vacation cash-out addressed by the paragraphs above be rendered inapplicable or otherwise not mandated by law, limitations on vacation sell back will be void and the 2021-2025 MOU language on vacation pay-outs shall be instated.

15.6.4. These provisions shall have no effect on an employee's right to pay-out all the employees available accrued vacation at the time of the employee's separation/retirement from District employment.

ARTICLE 16. PAID ABSENCE

16.1. Sick Leave.

16.1.1. Eligibility. Any permanent, probationary or part-time employee who, through no fault of their own, is unable to be present to perform their duties due to illness, injury, medical or dental treatment, or serious medical emergency in the employee's immediate family shall be granted sick leave in accordance with the provisions of this Section.

16.1.2. Accumulation. Employees shall accrue four (4) hours of sick leave credit for each full biweekly pay period of continuous service, to a maximum of 1040 hours (130 days). There shall be no accumulation for any workday of unpaid leave in excess of 20 workdays in a calendar year.

16.1.3. Use. All sick leave used shall be deducted from the employee's credits, with the minimum chargeable time being 30 minutes. When sick leave credits are exhausted, unpaid sick leave may be granted.

16.1.4. Family Sick Leave. Where employee absence is required due to medical reasons (e.g., illness or medical appointment) in the employee's immediate family (i.e., mother, father, stepmother, stepfather, husband, wife, son, daughter, stepson, stepdaughter, brother, sister, or domestic partner), a maximum of thirteen (13) days of accrued sick leave may be used in a payroll year as defined in Article 8.7.

16.1.5. Substitution of Sick Leave for Vacation. If an employee becomes ill and takes sick leave before a scheduled vacation begins, the starting date of vacation may be postponed, or vacation rescheduled as approved by the District. If an employee becomes ill after their last workday before vacation begins or during vacation and the illness extends more than two (2) vacation days, accumulated sick leave shall be substituted for vacation leave for each full day involved. Each vacation leave day that an employee was hospitalized may be converted to sick leave upon submission of satisfactory evidence of hospitalization. Request for such substitution shall be made when the employee returns to work, unless they wish to extend their absence, in which case they shall contact their supervisor before they are scheduled to return to work. Request for sick leave substitution shall be accompanied by a doctor's statement or other satisfactory evidence verifying the length of time the employee was incapacitated.

16.1.6. Limitations. An employee who is unable to report for work and who fails to notify their supervisor in accordance with work unit procedures, may not qualify for paid sick leave. An employee whose illness or injury arises out of non-District employment is not entitled

to sick leave. All sick leave use is subject to review, verification, and approval by the District. A doctor's certificate indicating time under doctor's care, approval for return to work, and any work limitations is required if sick leave extends to ten (10) consecutive workdays or more. Upon return to work from sick leave, the employee's supervisor and Department Director/Division Manager may require an employee to be evaluated by a District-selected physician, if there is reasonable concern about the employee's fitness for duty or endangering the health of other employees. These evaluations will be conducted on District time.

16.1.7. Retirement Credit. Consistent with the terms and conditions of the Retirement Ordinance, when an employee's sick leave accumulation reaches the maximum of 1040 hours, any hours which would have otherwise accrued thereafter shall be accumulated without limit. Such hours, when added to the existing sick leave accumulation, become Service Extension Credit, to be applied when computing the employee retirement allowance.

16.1.8. Service Extension Credit/Conversion. When an employee is released for return to work as shown by medical evidence satisfactory to the District, after sick leave extending for ninety (90) calendar days or more, the hours of sick leave taken shall be restored to the employee's sick leave account by deducting that number of hours from any service extension credit in the employee's account at the time of return to work to a maximum of five hundred twenty (520) hours. Such sick leave shall be credited and available for use after the employee's return to work.

16.1.9. Sick Leave Pay-Out In Lieu of Service Extension Credit. Employees who separate from service due to retirement shall have the option of receiving a lump sum cash payment equal to the value of fifty percent of the accrued hours in the employee's sick leave account and Service Extension Credit account, at base rate, not including shift or other differentials or premiums, less applicable taxes, instead of and in lieu of receiving Service Extension Credit pursuant to Article 16.1.7. and the Retirement Ordinance. If the result of the Kaiser Index Carryforward Balance is greater than 3 percent, the HIB Annual Adjustment will be 3 percent; if the result is less than 0 percent, then the HIB Annual Adjustment will be 0 percent. Any Carryforward Balance remaining after applying it to the HIB Annual Adjustment will continue to carry forward for future adjustments.

*The dates above are illustrative and it is understood that the contributions will begin on this date or the start of the first full pay period following the referenced date.

PEPRA compensation limits for pension are not applied to HIB. No change to the HIB Plan Normal Cost as determined by the Fiscal Year Actuarial Valuation for this tier of the plan will impact the HIB Employee Contribution Rate for the duration of this contract.

18.8.10 The Retirement Ordinance shall be amended as soon as practical after the first full pay period following the adoption of MOU by the EBMUD Board of Directors to implement Sections 18.8.7 to 18.8.9. This amount shall be increased annually, beginning January 2027, by the same percentage as the cost-of-living adjustment based on the national Consumer Price Index for Urban Wages Earners and Clerical Workers (CPI-W), U.S. City Average, All Items, Not Seasonally Adjusted, for the third quarter (July – September) of the prior calendar year compared to the third quarter of the calendar year proceeding that. The adjusted amount shall be rounded down to the nearest \$1.00, in a similar fashion to the Internal Revenue Code Section 402(g)(4). Notwithstanding the foregoing, in no year shall the adjusted amount exceed 50% of the annual dollar limitation on elective deferrals under Internal Revenue Code Section 402(g)(1). This will affect the Incentive Payment in March of the same calendar year. An employee can elect to defer 100% of the Incentive Payment to their 401(k) deferred compensation account by completing a deferral elections form specific to the Incentive Payment each year ahead of the Incentive Payment. If a deferral election is not submitted, the Incentive Payment will be paid to the employee as a non-pensionable taxable cash payment subject to all applicable withholdings.

The Incentive Payment shall be paid on the last paycheck of March of each year the employee is enrolled in a deferred compensation plan. The “look-back” period to determine participation in a deferred compensation plan shall be the twelve months prior to March 1st each year just prior to the end of the March date when the Incentive Payment may be paid out in cash or deferred to the employee’s 401(k) account. Participation means having made at least one contribution to a deferred compensation plan during the look-back period.

Employees shall be notified of their eligibility for the Incentive Payment during their Benefit Enrollment and New Employee Orientation. All employees shall be notified of the Incentive Payment during open enrollment each year. Notification shall include the dates for the look-back period. Employees who are not participating in a deferred compensation plan will be allowed 4 hours of work time to set up a deferred compensation account.

PEPRA members who contribute during the look-back period but separate by retirement, by reason of disability, or by death before the March payment date shall receive the Incentive Payment in cash.

If any enhanced deferred compensation benefit is offered to any other bargaining units, AFSCME Local 444 bargaining unit employees shall receive a benefit equal to the highest negotiated benefit.

19.5 Exclusions.

19.5.1 Employees who participate in any District deferred compensation plan may not defer sick leave buyback payments to their deferred compensation accounts.

ARTICLE 20. EXAMINATIONS

20.1. Recording of Oral Examinations. Oral examinations shall be recorded by audio tape recorder. All audio tape recordings shall be the property of and remain in the custody of the District; provided, however, the Union shall have reasonable access thereto. Recordings shall be retained by the District for ninety (90) days after establishment of the employment list resulting

from the examinations or, if there is a protest, until the protest is resolved.

20.2. Inspection of Examinations.

Consistent with District operating requirements and with the provisions of Civil Service Rules, employees participating in District Civil Service examinations shall be permitted reasonable time during working hours, without loss of time or pay, to inspect their examination papers.

20.3 Internal Promotions. The purpose of this section is to enhance the promotional opportunities for District employees.

20.3.1. Examinations will typically be open to both public and internal competition, however, an examination shall be administered on a closed promotional basis when the Manager of Human Resources determines that the number, diversity and qualifications of potential employee applicants are sufficient to generate a minimum of five (5) candidates per vacancy, to fill the current and anticipated openings, during the life of the list.

20.3.2. When the above criteria are not met, internal and external recruitments shall be conducted simultaneously. Both an open eligible list and an internal eligible list shall be established from those candidates who are successful in the examination process. All employees with Civil Service status who pass the examination shall be placed on the Internal Eligible. A successful candidate will be placed on only one list. The top five ranks on both lists shall be certified to the appointing authority. For each additional vacancy for which the certification is requested simultaneously, the Manager of Human Resources shall certify the name(s) from one additional rank on the open and internal eligible lists. Hiring supervisors shall interview all candidates in the ranks certified from the internal eligible list and, if they choose to interview from the open eligible list, they must interview all candidates in the ranks certified.

20.3.3. A demotion is movement to a classification with a lower top salary than the employee's current regular position. Employees may apply for voluntary demotion by submitting an application to Human Resources. They will be placed on the Demotion List if they meet the minimum qualifications for the classification. The voluntary Demotion List will be certified to hiring supervisors along with other employment lists. An employee's name will remain on the voluntary Demotion List for one year. The District may also demote an employee on an involuntary basis consistent with other District rules and practices.

20.3.4. Employees may apply to administratively transfer without exam between classifications which have the same salary levels and identical or very similar minimum qualifications (e.g., Utility Laborer and Water Distribution Plumber I), if they have regular status in one class. The District may also administratively transfer employees between classifications at the same salary level providing the employee meets the minimum qualifications.

20.4. Duration of Eligible Lists.

20.4.1. The duration of the employment Eligible Lists shall be one (1) year unless extended, at the District's discretion, for up to one (1) additional year. All existing lists may be extended for up to one (1) additional year rather than extended for six (6) months and all new lists may be extended for one (1) additional year.

20.4.2. The District will review results with the Union representatives on an annual basis beginning one year from the date of this Memorandum Of Understanding to determine impact on

promotional opportunities for District employees. Should the percentage of promotions decrease in 50% or more of the classifications, the District will agree to limit the extension of eligible list an additional six (6) months except for entry-level examination processes where lists may be extended for one (1) additional year.

20.5. Mandatory Reassignment Interview.

20.5.1. Employees on an active Reassignment List for Maintenance Specialist classifications will be given an interview with a supervisor who has a vacancy. Employees who are selected from the reassignment list and decline the appointment will be ineligible for reassignment for one (1) year.

20.5.2. Probationary employees are not eligible for reassignment.

20.5.3. Employees who have been disciplined by more than one warning memo and/or have been suspended within the last year are not eligible for reassignment.

ARTICLE 21. REASSIGNMENT/SENIORITY BIDDING PROGRAM

21.1. Eligibility.

21.1.1. This program will apply to all regular, full time, civil service positions that become vacant within the Distribution Maintenance and Construction (DMC), Maintenance Support (MSD), and Pipeline Construction and Equipment (PCE) Divisions in the following seven classifications or successor classifications:

- c. Water Distribution Crew Foreman
- d. Truck Driver II (TD II)
- e. Heavy Equipment Operator (HEO)
- f. Heavy Transport Operator (HTO)

21.1.2. For purposes of this program, a vacant position is defined as a regular, full-time, civil service position which has become open and which the District plans to fill. During the month of December each year, the District will notify the Union of the number of positions listed in 21.1.1 that must be filled in each service yard, Continuous Operations, MSD, and PCE required to meet its operational goals as described in Article III of this MOU.

21.1.3. All regular, full-time employees are eligible to participate in this program provided they:

21.2. Procedure.

21.2.1. During the month of November, eligible employees in the above classifications

may elect to place their names on the Maintenance Department's Reassignment/Seniority Bidding Lists (i.e., North Yard, South Yard, East Yard, Central Yard, Continuous Operations, Pipeline, ESS and Paving) for all locations.

21.2.2. When an employee waives an offer of reassignment, their name will be removed from that list for the remainder of the calendar year.

21.2.3. The Maintenance Department's Reassignment/Seniority Bidding Lists, shall be effective for each calendar year beginning January to fill all vacant regular, full time Civil Service positions in the above classifications.

21.2.4. The most senior (utilizing District seniority) eligible employee shall be appointed to a vacant regular, full time civil service position (per the pre-designated list established in 21.2.1).

21.2.5. After filling the first vacant position in a particular organization and classification (defined in 21.1.2), up to two (2) subsequent related vacancies caused by filling the first vacant position will be filled by use of the Maintenance Department's Reassignment/Seniority Bidding Lists. Additional vacant positions may be filled by use of appropriate District Civil Service Lists.

21.2.6. In the event that a vacancy occurs that requires a specific classification level (e.g., Plumber III) incumbent, and no incumbent is on the reassignment list, the District reserves the right to reassign employees to such vacancies as needed; provided, however, that selection of an individual for such reassignment is based on District seniority among volunteers, then on reverse District seniority. The District shall provide notification by physical posting of the vacancy open to volunteers and email to the affected classifications (per People and Places) when there is such a vacancy.

ARTICLE 22. GRIEVANCE PROCEDURE

22.1. Intent. The District and the Union recognize the necessity for speedy and equitable adjustment of all complaints as close as possible to the point of origin. Whenever possible, grievances should be settled with supervisors in the department/division where the grievance originates. It is the intention of the District and the Union to eliminate unnecessary grievances, and to promptly and equitably adjust all those grievances which are meritorious.

22.2. Definitions.

22.2.1. Grievance.

22.2.1.1. A grievance is any dispute between the District and an employee or group of employees concerning the interpretation or application of this Memorandum; or the interpretation or application of rules or regulations governing personnel practices or working conditions; or the practical consequences of a District Rights decision on wages, hours and other terms and conditions of employment.

22.2.1.2. A dispute over the terms of this Memorandum of Understanding, or over the terms of rules or regulations governing personnel practices or working conditions, or over the terms of a District Rights decision on wages, hours and other terms and conditions of employment shall not constitute a grievance.

22.2.1.3. The Union may file a grievance on behalf of specified unit members if the alleged violation involves unit members in more than one work unit. If the grievance involves employees

in only one division, the grievance shall be filed with the Division Manager at Step 1. If the grievance involves employees in more than one (1) division, the grievance shall be filed with the Manager of Employee Relations at Step 1.

22.2.2. Immediate Supervisor. The person from whom an employee receives their work assignments, such as Wastewater Shift Supervisor, General Pipe Supervisor, Plant Electrical Maintenance Supervisor and Equipment Supervisor.

22.2.3. Work Unit Supervisor. The highest supervisor within the employee's work unit, such as the Construction and Maintenance Superintendent, Mechanical Supervisor, Plant Maintenance Superintendent, Wastewater Treatment Superintendent, Superintendent, Pardee Section, and Superintendent, Aqueduct Section.

22.2.4. Limited Civil Service Examination Grievance Procedure. A separate grievance procedure is included in Section 22.6 of this Article to cover grievances arising out of any Civil Service examination challenge up to and including the establishment of a register.

22.3. Suspension and Discharge.

22.3.1 Suspensions of less than five (5) workdays. Any employee may be suspended for just cause. Before imposing the suspension, the supervisor shall advise the employee that the subject of suspension will be discussed, and that the employee may be accompanied by a Union representative. Upon such suspension, the supervisor shall notify the employee in writing, of the reason for and duration of the suspension. An employee ordered to leave their work for disciplinary reasons shall, before leaving the District premises, have the right to consult with their Union steward or officer.

22.3.2 Pre-Disciplinary (Skelly v. State Personnel Board) Meetings. When the District is considering taking major disciplinary action (suspension of 5 or more workdays or discharge), it shall provide copies of all written and other relevant materials used by the District, to the employee and their representative before the scheduled pre-disciplinary meeting. The District is not precluded from considering information obtained by the District after the pre-disciplinary meeting in response to the statements made by an employee or their representative during the pre-disciplinary meeting and shall provide copies of any additional information. The pre-disciplinary meeting officer shall be outside the chain of command of the employee. The pre-disciplinary meeting officer shall issue their written decision within five (5) working days, starting with the first full working day following the pre-disciplinary meeting. The pre-disciplinary meeting officer has the authority to uphold, reduce, or rescind the recommended disciplinary action based on the information contained in the same relevant materials provided to the employee and their representative prior to the pre-disciplinary meeting and the information provided by the employee and/or their representative during the pre-disciplinary meeting.

23.3.3 Any employee may be discharged for just cause. In all cases where the District may conclude that an employee's conduct may justify discharge, such employees shall first be suspended, following the pre-disciplinary meeting. Such an initial suspension shall not be for more than five (5) workdays. During such a period, the District shall decide whether the suspension without pay already given is considered sufficient, or, dependent on the facts of the case, it should be extended, reduced, converted into a discharge, or that no discipline should have been given.

23.3.4 Consultation with a Union steward or officer will not be required where the

supervisor removes any employee from the premises in cases involving violence, willful destruction of property, or to prevent injury to the employee or others. The Union's chief steward, president, and business agent shall be notified as described in MOU Article 25.

23.3.5. Whenever the employee is not present at their workplace when a suspension is deemed necessary, the employee and the Union shall be notified by telephone or mail within one (1) workday following the effective date of suspension. Email notification to the Union's chief steward, president, and business agent shall constitute Union notification. Such notice shall state the reasons for and duration of the suspension.

22.3. **Civil Service Appeal.** The employee, with or without their designated representative, shall have the right to appeal a suspension or discharge either in accordance with the Grievance Procedure by sending a completed grievance form to the Division Manager via the work unit supervisor, or in accordance with Civil Service Rule XIII, APPEALS, but in no case under both.

22.4. Procedural Steps.

22.4.3. Step 1. Informal Discussion/Filing of Grievance Statement.

22.4.3.1. The employee who has a grievance other than discrimination [as described in 22.4.3.2 below] may, with or without the assistance of a representative, discuss the matter informally with his/her immediate supervisor. If the grievance is not settled through informal discussion and the employee desires further review, a completed and written Form PE-105, "Statement of Grievance", must be submitted to the employee's immediate supervisor within twelve (12) workdays from the initial date they knew, or reasonably could know, of the act or omission causing the grievance. If the grievance is challenging a disciplinary action, the grievance shall be filed with the supervisor of the person who took the disciplinary action within twelve (12) workdays.

22.4.3.1.1. The PE-105 shall contain the following information: (1) a statement of the grievance and all relevant facts; (2) specific provision(s) of the Memorandum of Understanding, Work Rule, Policy, Procedure or Civil Service Rule allegedly violated; and (3) the remedy sought.

22.4.3.1.2. The supervisor shall discuss the matter with the employee, the work unit supervisor, and any others who should be directly involved and attempt to arrive at a solution. The supervisor shall provide a written answer to the employee that sets forth the supervisor's rationale and decision within five (5) workdays of receipt by the supervisor of the written Form PE-105. The decision of the immediate supervisor shall be applicable only to the grievance being reviewed and considered.

22.4.3.2. Alleged Unlawful Discrimination.

22.4.3.2.1. If an employee is seeking redress from an action, decision, policy, or condition that they believe discriminated against them to the extent the applicable law prohibits such discrimination by reason of conduct based on a protected basis such as race (i.e. racial characteristics including hair style/texture), color, religion, creed, sex, reproductive health decision making, gender, gender identity (including transgender status), gender expression, marital or registered domestic partnership status, age for individuals forty or older, national origin, ancestry, disability (mental or physical), medical condition (cancer or genetic characteristics), genetic information, sexual orientation, military and/or veteran status, family or medical leave status, pregnancy (including childbirth, lactation or related medical condition),

pregnancy disability leave status, domestic violence victim status, political affiliation, or any other status protected by federal, state and/or local laws, and employee may file a grievance pursuant to this section. Prior to filing such a grievance, the employee shall first discuss their complaint with their immediate supervisor; provided that an employee may alternatively discuss their complaint informally with the Manager of Diversity and Inclusion. A discussion with the Manager of Diversity and Inclusion will initiate the complaint process described in the District's EEO Discrimination/Harassment Complaint Procedure 614.

22.4.3.2.2. If an employee is seeking redress from an action, decision, policy or condition that they believe to be a result of union activity, or if discrimination is believed to be because of union membership or non- membership, then the grievance shall be filed with the Manager of Employee Relations.

22.4.3.2.3 If the grievance concerning alleged unlawful discrimination is not settled through informal discussion and the employee desires further review, the grievant may file a grievance (PE-105) with their supervisor or any other supervisor, superintendent, or manager within twelve (12) workdays from the date of the last action, decision, policy or implementation of condition which the grievant alleges constitutes unlawful discrimination. Any grievance alleging discrimination shall be placed in abeyance and shall be referred to the Manager of Diversity and Inclusion as a complaint subject to the District's EEO Discrimination/Harassment Complaint Procedure 614. If the grievant files a written PE-105 alleging unlawful discrimination, the written PE-105 shall also serve as the written EEO Discrimination/Harassment Complaint Form (Form Q-006). The EEO Discrimination/Harassment Complaint Form must be filed within 365 calendar days from the initial date they knew or could reasonably have known of the act or omission giving rise to the alleged unlawful discrimination.

22.4.3.2.3. The allegation of unlawful discrimination (filed either as a grievance or as an EEO Discrimination/Harassment complaint) shall will be processed in accordance with the EEO Discrimination/Harassment Complaint Procedure 614. The Manager of Diversity and Inclusion is the final District review level of EEO complaints.

22.4.3.2.4 If the allegation of unlawful discrimination as described in the EEO Discrimination/ Harassment Complaint Form, or grievance, remains unresolved, the employee may, within twelve (12) workday from the date of the DIO's issuance of either:

1. Non-Acceptance or Complaint Closure. 1) submit a written grievance (PE-105) if no grievance on the matter was previously submitted, this grievance will be heard at Step 2, Board of Adjustment as described in the Grievance Procedure section of this MOU (22.5); or 2) advance the grievance to Step 2, Board of Adjustment as described in the Grievance Procedure section of this MOU (22.5). If the employee elects to advance the complaint as a grievance, the employee and/or the union must clearly detail the concerns about specific findings of the DIO's decision or determination. Non-acceptance or complaint closure notices shall be sent by the DIO to the complainant. The day following the date of this notice shall constitute the first of the twelve (12) workdays by which the grievance may be submitted or advanced to Step 2, Board of Adjustment.

-or-

2. EEO Complaint Determination. File an appeal with DIO as described in Procedure 614. Alternatively, an employee or the union may elect to 1) submit a written grievance (PE-105) if no grievance on the matter was previously submitted, this grievance will be heard at Step 2, Board of Adjustment as described in the Grievance Procedure section of this MOU (22.5); or 2) advance the submitted grievance that has been held in abeyance to Step 2, Board of Adjustment as described in the Grievance Procedure section of this MOU (22.5). In no case may the grievant pursue both channels of appeal. If the employee elects to appeal the determination through the grievance processes, the employee and/or the Union must clearly detail the

concerns about specific findings of the DIO's decision or determination. EEO complaint determination notices shall be sent by the DIO to the complainant(s) and respondent(s). The day following the date of this notice shall constitute the first of the twelve (12) workdays by which the grievance may be submitted or advanced to Step 2, Board of Adjustment.

22.4.3.2.5. If the allegation of unlawful discrimination as described in the EEO Discrimination/Harassment Complaint Form, or grievance, is resolved or not advanced as described in section 22.5.1.2.6, the grievance shall be considered resolved.

22.4.4. Step 2. Board of Adjustment.

22.4.4.2. If the employee is not satisfied with the Step 1 written response from their immediate supervisor, the employee must submit the completed Form PE-105, "Statement of Grievance", to the Manager of Employee Relations within twelve (12) workdays of the Step 1 written response.

22.4.4.3. A Board of Adjustment meeting will be held within ten (10) workdays of the receipt of the Form PE-105 by the Manager of Employee Relations. In all grievances except those involving suspension without pay or discharge, the Board of Adjustment shall be comprised of the Division Manager and the Manager of Employee Relations or their delegate and not more than two representatives from the bargaining unit. In the case of a class action grievance that involves all Local 444 members, the Board of Adjustment shall be comprised of a Department Director and the Manager of Employee Relations or their delegate and not more than two representatives from the bargaining unit. The Manager of Employee Relations or their delegate will chair the Board of Adjustment. In all grievances that involve suspension and/or discharge, or the decision of the Division Manager, the Department Manager will replace the Division Manager. No relatives of the grievant or members of the grievant's household may sit on a Board of Adjustment for either of the parties. In addition, an individual named in a grievance resulting from a disciplinary action or alleging harassment will not be eligible to serve on the resulting Board of Adjustment, with the exception of Employee Relations staff.

22.4.4.4. The purpose of the Board of Adjustment meeting will be: 1) to review the facts of the grievance and to conduct a further investigation of the situation, if appropriate, and (2) to explore alternate methods of resolving the grievance. Unless the parties mutually agree otherwise, any majority decision reached at the Step 2 level, shall be reduced to writing within five (5) workdays and shall be final and binding. If no agreement is reached, Management's decision shall be reduced to writing within five (5) workdays.

22.4.5. Step 3. Binding Arbitration.

22.4.5.2. If the grievance as described in the PE-105 in Step 1 remains unresolved, the grievant may submit the grievance to binding arbitration in accordance with the procedures set forth in Step 3.

22.4.5.3. A request for arbitration shall be in writing and addressed to the Manager of Employee Relations and must be postmarked within forty-five (45) workdays after the employee's receipt of the decision in Step 2. The request shall clearly state the issue to be arbitrated. The District, or its representative, and the employee, or their representative, shall jointly select an impartial arbitrator. If they are unable to agree upon an arbitrator, the District shall request a list of arbitrators from either the American Arbitration Association, the California State Conciliation Service or Federal Mediation and Conciliation Service. The arbitrator shall be selected as mutually agreed upon, or in accordance with applicable rules of the agency selected within twenty (20) workdays of receipt of the request for arbitration from the grievant/union. The arbitrator will

be requested to hold the hearing within thirty (30) workdays of the request to arbitrate and to render a decision within sixty (60) workdays of the receipt of briefs.

22.4.5.4. The arbitrator shall limit their findings and recommendations strictly to the interpretation, application and enforcement of the provisions of this Memorandum, or the interpretation or application of rules or regulations governing personnel practices or working conditions. In cases of suspension or discharge, the arbitrator shall limit their findings and recommendations strictly to the issue of cause.

22.4.5.4.5. The arbitrator's hearing shall be formal and conducted in accordance with usual administrative practices, including recording of proceedings by certified reporter and testimony given under oath. If a transcript of the proceedings is ordered by either party, each party shall pay for its own copies.

22.4.5.4.6. The arbitrator shall in no case make any recommendations:

1. contrary to, or inconsistent with or modifying or varying in any way, the terms of the Memorandum, or the terms of rules or regulations governing personnel practices or working conditions;
2. inconsistent with the District's duties, responsibilities or obligations particularly with regard to public health and safety and including the Municipal Utility District Act or any other State or Federal law to which the District is subject;
3. concerning the grievance of any employee who has elected to process a grievance through any other appeal procedure established by the District;
4. ordering any wage increase or decrease;
5. ordering the payment of back wages for more than six (6) months prior to the date a written grievance is filed;
6. reversing, overruling, or otherwise modifying any District decision or omission except after finding (a) the District decision violated some express provision of the Memorandum or rules and regulations governing personnel practices or working conditions; or (b) the District decision or omission was under the circumstances arbitrary, capricious or discriminatory.

22.4.5.4.7. Each party shall make arrangements for and pay the expenses of witnesses who are called by them. The District shall have no obligation to compensate employees, with the

exception of the aggrieved in other than suspension or discharge cases, for time lost during arbitration proceedings, except when any employee is requested by the District to participate in such arbitration proceedings.

22.4.5.4.8. The expenses of the arbitrator shall be shared equally by the District and the Union or employee, as appropriate.

22.5. Procedural Steps for Limited Civil Service Examination Grievance Procedure.

22.5.3. Step 1. The Union may file a Limited Civil Service Examination Grievance on behalf of a current employee or group of current employees by submitting a PE-105 to the Director of Human Resources within the following time limits:

22.5.3.2. Disqualification from examination - Within five (5) working days of notice of disqualification and prior to the administration of the examination.

22.5.3.3. Examination results - Within five (5) working days of notice of examination results.

22.5.3.4. Other grievances pertaining to recruitment, examination, or selection as stated in the Civil Service Rules - Within five (5) working days from the initial date they knew, or reasonably could know, of the act or omission causing the grievance.

22.5.3.4.5. The Manager of Human Resources shall provide a written answer to the union setting forth their decision and rationale within five (5) working days of receipt of the PE-105.

22.5.4. Step 2. If the union desires to appeal the Manager of Human Resources' decision, it shall notify the Manager of Human Resources in writing within five (5) working days from receipt of the Manager of Human Resources' decision, that it desires to submit the grievance as set forth in the PE-105, "Statement of Grievance" to expedited arbitration. The expedited arbitration process for Limited Civil Service Examination Grievances shall be as described below and shall be the exclusive means for the resolution of such disputes:

22.5.4.2. Selection of Arbitrator and Scheduling of Hearing. Within five (5) working days of the Union's notice to the Director of Human Resources, an impartial arbitrator shall be jointly selected by the District and union. If the parties cannot agree on an arbitrator, then the Manager of Human Resources will request a list of five (5) arbitrators from the California State Mediation and Conciliation Service and the parties shall select an arbitrator by mutual agreement or alternately striking names.

22.5.4.3. The hearing shall be held within 10 working days of the arbitrator's selection. If the arbitrator has no available date within 10 working days, another arbitrator shall be selected until an arbitrator can be found who is available within the 10 working day time limit.

22.5.4.4. Pre-Hearing Submission and Conduct of the Hearing.

22.5.4.4.5. The District and the Union shall each submit three (3) calendar days prior to the hearing a pre-hearing statement to the arbitrator, with a copy to the other party, outlining its

position and appending whatever exhibits it wishes to present.

22.5.4.4.6. Unless the parties mutually agree to the contrary, each party shall have up to two (2) hours to present its case, but may reserve up to one-half (2) hour of such time to respond to the other party's presentation. The presentation may be made by way of statement by the party's representative, presentation of witnesses or both, but the hearing shall be informal and rules of evidence shall not apply. No transcript or recording shall be kept.

22.5.4.5. Decision. The arbitrator shall issue a written award within three (3) working days after the close of the hearing. During this period, the arbitrator may convene the parties for up to an additional two hours if the arbitrator wishes to raise additional questions. The award shall be final and binding.

22.5.4.6. Costs. The fee and expenses of the arbitrator shall be shared equally by the parties.

22.6. Election of Remedies.

22.6.3. It is the intent of the parties that this Grievance Procedure shall be the exclusive remedy for the resolution of grievances as defined in Section 22.5.

22.6.4. It is specifically and expressly understood and agreed that taking a grievance appeal to arbitration constitutes an election of remedies and a waiver of any and all rights by the appealing employee, the Union, and all persons it represents to litigate or otherwise contest the appealed subject matter through the District Complaint Procedure or the District Civil Service Procedure. Litigation or any other contest of the subject matter in any court or other available forum shall constitute an election of remedies and a waiver of the right to utilize this Grievance Procedure or to arbitrate the matter. This paragraph is not intended to bar an employee from pursuing any cause of action which has been established by statute.

22.7. **Waiver of Steps and Time Limits.** Except when otherwise provided, all steps of the grievance procedure shall be utilized unless a waiver of one or more steps is mutually agreed upon in writing. If the employee or the Union fails to process a grievance within specified time limits, the grievance shall be deemed concluded on the basis of the last decision reached, unless an extension of time limits is mutually agreed upon by the parties in writing. If the District fails to respond within the specified time limits, the grievant may appeal to the next step, within the specified time limits.

22.8. **Suspension of the Grievance Procedure.** If this Memorandum is violated by the occurrence of a strike, work stoppage, other interruption or impeding of work in violation of Article 24, no grievance shall be processed while such violation continues. The Grievance Procedure outlined herein shall not be applicable to grievances arising in the period between the termination of this Memorandum and the effective date of its successor.

ARTICLE 23. PERSONNEL FILES

23.1. **Review of Employee Personnel File.** Employees shall have the right to review their personnel files (including the Department maintained supervisor's file referenced in 23.4,

except for supervisor's notes) pursuant to applicable state law. No information shall be placed in an employee's personnel file without the employee receiving a copy of the information. The employee shall have the right to respond to any such material. Medical information shall be forwarded to an employee's medical doctor upon written request.

23.2. **Confidentiality.**

23.2.1. Employee personnel files shall be held in strict confidence by the District and shall be subject to inspection only by officials of the District acting on official District business, the employee, or Union officials, in accordance with the employee's written instructions (which shall be filed in the personnel file), or as otherwise required by law (such as by subpoena).

23.2.2. In the event that a business inquirer, creditor, or other person contacts any District supervisor to obtain job reference information on any former or current District employee, the information given out shall be limited to verification of employment, length of employment, and verification of salary range if the person inquiring first states a salary in the correct range to the District.

23.3. **Disciplinary Documents.** All disciplinary documents in an employee's personnel file (with the exception of suspension letters), will be removed from the file three (3) years after

date of issuance at the request of the affected employee. Letters of suspension will be removed after three (3) years, at the request of the employee, if no additional written disciplinary action (warning letter or suspension) has been imposed within the three (3) year period following the initial suspension. EXHIBIT D

PREAMBLE

This Contract (hereinafter referred to as "Contract") entered into by East Bay Municipal Utility District (hereinafter referred to as the "District") and Local 2019, American Federation of State, County and Municipal Employees (AFSCME), (hereinafter referred to as the "Union") has as its purpose the promotion of harmonious relations between the District and the Union; establishment of an equitable and peaceful procedure for the resolution of differences; and the establishment of rates of pay, hours of work, and other conditions of employment.

The provisions of this Contract supersede all previous Memoranda of Understanding between the parties. Where provisions of this Contract make necessary the adoption, amendment or revision of Civil Service Rules and/or Policy & Procedure Statements because of specific conflict or absence of coverage, such provisions shall be presented to District's Board of Directors in accordance with Article 31.3.

Article 1. RECOGNITION**1.1.1. Majority Representation.**

1.1.1. The District recognizes the Union as the majority representative of all permanent, probationary, limited-term (LT), temporary construction (TC), less than full-time (intermittent), six (6) month temporary (Temp6), and part-time employees within the class titles of the formally recognized units as enumerated in Appendix A, "Units/Class Titles/Salary Ranges", which are attached hereto and made a part hereof.

1.1.2. The District shall furnish the Union on a monthly basis with the name, classification and department number of each new employee hired for, or separated from, a permanent, limited-term, less than full-time (intermittent) temporary construction, Temp6, or part-time position within the foregoing units, and shall notify each said new employee of the District's recognition of the Union as the majority representative in said units.

1.2. Representation of Employees in six (6) month temporary (Temp6), Limited-Term (LT) and Temporary Construction (TC) Appointments.

1.2.1. The following applies to employees in Temp6 LT and TC appointments in classifications represented by Local 2019.

1.2.1.1. Employees who have civil service status in a District classification and who are promoted or transferred employees continue to retain rights to a position in their former civil service classification when the Temp6, LT or TC position is completed.

1.2.1.2. The District has the obligation to assign such employee back to a position in the employee's former civil service classification. Ending Temp6, LT or TC appointments shall not be grievable.

1.2.1.3. Employees currently in LT and TC appointments will be placed on the union's salary schedule at the step that is equal to their current salary.

1.2.1.4. No LT employee shall serve in that category for more than 4 years.

1.2.1.5. Temp6, LT, or TC employees with civil service status shall retain the benefits they were receiving at the time of acceptance of the Temp6, LT, or TC appointment. LT/TC employees without civil service status shall be provided all District benefits except retirement. Temp6 employees without civil service status are only eligible for the benefits defined in section 28.3 and 28.4 of this MOU.

1.2.1.6. The District shall give reasonable notice of available Temp6, LT, or TC positions to be filled and shall, where qualifications are reasonably equal, give preference to District employees when filling such positions.

1.2.1.7. An employee who promotes or transfers to an Temp6, LT, or TC position shall, while in a Temp6, LT, or TC position, receive continuous service credit for purposes of this Contract, Article 6, Salaries, Article 12, Reduction in Force, and Article 15, Vacations.

1.2.1.8. Temp6, LT, and TC employees are subject to all contract provisions unless specifically restricted.

1.3. Representation of Part-Time Employees

1.3.1. References herein to “employees” shall include part-time employees unless otherwise stated, except for the following sections: 7.12 (Fatigue Time); 10.2 (Shift Overlap); 18 (Insurance Benefits); 19 (Supplemental Benefits Program); which do not apply.

1.3.2. Part-time employees shall not be scheduled for 9.1 (Standby).

Article 2. UNION DUES/OPTIONAL POLITICAL CONTRIBUTION DEDUCTIONS

2.1. Eligibility. All permanent, probationary, limited-term (LT), temporary construction (TC), less than full-time (intermittent), six(6) month temporary (Temp6), and part-time employees in the classifications listed in Appendix "A" may become members of the Union, for as long as AFSCME Local 2019 remains the exclusive representative of the bargaining units listed in Appendix A.

2.2. Compliance.

2.2.1. The District shall provide contact information in writing, regarding persons newly hired by the District into a Local 2019 represented classification, to the designated AFSCME Local 2019 Union Official within five (5) workdays of the employee’s official hire date.

2.3. Union Dues Deduction Checkoff.

2.3.1. Upon Certification by AFSCME Local 2019, the District will deduct the appropriate dues from the employee’s pay, as established and as may be changed from time to time by the Union, and remit such dues to the Union. Employee requests to cancel or change deductions must be directed to AFSCME Local 2019, rather than the District.

2.3.2. The dues deductions for employees shall be made from the earnings of employees on the first payday of each calendar month following AFSCME Local 2019’s notification to the District of the dues deduction authorization. Requests to begin or revoke dues that are received with less than seven (7) calendar days prior to the first payday of each month will be processed the

following month. The effective date of any revocation to an existing authorization will be effective on the first pay day of the next calendar month following the AFSCME Local 2019's written notice of revocation no less than seven (7) calendar days prior to the first payday of the month.

2.3.3. All sums deducted by the District shall be remitted to the Union at an address given to the District by the Union, once each month by the fifteenth (15th) calendar day following the payday on which the deductions were made, together with a list of names, mailing addresses and the amount deducted for each employee for whom a deduction was made.

2.3.4. The District shall not be liable to the Union by reason of the requirements of this Article for the remittance or payment of any sum other than that constituting actual deductions made from the pay earned by the employee. In addition, the Union shall indemnify and hold the District harmless from any liability resulting from any and all claims, demands, suits or any other action arising from compliance with this Article, or in reliance on any list, notice, certification or authorization furnished under this Article. The Union agrees to refund to the District any amounts paid to it in error.

2.3.5. The District shall furnish, monthly, a list of all employees appointed within classifications contained in Appendix "A" of this Contract. The list will include temporary construction (TC) and limited term (LT) employees who have civil service status in the bargaining unit, Temp6 and part-time employees in classifications represented by the bargaining unit. The list shall include the employee's name, employee ID, address, home phone number, date union deductions began, date of hire, mail stop, job code, job title, salary, current deduction amount, job status and any other information required by law. The District shall furnish a list of all newly hired employees and change in status or representation of employees to the AFSCME Local 2019's designee(s) and the AFSCME Council 57 office.

2.3.6. Political Payroll Deduction. Any worker may sign and deliver to AFSCME Local 2019 an authorization card for payroll deduction of voluntary contributions to Public Employees Organized to Promote Legislative Equality (PEOPLE). The District agrees to remit monthly to AFSCME Council 57 all monies deducted for PEOPLE accompanied by a list of employees for whom such deductions have been made. Such authorization may be invoked or revoked in writing by the employee at any time.

2.3.7 Stewards selected and certified in writing to the District by the Union shall be permitted to meet with new employees hired into their assigned areas within the first fourteen calendar days from start date. The steward and new employee shall have thirty (30) minutes to review union materials and discuss employee rights and obligations under this Agreement, without loss of time or pay provided that this is scheduled and done in a manner consistent with District operational requirements and the steward and new employee are first excused by their supervisor(s). Permission to perform this function shall not be unreasonably denied.

Article 3. DISTRICT RIGHTS

3.1. Definition of Rights.

3.1.1. The rights of the District include, but are not limited to, the exclusive right to determine the missions of its constituent departments and divisions; set standards of services; determine the procedures and standards of selection for employment and promotion; direct and assign its

employees; take disciplinary action; relieve its employees from duty because of lack of work or for other legitimate reasons; maintain the efficiency of District operations; determine the methods, means and personnel by which District operations are to be conducted; determine the content of job classifications; take all necessary actions to carry out its mission in emergencies; and exercise complete control and discretion over its organization and the technology of performing its work; provided, however, that the exercise of such District rights shall not conflict with the express provisions of this Contract.

3.1.2. District and Union mutually intend and agree that District may unilaterally exercise any and all rights reserved by this Article without further meeting and conferring or consulting with Union. It is further mutually agreed that Union and District have met and conferred on all matters reserved to District by this Article and Union does expressly waive any and all rights to further meet and confer on such issues, or any of them, during the period of this Contract. Any dispute concerning the interpretation or application of District's rights shall be deemed a grievance and must be processed under Article 23.

3.1.3. The District agrees to apply the rights reserved by this Article in a prudent and reasonable manner; furthermore, the District shall consider the impact that the application of these rights may have on the work force, before applying these rights. The District agrees to make reasonable efforts to mitigate any significant impacts arising out of the application of any and all rights reserved by this Article.

Article 4. NO DISCRIMINATION/HARASSMENT/WORKPLACE VIOLENCE

4.1. No Discrimination/Harassment/Workplace Violence.

4.1.1. There shall be no discrimination, harassment, or retaliation of any kind by the Union or the District against any employee, to the extent the applicable law prohibits such conduct based on a protected basis such as race (i.e. racial characteristics including hair style/texture), color, religion, creed, sex, reproductive health decision making, gender, gender identity (including transgender status), gender expression, marital or registered domestic partnership status, age for individuals forty or older, national origin, ancestry, disability (mental or physical), medical condition (cancer or genetic characteristics), genetic information, sexual orientation, military and/or veteran status, family or medical leave status, pregnancy (including childbirth, lactation or related medical condition), pregnancy disability leave status, domestic violence victim status, political affiliation, or any other status protected by federal, state and/or local laws.

4.1.2. To the extent applicable law prohibits, there shall be no discrimination, harassment, or retaliation because of lawful Union activity, Union membership, or non-membership.

4.2. Harassment, Disparate Treatment and Inappropriate Behavior.

4.2.1. In addition to behavior which violates Section 4.1 above, the following behavior will not be permitted, tolerated, or condoned:

- a. Dishonesty, including providing false information to District management about the performance of an employee or circulation of private personnel files;
- b. Abusive, threatening, or intimidating behavior, gestures or language;

- c. Physical threats or physical striking of an employee;
- d. Repeated threats of discipline without counseling, warning, investigation, or a progressive disciplinary approach, including untimely discipline;
- e. Inequitable treatment regarding the application of District policies, District rules, this Contract, or those items listed in 4.1 above;
- f. Disrespect toward each other, regardless of position, status, or job responsibilities.

Infractions of this Article are subject to the Grievance Procedure.

4.2.2. When a grievance is filed under Section 4.2, the parties will be provided with the option to enter into a facilitation process to resolve the grievance. If the parties agree to facilitation, the District will arrange to have a facilitator assigned to meet with the individuals involved in the grievance in an attempt to resolve the matter.

The facilitation process will not exceed thirty (30) calendar days unless mutually extended by the parties.

If the parties do not agree to facilitation, the timetable is not met or the facilitation is unsuccessful, the grievance may be advanced by the union to the next step of the grievance process described in Article 23.3.

The facilitation process will be confidential and facilitators cannot be called as witnesses at any level of the grievance process.

4.3. Accommodation for Disabled Employees. The Union understands that the District has a lawful obligation under the federal and state laws to make reasonable accommodations for qualified individuals with disabilities. Any accommodation will be on a case-by-case basis, and shall not be precedential, nor shall constitute a past practice for anyone other than a qualified individual with disabilities.

Article 5. UNION ACTIVITIES

5.1. Union Stewards.

5.1.1. Employees selected by the Union to act as Union representatives shall be known as "stewards". The Union may select one steward for each thirty-five (35) filled positions or major fraction thereof for those classifications represented by the Union. The names of employees so selected and the areas to which they are assigned shall be certified in writing to the District by the Union. In the absence of the steward, an alternate may be appointed by the Union Chief Steward or Union President. Stewards, during regular working hours, shall be permitted to investigate and present grievances to the District without loss of time or pay, provided that this is done in a manner consistent with District operating requirements, and the steward is first excused by the steward's supervisor. When the investigation or grievance presentation is completed, the steward shall promptly report back to their supervisor. Permission to perform steward functions shall not be unreasonably denied. Only one (1) steward, per investigation, will be released at a time on District paid time for these purposes. Requests for an additional steward on District paid release time for training purposes shall be considered.

5.1.2. If it becomes necessary during the course of an investigation for a steward to contact an employee in another department or division, the steward shall state to and notify the supervisor of that department or division the purpose of the investigation. When the investigation is completed, the steward shall promptly report back to their supervisor and notify the supervisor of the other department or division that their employee's involvement with the investigation has concluded.

5.1.3. The District shall keep a record of time spent by stewards in the processing of grievances, and shall review this record periodically with the officials of the Union. It is agreed that in the event any abuse is found to exist, the Union officials will cooperate with the District in taking such steps as are necessary to correct such abuse.

5.1.4. It is understood that this section and the granting of time shall apply only to those employees selected pursuant to Article 5.1 as stewards, an active, appointed, and appropriately notified alternate steward or bargaining unit officer.

5.2. Attendance at Meetings by Employees.

5.2.1. District employees who are official representatives of the Union shall be given reasonable time off without loss of time or pay to attend meetings with management representatives where matters within the scope of representation are being considered.

Authorization to attend such meetings must be obtained from the Employee Relations Manager, no later than twenty-four (24) hours prior to the time of such meetings. The number of employees excused for such purpose shall not exceed four (4) unless additional employees are authorized by the District.

5.2.2. Consistent with District operating requirements, the Union may designate two (2) employee representatives to attend each District Board meeting and workshop (which meeting is otherwise open to the public), and two (2) employee representatives to attend each Retirement Board meeting without loss of time or pay. In addition, the Union may designate two (2) employees to serve on the 401 (k) and 457 deferred compensation committee meetings without loss of time or pay.

Authorization to attend such Board meetings must be obtained from the Employee Relations Manager, no later than twenty-four (24) hours prior to the time of such meetings.

5.2.3. Consistent with District operating requirements, one (1) Union election observer shall be paid during regular work hours for attendance at each election balloting location to observe all election procedures which involve representation, modification or decertification of the Union.

5.2.4. Union representatives are prohibited from using District vehicles other than sedans, SUVs, and pick-up trucks to attend District meetings. If Union representatives are driving District vehicles other than sedans, SUVs, and pick-ups at the time they are requested to attend meetings, the District will arrange for transportation or for a sedan, SUV, or pick-up to be available for them.

5.3. Communication with Employees. The Union shall have designated for official Union business a specific portion of District Bulletin Boards with space adequate for the posting of 4 sheets of paper (8.5 inches by 11 inches), or a contiguous area approximately 17 inches wide by

22 inches long. Items placed in the Union section of the District Bulletin Boards shall be signed by an officer of the Union and shall not contain salacious or inflammatory material that is directed toward the District, its employees, or its policies. The Union may distribute materials to employees within the classifications it represents through District mail distribution channels, with all such mailings subject to the prior approval of the Employee Relations Manager. These provisions may be revoked in the event of abuse after the Employee Relations Manager consults with representatives of the Union.

5.4. Visits by Union Representatives. The District agrees that accredited non-employee representatives of the Union, whether local, district council, or international representatives, shall have access to District premises for the purpose of meeting with Union officials when investigating grievances or determining compliance with this Contract. Arrangements for visits to District premises for these purposes shall be made through the Employee Relations Manager. Employee meetings with non-employee representatives shall not be paid for by the District.

5.5. Limitation on Union Activities. Activities involving internal management of the Union, such as collection of dues, assessment of other funds, membership meetings, campaigns for office, distribution of literature, or conducting of membership drives shall not be conducted during working hours, in District work areas, or on District property without prior approval of the Employee Relations Manager.

5.6. Union Business Leave.

5.6.1. Employees elected to any Union office or selected by the Union to do work that takes them from their employment with the District shall, at the written request of the Union, be granted leave for up to six (6) months, provided that the work of the operation concerned shall not be unduly impaired by such absence. While such employees are on Union Business Leave, they shall remain on the District payroll.

5.6.2. The Union will reimburse the District for the employees' wages and benefits while the employees are on Union Business Leave. If Union reimbursement is not received within 45 calendar days of District billing, the employees' status for that time shall be changed to Union Business Leave Without Pay and the appropriate amount shall be deducted from their next paycheck.

5.6.3. It is understood the intent of this section is to permit employees to continue to accrue sick leave, vacation leave, and retirement system credits while on Union Business Leave With Pay.

5.6.4. Notification. Requests for Union Business Leave shall be submitted in writing from the Union President to the Manager of Employee Relations a minimum of three workdays before the effective date of the leave. The Manager of Employee Relations may waive these notification requirements at the manager's discretion.

5.6.5. Minimum Duration. Union Business Leave must normally be for a minimum of one hour.

5.6.6. Unpaid Leave Requirements. Union Business Leaves without Pay shall be subject to the provisions of Article 17.1 of this Contract.

5.7. Orientation. As part of the District's new employee orientation program, the Union shall

have thirty (30) minutes to provide information and answer questions to new employees who are in classifications covered by this Contract. In addition to any required employee participants, two (2) Union representatives shall be permitted to attend without loss of pay or time.

5.8. General Membership Meetings. The Union shall be able to hold its general membership meetings in the Boardroom or Training Room in the Administration Center on the same basis as other employee groups.

5.9. Labor Management Meetings.

5.9.1. Scope of the Committee. The scope of the Labor Management Meeting (LMM) is to discuss concerns of the Union related to working conditions with Management, and for Management to present potential issues or actions affecting the Union or its represented classifications (e.g., training, classification concerns, jobsite reporting) except for matters related to contracting out or other issues properly addressed in a different forum. The LMM is an informal venue for discussion and does not constitute a formal meet and confer, but should agreements arise, they shall be in writing.

These meetings may include representative(s) of the District's Employee Relations staff, officers of Local 2019, Union Business Agent, and other District staff, as necessary.

5.9.2 The meeting shall occur monthly and have an agenda created by the parties.

5.9.3 The meeting agenda shall include classification, vacancy and recruitment concerns as placeholders at the monthly meetings.

5.10 The District shall provide one lateral cabinet for the Union President or designee for the storage of union materials.

5.11 Seniority

5.11.1 District Seniority. The total length of continuous employment with the District calculated from most recent date of hire, including the probationary period.

5.11.2 Classification Seniority. The total continuous time an employee has within a classification calculated from the most recent date of appointment to present, that also meets the requirements for District Seniority.

5.11.2.1 An employee shall continue to accrue Classification Seniority in their originating classification while completing a TC or LT assignment, provided the employee returns to the same classification.

5.11.2.2 Time in a TC or LT assignment in the same classification that is immediately followed by an appointment in said classification shall be counted for the purposes of Classification Seniority.

5.11.3 Tie Breakers. If two or more employees have the same length of service in a classification, then District Seniority shall be used to break ties. If District Seniority is equal, the employee with the lower District Employee Identification Number shall be deemed to have greater Seniority.

- 5.11.4 Loss of Seniority. Employees shall lose their seniority for the following reasons:
- a. Discharge for cause
 - b. Voluntary resignation
 - c. Retirement for service or disability
 - d. Absence from work for more than thirty-six (36) consecutive months because of layoff
 - e. Failure to return from layoff as provided in Article 12.6
 - f. Failure to return from an approved leave of absence upon the date specified for return at the time said approval was granted
 - g. Unapproved leave of absence resulting in discharge.

5.11.4 In the event of a reduction in force and reinstatement or reemployment under Reemployment Preference After Job Injury in accordance with 16.3.4, an employee's seniority will be reduced by the time that they were laid off or not employed by the District. This provision shall not apply to employees that are rehired in any circumstances except as provided for above.

Article 6. SALARIES AND OTHER PAY

6.1. Salary Schedule.

6.1.1. First Year Increases. Effective April 21, 2025, the monthly salary rates of employees covered by this contract (as set forth in the attached Appendix "A" dated April 26, 2021) shall be increased by 3.7%.

6.1.2. Second Year Increases. Effective April 20, 2026, the monthly salary rates of employees covered by this contract shall be increased by the February 2026 San Francisco/Oakland CPI-W plus 0.5% with a minimum increase of 2.0%, and a maximum increase of 6.0%, with no reopener.

6.1.3. Third Year Increases. Effective April 19, 2027, the monthly salary rates of employees covered by this contract shall be increased by the February 2027 San Francisco/Oakland Consumer Price Index for Urban Wage Earners and Clerical Workers CPI-W plus 0.5% with a minimum increase of 2%, and the maximum increase 6.5%, with no reopener.

6.2. Pay Period. Salaries shall be paid biweekly on Friday of the appropriate week. In the event that this day is a holiday, the preceding business day shall be the payday.

6.3. Twenty-Year Wage Increment. Each employee who is employed by the District prior to January 1, 2013, or who is an employee covered by the 1980 Retirement Plan shall be entitled to a salary increment following completion of twenty (20) years' continuous full-time District service. The adjustment for such employees shall be 2.75% (plus or minus no more than one dollar per month) added to the monthly salaries set forth, exclusive of overtime, night shift differential, standby pay or merit pay. Employees who receive this benefit are not eligible for the benefit listed in Section 6.3.1.

6.3.1 Employees who are covered by the 2013 Retirement Plan shall be entitled to a salary increment of 3.75% (plus or minus no more than one dollar per month) following completion of

twenty (20) years' continuous full-time District service. The adjustment shall be added to the monthly salaries set forth, exclusive of overtime, night shift differential, standby pay or merit pay. Employees who receive this benefit are not eligible for the benefit listed in Section 6.3.

6.4. Work-Out-of-Classification.

6.4.1. When an employee temporarily replaces another employee in a higher classification, that employee shall be paid the appropriate higher rate for such work. Assignments to perform the work of a higher classification pursuant to this Section shall be tracked by hours worked and shall not exceed 480 hours in a calendar year. The District shall make reasonable efforts to distribute work out of class on an equal and rotational basis for qualified employees in the affected work unit first. If there are no qualified volunteers in the affected work group, then the District will determine if it is appropriate to offer the assignment to qualified employees in another work unit. If there are no volunteers for the work out of class assignment, the District may direct employees to work out of class by reverse Classification Seniority (as defined in Article 5) on a rotational basis. If there is only one employee on shift at the time the necessary and unforeseen WOC is needed, the Supervisor has the discretion to assign the solo employee for the duration of that shift. By use of this Section, the District shall not attempt to avoid District Civil Service Rules and the filling of regular full-time positions.

6.4.2. Employees assigned to work out of class shall receive the beginning step of the higher class or a calculated rate which is 5-1/2% above the employee's current base rate, whichever is the greater amount, provided that the amount does not exceed the range of the higher class.

6.4.3. The purpose of this Section is not to restrict training opportunities but to encourage proper classification and compensation for work performed.

6.4.4. Nothing herein shall prohibit the training of an employee in work of a more advanced nature without additional compensation, as long as the employee is not assuming the full responsibility for carrying out the duties of the higher classification.

6.4.5. While it is recognized that there is sometimes overlap in the work performed by employees in different job classifications, employees shall not normally be required to perform the regular work of a higher job classification or work which falls outside the scope of the position for which the employee holds, whether in the absence or presence of the higher job classification.

6.4.6. Employees who believe they have been assigned to do the work of a higher classification, whether in writing or not, and do not receive such pay must file an out of class pay claim with the Department Manager within forty-five (45) working days of such alleged assignment.

6.4.7. The Department Manager shall review the claim and shall either approve and submit the claim for payment or deny the claim. In cases of denial, the Department Manager shall state the reason for denials. Denials may be based on either of the following:

1. The Department Manager determines that the assignment is not out of class; or
2. The Department Manager determines the work was not officially assigned to the employee.

6.4.8. When the Department Manager considers the assignment improper, the assignment shall

be terminated and the employee's pay claim will be honored.

6.4.9. Upon written approval by the Department Manager, an employee shall be authorized to receive an increase as defined in Section 6.4.2. Such pay shall be retroactive to the first day of the assignment, but not more than forty-five (45) working days prior to the date the pay claim was filed (see Section 6.4.6) and shall only be paid for the days in which the assignment was active.

6.5. Minimum Salary Rates. Salary rates established herein are to be minimum rates. The District may hire an employee at any salary step at or above the minimum rate.

6.6. Payment for Licenses/Certificates. The District shall pay all normal and regular fees incurred in the obtaining of any licenses or certificates that are required by the District for the job classification of the employee. It is understood that any late or penalty fees which are not caused by District action shall not be included in normal or regular fees. The District shall pay actual fees for registration, licenses or certificates of a professional or technical nature which are required by a District classification within the employee's career path. Employees shall be permitted time during their normally scheduled work shift, including reasonable travel time, to take tests for any licenses or certificates required for the employee's current job classification with the exception of Class C drivers' licenses without loss of pay. The District shall not accrue any overtime liabilities for the period of time during which an employee takes a test.

6.6.1 Land Surveyor Certification. An employee in the job classification of Survey Technician II or Chief of Party shall be paid \$250 per month in addition to the employee's base salary upon furnishing satisfactory evidence that the employee holds a valid California Land Surveyor License. Such employee must satisfy all requirements needed to maintain the License in order to continue receiving the \$250 per month and shall provide satisfactory evidence each time the License is renewed.

6.7. New Classifications.

6.7.1. The Union recognizes the right of the District to establish new job classifications and to amend existing class descriptions to reflect changes in assigned duties and responsibilities. In the event a substantial change is made in the description of a class represented by the Union, the District shall consult with the Union regarding such change and the salary for the class. Upon request of the Union, the parties shall meet and confer on the salary for the classification within five (5) working days prior to presentation to the Board of Directors. Establishment of salary is not subject to the grievance procedure as contained in this Contract.

6.7.2. The District will provide the Union with two (2) weeks' notice prior to requesting Board adoption of new classes or if there are substantial revisions to existing classes represented by the Union.

6.8. Reimbursement For Use of Private Car. The District shall reimburse employees at the rate identified by the American Automobile Association (AAA) composite average per mile cost in the 15,000 miles per year category for each mile they are authorized and required to drive their private cars within the employee's normal areas of operations in the performance of their assigned duties. Annually in July, the District shall adjust the amount to conform to the newly published rate. This information is obtained from the Annual Edition of Your Driving Costs, published by the American Automobile Association, Falls Church, Virginia. In the event such

publication is not available, the IRS rate will be used.

6.9. Reimbursement for Overtime Meals. The District shall provide a \$25.00 per meal allowance on an employee's paycheck when the employee completes two (2) hours or unscheduled overtime work beyond the end of either their regularly scheduled eight (8) or more hour shift (including job completion), or beyond any scheduled or planned 8-hour or more (consistent with their regular schedule) overtime shift. Employees shall be provided an additional meal allowance of \$25.00 after completing an additional four (4) hours of unscheduled overtime work.

If an employee works unscheduled overtime resulting in their eligibility for an additional meal period, time taken for the additional meal period at the work location shall be paid time. Time taken for additional meal periods away from the work location shall be unpaid time.

6.10. Bilingual Pay. Employees assigned to use more than one language (spoken, written or in sign language) in the course of their employment shall be paid \$200/month for use of each language, including sign language, provided the following conditions are met: a) the District verifies in writing the recurring need to utilize the second language skill on the job, b) the District verifies the employee's language proficiency, and c) the District has the exclusive right to determine the need for job required usage of the second language, the number of persons receiving the pay, and which individuals shall be assigned duties requiring second language proficiency. Employees on unpaid status for two consecutive pay periods, due to illness or injury, will have their bilingual premium payments discontinued until they return to work. Employees who request leave without pay (LWOP) for reasons other than illness or injury, will have their bilingual premium payments discontinued effective the first full pay period after their leave begins and their payments will resume once they have returned to work.

6.11. Salary on Promotion. The new base rate shall be either the beginning step of the new class or the step in the salary schedule which is at least 5 1/2% above the employee's current base salary, whichever is the greater amount, provided that in no instance shall an employee's base rate exceed the maximum salary wage rate established and in effect for the new class.

6.12. Adjustment for Overpayments/Underpayments. In the event an employee is erroneously overpaid wages by the District, regardless of fault, written notice shall be provided to the employee. Simultaneously, the Union shall be notified that the employee received an overpayment notice from the District. Upon obtaining written authorization from the employee the District shall make the deductions to recoup the overpayments from the employee's regular paycheck. Said deductions shall be in compliance with State law and continue for as many consecutive pay periods as necessary until full payment is recovered.

When the deductions are necessary to recoup underpayments for insurance premiums or recover health and welfare or pension contributions, the District shall not commence recovery by payroll deductions until written notification has been given to the employee at least ten (10) working days in advance, which includes all the details of the underpayment. Simultaneously, the Union shall be notified that the employee received an underpayment notice from the District. The employee shall have the opportunity to respond within ten (10) working days from receipt of notice before any deduction is made. If an employee disputes the underpayment, the District will meet with that employee and the employee's chosen representative to resolve the dispute. The District shall recover the underpayment by deducting from the employee's regular paycheck either the full amount of the underpayment or ten (10) percent of the employee's gross salary,

whichever is less, and continue said deductions for as many consecutive pay periods as necessary until full payment is recovered. The District shall not need or seek additional written authorization to recoup insurance premiums and/or health and welfare or pension contributions from the employee.

Article 7. DAYS AND HOURS OF WORK

7.1. Workday. The standard workday shall consist of eight (8) consecutive hours of work (exclusive of any unpaid meal period) within a 24-hour period beginning at 12:01 a.m.

7.2. Workweek. The standard workweek shall consist of five (5) consecutive workdays within a seven (7) day period beginning at 12:01 a.m. Monday and ending at 12 midnight Sunday.

7.3. Flexible Schedules. Notwithstanding Sections 1 and 2, upon request of an individual employee or a group of employees from a work unit, the District shall investigate and may change the beginning and ending workday hours of that employee or the workdays and workweeks of employees within any particular work unit provided the work or the operation of the unit concerned shall not be unduly impaired by such adjustment. Such adjustment shall not affect the total length of the workweek.

7.3.1. All requests for flexible schedules shall all be examined and considered for implementation by the employee's supervisor, Division Manager, and Department Manager. In the event a request for flexible workweek is denied, the employee or group of employees shall be provided specific reasons for the denial within a reasonable time frame but not more than 15 workdays.

7.3.2. If an employee or group of employees is denied a compressed workweek schedule or is removed from the compressed workweek schedule, the appeals process in the Compressed Workweek Guidelines shall be followed and the decision shall be based on criteria established in the Compressed Workweek Guidelines.

7.4. Work Schedules. In operations where work schedules are changed, changes in schedule shall be posted one (1) week in advance of the effective date of the change.

7.5. Relief Shift Operators. Relief shift operators shall be notified forty-eight (48) hours in advance of changes in their work schedules. The advance notice specified above shall not apply in cases of illness or other emergencies.

7.6. Continuous Operations. Continuous Operations are those that are running continuously (24/7) and require around-the-clock staffing in which there is regularly scheduled employment for 24 hours per day, seven (7) days per week. It is understood that the Laboratory Services Division of the Wastewater Department is not a continuous operation.

7.6.1. Employees in continuous operations who are required to be at workstations for eight (8) consecutive hours shall eat during working hours.

7.6.2. The District shall not schedule work so as to require employees in continuous operations to work three (3) shifts within a forty (40) hour period. In continuous operations, employees who are called back to work an eight (8) hour shift after being off their previous shift eight (8) or

fewer hours shall be paid one (1) hour of premium pay at the overtime rate in addition to their pay for such time worked.

7.7. **Assignment of Shifts.** Classification Seniority (as defined in Article 5), shall be an important consideration in the assignment of shifts.

7.8. **Changes in Days and Hours of Work.**

7.8.1. It is understood that, all other provisions of this Article notwithstanding, the hours of work, workday and workweek practices in effect on the effective day of this Contract may be continued at the option of the District; provided, however, changes in such practices shall be subject to prior consultation with the Union. However, before implementing any such program which deviates from the normal eight (8) hours per day, five (5) days per week schedule, the District must meet and confer with the Union.

7.8.2. Notwithstanding the above, the District shall be permitted to schedule shifts one hour earlier or later than present, provided that such schedule changes shall not occur more than twice in a calendar year. Additional shift schedule changes may be permitted upon mutual agreement of the supervisor and the employee. A minimum of two (2) days prior notice shall be provided to the employee whose shift is changed. Employees who believe a shift change will create a hardship may appeal the decision to change their shift to their Department Manager. If such shift creates work in two (2) different calendar days, all time shall be treated as if it was worked in the calendar day containing the majority of the workday. For example, if the start of the workday is changed from 12:00 midnight to 11:00 p.m., the employee shall be paid as if all work commenced at 12:00 midnight.

7.8.3. An employee may be subject to removal from an alternative workweek schedule in the event that District Management has determined the work or operation of the unit is unduly impaired by such a schedule. The considerations for withdrawal include: a lack of availability of adequate coverage and supervision, an overall increase in costs to the District that may be incurred, a noted decrease in the work unit's and employees' effectiveness, and a demonstrated decrease in the response to customer needs.

7.9. **Rest Periods.** Employee work schedules shall provide for fifteen (15) minute rest periods during each one half (1/2) of the workday. Rest periods shall be scheduled so as not to interfere with efficient operations of the District. Rest periods shall not be scheduled in the first hour or the last hour of any one-half (1/2) of the workday.

7.10. **Meal Periods.** Employees shall be granted a thirty (30) minute lunch period, without pay, except as otherwise provided, scheduled at approximately the middle of the workday. Employees shall not be scheduled to work longer than one-half (1/2) of the regularly scheduled workday plus one (1) hour without a meal period.

7.11. **Cleanup Time.** Where the nature of the work is such that cleanup is required, work schedules shall be arranged to allow reasonable time for that purpose prior to the end of the workday. The District shall provide facilities for cleanup.

7.12. **Fatigue Time.**

7.12.1. Employees shall receive full pay for fatigue time if they have worked overtime and the

overtime has been completed with less than eight (8) hours between the completion of the overtime and the start of the employee's next regularly scheduled shift. Fatigue time shall be calculated as follows:

- a. Subtract the ending time of overtime from the beginning time of the next regular shift.
- b. Subtract that figure from the number of hours in the next regular shift (e.g. nine [9] or eight [8] for 9/80 work schedule) .
- c. The difference is the fatigue time due to the employee.

Example. OT is worked from 1:00 a.m. until 4:00 a.m. Regular shift begins at 8:00 a.m. The difference is 4 hours between the end of OT and the beginning of the next regular shift. (Eight (8) hours- four (4) hours = four (4) hours of fatigue time due to the employee.)

7.12.2. Employees shall not receive fatigue time if: (A) the overtime is completed more than (8) eight hours prior to the start of their next regularly scheduled shift, or (B) employees are called out to perform overtime work within four (4) hours of the start of their next regularly scheduled shift, or (C) they are assigned to continuous operations.

7.12.3 Fatigue time must be taken during the first part of the next regularly scheduled workday. An employee may request to take off the remainder of their regular work shift as unpaid time, vacation or compensatory time, provided that the request is approved by their immediate supervisor. When the fatigue time earned is half or more of the scheduled workday, such requests shall not be unreasonably denied.

Article 8. OVERTIME

8.1. Preamble. At the present time the District has no plans and does not contemplate an expansion in the use of overtime. The District shall make all reasonable efforts to avoid overtime including reviews of staffing to minimize its adverse effect on individuals and to control costs to the District, but occasionally overtime may be necessary to avoid greater costs as well as to meet legal obligations and Board commitments. The District shall continue to assess all overtime use to ensure that overtime is necessary in order to maintain current District operations, services, and to ensure completion of projects on schedule. Whenever overtime is necessary, the District shall give employees notice as soon as is reasonable and practical to do so.

The District agrees to provide the Union with reports on overtime utilization on a semi-annual basis. The District will provide the Union with specific overtime utilization reports upon reasonable request.

If requested, the parties agree to meet on an annual basis to discuss potential solutions to any concerns resulting from overtime, standby and call back usage.

8.2. Rate of Pay. One and one-half (1-1/2) times the employee's regular hourly rate of pay shall be paid for all work performed in excess of eight (8) hours per workday or forty (40) hours per workweek. Time worked at the overtime rate due to Call Time overlap of the employee's regular workday shall be counted in determining the eight (8) hours per workday or forty (40) hours per workweek required to establish a base for overtime. There shall be no pyramiding of overtime pay.

8.2.1. **Compressed Work Week Holiday Work.** When a holiday(s) falls on the employee's nine-hour day (or other regularly scheduled workday that is longer than 8 hours), the employee may be allowed to make up the shortfall of hour(s) within the same workweek as the holiday(s) and the additional hour(s) will be paid at the employee's regular rate of pay. If the employee fails to account for the additional hour(s), the hour(s) will be charged to vacation on the employee's timesheet. If the employee does not have any available vacation accrual the time will be unpaid.

Article 8 of the MOU must be read in conjunction with the Compressed Workweek Guidelines with respect to holidays only.

8.3. Limitation and Distribution of Overtime. No employee shall be required to work more than sixteen (16) hours in any twenty-four (24) hour period. If an employee works 32 hours in a pay period on emergency overtime work, that employee shall not be subject to non-emergency necessary overtime work in the same pay period unless the employee volunteers for such work. An employee shall be obligated to work non-emergency necessary overtime work to the extent that the employee has not worked 32 hours in a pay period as emergency overtime work, i.e., emergency overtime hours worked shall reduce the hours limitation for non-emergency necessary overtime in the same pay period.

8.4. Emergency Overtime. All employees are required to work in emergency situations. An emergency includes, but is not limited to, situations which involve disruption of service to customers and actual or threatened danger of injury to person or damage to property, or threat to public health and safety.

8.5. Non-Emergency Necessary Overtime.

8.5.1. The District shall request volunteers for all available necessary overtime. Overtime work shall be distributed as nearly equally as possible among qualified employees working within the same job classification, within the same work unit.

8.5.2. No volunteer may work more than 16 consecutive hours without approval of the Division Manager.

8.5.3. No employee shall be assigned to work more than 16 hours in any 24-hour period or to work more than 32 hours per pay period of non-emergency necessary overtime work. The parties emphasize the distribution commitment contained in Article 8.5.1 above to minimize the impact of assigned overtime on an individual employee.

8.5.4. In the event an insufficient number of employees volunteer for necessary overtime, the District shall assign employees to fill vacancies (on a rotating basis) starting by reverse District Seniority in the affected unit and classification. Whenever an employee is on standby, the District shall not assign other overtime work to that employee unless the entire rotation of the employee's classification has been exhausted and overtime is still necessary. However, an employee shall be permitted to volunteer for overtime during a week the employee is also on standby, but will not be eligible to be awarded overtime if the overtime commitment causes the employee to be unavailable for their standby assignment.

8.5.5. With District approval, employees may trade or relinquish to another employee all overtime assignments. Unless or until a trade or relinquishment is approved, all overtime assignments are part of the originally assigned employee's job responsibilities. If a trade is not approved, a reason for the denial will be provided via email.

8.5.6. Employees are expected to comply with overtime assignments and failure to do so shall subject an employee to appropriate discipline. However, an employee who, because of illness or other compelling emergency, is unable to work assigned or scheduled overtime, and who notifies the District a minimum of one (1) or more hours before an employee is scheduled to report to work, shall not be subjected to disciplinary action for failure to work.

8.6. Voluntary Overtime List. Work units having overtime work shall establish lists of employees who are available to work overtime on a voluntary basis. The initial order of call when the lists are established shall be by District Seniority; thereafter, employees shall be called on a rotating basis subject to the operating procedure of the work unit. The operating procedure for such lists shall be developed by each work unit and shall take into account the nature of the overtime work available, skills required to do the overtime work, and the operational requirements of the work unit.

8.7. Compensatory Time.

8.7.1. All employees represented by Local 2019 shall have the option to receive a maximum of 75 hours of compensatory time in lieu of paid overtime in a payroll year. Payroll year is defined as the period beginning with the first pay period from which pay is received in January and ending with the last pay period for which pay is received in December. Compensatory time shall be provided at 1.5 hours for each hour of overtime worked. All overtime worked after an employee has earned 75 hours of compensatory time in a payroll year shall be paid at the appropriate overtime rate. All employees who have earned compensatory time at the end of the last pay period, for which pay is received in December, shall have that compensatory time carried over as compensatory time into the next (following) payroll year. All such compensatory time must be used by the end of the next payroll year or it will be paid out to the employee at the applicable FLSA rate. Any compensatory time used in the next (following) payroll year will first be deducted from any compensatory time that was carried over from the last payroll year, if any. Compensatory time accrued after the last full pay period of the calendar year, but prior to the end of the year, shall be credited and included in the accrual for the following payroll year.

8.7.2. Use of earned compensatory time off shall be scheduled and approved by the District so as not to disrupt the operation of the work unit or the District.

Article 9. STANDBY PAY

15.4. Choice of Vacation.

15.4.1. Whenever possible, vacations shall be scheduled for the time requested by the employee. Supervisors shall review these requests and resolve any conflict in favor of the employee with the most District Seniority; provided, however, if an employee requests that vacation be taken in two (2) or more non-continuous vacation periods, such employee may exercise seniority only for the first period of vacation.

The number of vacation hours an employee may elect to sell is limited to the number of vacation hours the employee will accrue in the following year, or 200 hours, whichever is less. The employee, at the time of election, may choose payments of vacation hours in either the first pay period in June or the first pay period in October (one date or the other, not both) in the calendar year following their submission of irrevocable election to sell. If the number of vacation hours elected to be sold exceeds the number of vacation hours actually accrued at the time of payment, vacation hours sold will be limited to the number of hours accrued and available at the time of payment. Payments to employees resulting from such sell back of vacation shall not be considered “compensation” as defined in the Retirement Ordinance for the purpose of calculating terminal compensation.

15.6.1 As part of the District’s open enrollment packet each year, the District will provide all employees with a copy of the Irrevocable Vacation Sell-Back Election Form and a reminder of the last business day before December 31st deadline for submission of the Form. These evaluations shall be conducted on District time.

16.1.7. Retirement Credit. Consistent with the terms and conditions of the Retirement Ordinance, when an employee's sick leave accumulation reaches the maximum of 1040 hours, any hours which would have otherwise accrued thereafter shall be accumulated without limit. The HIB Adjustment Factor is calculated using the annual percent change in the monthly premiums for the District KSA Low couple Medicare Plan as named above (Kaiser Index), adjusted by the Carryforward Balance which could be a positive or negative number. The Carryforward Balance is created by the change in the Kaiser Index that is not fully applied to the HIB Adjustment Factor in each year.

Each year, the Kaiser Index will be calculated, then the Carryforward Balance will be applied to the Kaiser Index. If the result of the Kaiser Index plus Carryforward Balance is greater than 3 percent, the HIB Annual Adjustment will be 3 percent; if the result is less than 0 percent, then the HIB Annual Adjustment will be 0 percent. Any Carryforward Balance remaining after applying it to the HIB Annual Adjustment, will continue to carry forward for future adjustments.

If any enhanced deferred compensation benefit is offered to any other bargaining units, L2019 shall receive a benefit equal to the highest negotiated benefit.

19.3.5. Administration Fees. The District will pay up to a maximum of \$150,000 annually for District-wide administration of the 401(a)/401(k)/457 deferred compensation programs. If administrative fees exceed \$150,000, the participating employees in the program will assume the additional costs.

19.3.6. Deferred Compensation Committee Participation. Local 2019 shall be provided formal and equitable participation in the 401(a)/401(k)/457 deferred compensation committee as determined by the committee.

19.3.7. Exclusions. Employees who participate in any District deferred compensation plan may not defer sick leave buyback payments to their deferred compensation accounts.

Article 20. EXAMINATIONS AND TRAINING

20.1. Recording of Oral Examinations. Oral examinations shall be digitally recorded. All digital recordings shall be the property of and remain in the custody of the District; provided, however, the Union shall have reasonable access thereto. Recordings shall be retained by the District for ninety (90) days after establishment of the employment list resulting from the examinations or, if there is a protest, until the protest is resolved.

20.2. Inspection of Examinations. Consistent with District operating requirements and with the provisions of Civil Service Rules, employees participating in District Civil Service examinations shall be permitted reasonable time during working hours, without loss of time or pay, to inspect their examination papers. Such review may include Scantron answer sheets and test products generated by the employee during the exam process such as their own writing project. Review shall not include keyed test materials, rating criteria, scoring information, or any standardized exam material which may be re-used in future selection procedures.

20.3. Training. The District shall attempt to provide and distribute training opportunities in a fair and equitable manner for all employees within a work unit or classification.

Article 21. CAREER DEVELOPMENT

21.1. Internal Promotions. The purpose of this section is to enhance the promotional opportunities for District employees.

21.1.1. Regular employees who have completed probation in at least one classification may submit an application for transfer to a class at any time and subsequently be tested when the examination is conducted.

21.1.2. Examinations will typically be open to both public and internal competition, however, an examination shall be administered on a closed promotional basis when the Director of Human Resources determines that the number, diversity and qualifications of potential employee applicants are sufficient to generate a minimum of five (5) candidates per vacancy, to fill the

current and anticipated openings, during the life of the list.

21.1.3. When the above criteria are not met, internal and external recruitments shall be conducted simultaneously. Both an open eligible list and an internal eligible list shall be established from those candidates who are successful in the examination process. All employees with Civil Service status who pass the examination shall be placed on the Internal Eligible list in rank order by final score. All other successful candidates shall be placed on the Open Eligible List. A successful candidate will be placed on only one list. The top five ranks on the internal list and top three ranks on the external list shall be certified to the appointing authority. For each additional vacancy for which the certification is requested simultaneously, the Director of Human Resources shall certify the names(s) from one additional rank on the open and internal eligible lists. Upon request of the appointing authority, the remainder of the internal eligible list will be certified in rank order by overall score. The hiring supervisor may interview additional internal candidates in the order certified providing no ranks are skipped.

Hiring supervisors must interview all candidates in the ranks certified from the internal eligible list. If they choose to interview from the open eligible list, they must interview all candidates in the ranks certified.

21.1.4. A demotion is movement to a classification with a lower top salary than the employee's current regular position. Employees may apply for voluntary demotion by submitting an application to Human Resources. They shall be placed on the Demotion List if they meet the minimum qualifications for the classification. The voluntary Demotion List shall be certified to the hiring supervisor(s) along with other employment lists. An employee's name shall remain on the voluntary Demotion List for one year. The District may also demote an employee on an involuntary basis consistent with other District rules and practices.

21.1.5. Employees may apply to administratively transfer without exam between classifications which have the same salary levels and identical or very similar minimum qualifications (e.g., Senior Administrative Clerk and Administrative Secretary II), if they have regular status in one class.

21.2. Reassignment.

21.2.1. Introduction.

21.2.1.1. The District shall encourage the use of the Reassignment Program whenever possible. The General Manager shall send a memo to all Managers and Supervisors advising them that they must seriously consider employees who have placed their names on Reassignment Lists.

21.2.2. Eligibility For Reassignment.

21.2.2.1. Employees may be added to a Reassignment List anytime during the year through submission of a short form application.

21.2.2.2. Each June, employees will be reminded/informed of the reassignment process by e-mail, District newsletter, and Bulletin Board postings.

21.2.2.3. Each June (end), a renewal packet will be sent to employees on reassignment lists.

An employee may renew eligibility by returning the application form. When the application form is submitted, the employee shall be placed on the reassignment list for the current fiscal year.

21.2.2.4. Each July, employees' names will be purged from reassignment list unless the employee renewed eligibility in June.

21.2.2.5. A special reassignment availability form will be developed to allow employees to specifically identify positions/assignments for which they would like to be considered.

21.2.2.6. Names shall be placed on the reassignment list in the order received.

21.2.2.7. Employees who waive interviews will not be removed from the reassignment list.

21.2.2.8. An employee shall be removed from the reassignment list upon placement through this process in a new position and shall be ineligible to sign up again for one year.

21.2.2.9. Employees who have been subject to more than one written warning and/or who have been suspended within the last year are not eligible for reassignment.

21.2.2.10. Probationary employees are ineligible.

21.2.2.11. Employees who apply for reassignment and are selected and decline shall be ineligible for reassignment for one year from that date.

21.2.3. Certification.

21.2.3.1. Department submits PE-66, Personnel Request.

21.2.3.2. The hiring supervisor may also interview as many applicants on the reassignment list as the supervisor chooses. The reassignment list shall be included in the certification even if only one name is on the list.

21.2.3.3. All names on the reassignment list will be certified along with all names on the transfer, demotion and reinstatement lists and the top three (3) ranks on the eligible list.

21.2.3.4. Names shall not be added to any list once a certification has been made.

21.2.4. Consideration/Interviews.

21.2.4.1. Information on underutilization in the job group and occupational category is to be considered by the hiring supervisor in making any hiring decision.

21.2.4.2. The supervisor shall consider the application materials of all applicants certified.

21.2.4.3. The appointment may be made from any of the lists certified.

21.2.5. PE-80, Notice of Personnel Action and X-45, District Employment.

21.2.5.1. These recommendations and comments are reviewed for approval as usual.

21.2.6. Reports. The District shall provide the Union with annual activity reports on the usage of reassignment lists for Local 2019 represented classifications. The District shall review the results of the reassignment program with the Union each year.

21.2.7. Duration of Eligible Lists.

21.2.7.1. The duration of employment eligible lists shall be one (1) year unless extended, at the District's discretion, for up to one (1) additional year.

21.2.7.2. The District shall review list extension results with Union representatives on an annual basis beginning one year from the date of this Contract to determine impact on promotional opportunities for District employees. Should the number or percentage of promotions decrease in 50% or more of the classifications, the District shall agree to limit the extension of eligible lists to an additional six (6) months except for entry-level examination processes where lists may be extended for one (1) additional year.

21.3. Classification Study Requests. Employees are encouraged to first discuss any concerns regarding the classification of their position with their immediate supervisor. If review of the issues with the supervisor and appropriate department management staff does not resolve the classification concerns, an employee may submit a written request for a study of their position. The District will acknowledge receipt of request for a classification study request within 15 workdays of receiving the request, with a copy to the union. The acknowledgement will include an initial questionnaire for the employee to complete and return to the District. In conducting this initial review of the questionnaire, staff may discuss the request with the employee, their supervisor, and/or other management personnel in the department. The District shall then determine whether the issue warrants further study of the employee's position within 60 days and send the determination in writing to both the employee and the Union. If the written request is found to be one in which further study is appropriate, the District will provide a projected timeframe for continuation of the study. The District shall provide the Union with quarterly updates on the status of all open desk audits during the Labor Management Committee meetings. In the event the study determines that the majority of employee's work was being performed at the level of a higher job classification, the following two outcomes are possible: 1) Compensation will be awarded to the employee and the higher-level duties removed, or 2) Compensation will be awarded to the employee and the District will authorize to flex and fill the position in a higher job classification (if there are no vacancies the employee will go through a budget limited Civil Service process for promotion, and if there are vacancies in the job classification, the employee must participate in a regular Civil Service process) Compensation awards to the employee would be retroactive to the lesser of twelve (12) months or the date the employee submitted the formal request. If a written request is found at any time to not be an issue of classification, the District will issue a written response to the employee, with a copy to the union, and if requested, shall meet with the Union and the affected employee within 30 workdays.

Article 22. PERSONNEL FILES

22.1. Review of Employee Personnel File. Employees shall have the right to review their personnel files pursuant to applicable state law. No information shall be placed in an employee's personnel file without the employee receiving a copy of the information. The employee shall have the right to respond to any such material. Medical information shall be forwarded to an

employee's medical doctor upon written request.

22.2. Confidentiality.

22.2.1. Employee personnel files shall be held in strict confidence by the District and shall be subject to inspection only by officials of the District acting on official District business, the employee, or Union officials, in accordance with the employee's written instructions (which shall be filed in the personnel file), or as otherwise required by law (such as by subpoena).

22.2.2. In the event that a business inquirer, creditor, or other person contacts any District supervisor to obtain job reference information on any former or current District employee, the information given out shall be limited to verification of employment, length of employment, and verification of salary range if the person inquiring first states a salary in the correct range to the District.

22.3. Disciplinary Documents. All disciplinary documents in an employee's personnel file (with the exception of suspension letters), will be removed from the file three (3) years after date of issuance at the request of the affected employee. Letters of suspension shall be removed after three (3) years, at the request of the employee, if no additional written disciplinary action (reprimand or suspension) has been imposed within the three (3) year period following the initial suspension. There must be a three (3) year period without any documented disciplinary action before a suspension letter shall be removed from the employee's personnel file.

22.4. Counseling Memos. Counseling memos shall be removed from a supervisor's file after one (1) year unless the employee has not corrected the work performance or work behavior that led to the counseling memo and has received another counseling memo or been disciplined. Supervisors may specify time frames shorter than one (1) year for removal of counseling letters from the supervisory file.

Article 23. GRIEVANCE PROCEDURE

23.1. Intent. The District and the Union recognize the necessity for speedy and equitable adjustment of all complaints as close as possible to the point of origin. Whenever possible, grievances should be settled with supervisors in the department/division where the grievance originates. It is the intention of the District and the Union to eliminate unnecessary grievances, and to promptly and equitably adjust all those grievances which are meritorious.

23.2. Definitions.

23.2.1. Grievance.

23.2.1.1. A grievance is any dispute between the District and an employee or group of employees concerning the interpretation or application of this Contract; or the interpretation or application of rules or regulations governing personnel practices or working conditions; or the interpretation, application, or the practical consequences of a District Rights decision or wages, hours and other terms and conditions of employment. The Union shall be allowed to file a grievance on behalf of a current employee and on behalf of an identifiable group of current employees.

23.2.1.2. If the grievance involves employees in only one division, the grievance shall be

filed with the Division Manager at Step 1. If the grievance involves employees in more than one (1) division, the grievance shall be filed with the Manager of Employee Relations at Step 1.

23.2.1.3. A dispute over the terms of this Contract or over the terms of rules or regulations governing personnel practices or working conditions, or over the terms of a District Rights decision on wages, hours and other terms and conditions of employment shall not constitute a grievance.

23.2.2. Immediate Supervisor. The person from whom an employee receives work assignments, such as a Civil Drafting Supervisor, Supervising Ranger/Naturalist, Customer Services Supervisor, Supervising Chemist, Senior Engineer, or Senior Accountant.

23.2.3. Work Unit Supervisor. The highest supervisor within the employee's work unit, such as the Management Services Administrator, Engineering Manager, Supervisor of Purchasing, Supervisor of Construction Inspection, or Surveying Supervisor.

23.2.4. Limited Civil Service Examination Grievance Procedure. A separate grievance procedure is included in Section 23.4. of this Article to cover grievances arising out of any civil service examination challenge up to and including the establishment of a register.

23.3. Procedural Steps.

23.3.1. Step 1. Informal Discussion/Filing of Grievance Statement.

23.3.1.1. The employee who has a grievance other than discrimination [as described in 23.3.1.2 below] may, with or without the assistance of a representative, discuss the matter informally with the employee's immediate supervisor. If the grievance is not settled through informal discussion and the employee desires further review, a completed and written Form PE-105, "Statement of Grievance", must be submitted to the employee's immediate supervisor within twelve (12) workdays from the initial date the employee knew, or reasonably could know, of the act or omission causing the grievance. If the grievance is challenging a disciplinary action, the grievance shall be filed with the supervisor of the person who rendered the disciplinary action within twelve (12) workdays.

23.3.1.1.1. The PE-105 shall contain the following information: (1) a statement of the grievance and all relevant facts; (2) specific provision(s) of the Contract allegedly violated; and (3) the remedy sought.

23.3.1.1.2. The immediate supervisor shall promptly discuss the matter with the employee, the work unit supervisor, and any others who should be directly involved and attempt to arrive at a solution. The supervisor shall provide a written answer to the employee that sets forth the supervisor's rationale and decision within ten (10) workdays of receipt by the supervisor of the written Form PE-105. The decision of the immediate supervisor shall be applicable only to the grievance being reviewed and considered.

23.3.1.2. Alleged Unlawful Discrimination.

23.3.1.2.1. If an employee is seeking redress from an action, decision, policy, or condition that the employee believes discriminated against the employee to the extent the applicable law prohibits such discrimination by reason of race, color, religious creed, sex, gender, gender

identity, gender expression, transgender, family or medical leave status, pregnancy, pregnancy disability leave status, and breastfeeding, marital or domestic partnership status (registered or by affidavit), national origin, ancestry, age, physical or mental disability (including AIDS and HIV), medical condition (cancer and genetic characteristics), genetic information, sexual orientation, military and veterans status, or any other status protected by federal, state and local laws, the employee shall first discuss the complaint with the employee's immediate supervisor; provided that an employee may alternatively discuss their complaint informally with the Diversity and Inclusion Officer.

If an employee is seeking redress from a District action, decision, policy, or condition that the employee believes to be a result of union membership, non-membership, or any lawful union activity, then the grievance shall be filed with the Manager of Employee Relations.

23.3.1.2.2. If the grievance is not settled through informal discussion and the employee desires further review, a completed and written Equal Employment Opportunity (EEO) Discrimination/Harassment Complaint Form and the grievance should be submitted to the Diversity and Inclusion Officer within thirty (30) workdays from the initial date the employee knew or could reasonably have known of the act or omission causing the complaint. The complaint shall be processed in accordance with the EEO Discrimination/ Harassment Complaint Procedure 227. The Diversity and Inclusion Officer is the final District review level of EEO complaints. If the complaint as described in the EEO Discrimination/Harassment Complaint Form remains unresolved, the grievant may submit the grievance directly to binding arbitration as described in Article 23.3.3.2. below.

23.3.2. Step 2. Board of Adjustment.

23.3.2.1. If the employee is not satisfied with the Step 1 written response from the immediate supervisor, the employee must submit the completed Form PE-105, "Statement of Grievance", to the Manager of Employee Relations with the names of the Union's Board of Adjustment representatives within ten (10) workdays of the Step 1 written response.

23.3.2.2. A Board of Adjustment meeting shall be held within ten (10) workdays of the receipt of the Form PE-105, "Statement of Grievance" by the Manager of Employee Relations. In all grievances except those involving suspension and/or discharge, the Board of Adjustment shall be comprised of the Division Manager and the Manager of Employee Relations or designee and not more than two representatives from the bargaining unit. The Manager of Employee Relations or designee shall chair the Board of Adjustment. If the Division Manager made the decision being grieved, another Division Manager shall be appointed to serve on the Board. In all grievances involving suspension without pay or discharge, the Department Manager will replace the Division Manager. No relatives of the grievant or members of the grievant's household may sit on a Board of Adjustment for either of the parties.

Individuals named in a grievance shall not be allowed to sit on the Board of Adjustment hearing for that grievance.

23.3.2.3. The purpose of the Board of Adjustment meeting shall be (1) to review the facts of the grievance and to conduct a further investigation of the situation if appropriate, and (2) to explore alternative methods of resolving the grievance. Unless the parties mutually agree otherwise, any settlement agreement reached at the Step 2 level shall be reduced to writing within five (5) workdays. If no agreement is reached, Management's decision shall be reduced

to writing within five (5) workdays.

23.3.3. Step 3. Binding Arbitration.

23.3.3.1. If the grievance as described in the PE-105 in Step 1 remains unresolved, the grievant may submit the grievance to binding arbitration in accordance with the procedures set forth in Step 3.

23.3.3.2. A request for arbitration shall be in writing and addressed to the Manager of Employee Relations and must be postmarked within forty-five (45) workdays after the employee's receipt of the decision in Step 2. The request shall clearly state the issue to be arbitrated. The District, or its representative, and the employee, or the employee's representative, shall jointly select an impartial arbitrator. If they are unable to agree upon an arbitrator, the District shall request a list of arbitrators from either the American Arbitration Association, the California State Conciliation Service or Federal Mediation and Conciliation Service. The arbitrator shall be selected as mutually agreed upon, or in accordance with applicable rules of the agency selected within twenty (20) workdays of receipt of the request for arbitration from the grievant/union. The arbitrator will be requested to hold the hearing within thirty (30) workdays of the request to arbitrate and to render a decision within sixty (60) workdays of the receipt of briefs.

23.3.3.3. The arbitrator shall limit the findings and recommendations strictly to the interpretation, application and enforcement of the provisions of this Contract, or the interpretation or application of rules or regulations governing personnel practices or working conditions. In cases of suspension or discharge, the arbitrator shall limit the findings and recommendations strictly to the issue of cause.

23.3.3.3.1. The arbitrator's hearing shall be formal and conducted in accordance with usual administrative practices, including recording of proceedings by certified reporter and testimony given under oath. If a transcript of the proceedings is ordered by either party, each party shall pay for its own copies.

23.3.3.3.2. The arbitrator shall in no case make any recommendations:

1. contrary to, or inconsistent with or modifying or varying in any way, the terms of the Contract, or the terms of rules or regulations governing personnel practices or working conditions;
2. inconsistent with the District's duties, responsibilities or obligations particularly with regard to public health and safety and including the Municipal Utility District Act or any other State or Federal law to which the District is subject;
3. concerning the grievance of any employee who has elected to process a grievance through any other appeal procedure established by the District;
4. ordering any wage increase or decrease;
5. ordering the payment of back wages for more than six (6) months prior to the date a written grievance is filed;
6. reversing, overruling, or otherwise modifying any District decision or omission except

after finding (a) the District decision violated some express provision of the Contract or rules and regulations governing personnel practices or working conditions; or (b) the District decision or omission was under the circumstances arbitrary, capricious or discriminatory.

23.3.3.3.3. Each party shall make arrangements for and pay the expenses of witnesses who are called by them. The District shall have no obligation to compensate employees, with the exception of the Chief Steward and the aggrieved in other than suspension or discharge cases, for time lost during arbitration proceedings, except when any employee is requested by the District to participate in such arbitration proceedings.

23.3.3.3.4. The expenses of the arbitrator and certified court reporter (if used) shall be shared equally by the District and the Union or employee, as appropriate.

23.4. Procedural Steps for Limited Civil Service Examination Grievance Procedure.

23.4.1. Step 1. The Union may file a Limited Civil Service Examination Grievance on behalf of a current employee or group of current employees by submitting a PE-105 to the Director of Human Resources within the following time limits:

23.4.1.1. Disqualification from examination - Within five (5) working days of notice of disqualification and prior to the administration of the examination.

23.4.1.2. Examination results - Within five (5) working days of notice of examination results.

23.4.1.3. Other grievances pertaining to recruitment, examination, or selection as stated in the Civil Service Rules - Within five (5) working days from the initial date the Union or the employee knew (whichever is earlier), or reasonably could know, of the act or omission causing the grievance.

23.4.1.3.1. Director of Human Resources shall provide a written answer to the union setting forth the Director's decision and rationale within five (5) days of receipt of the PE-105, "Statement of Grievance".

23.4.2. Step 2. If the union desires to appeal the Director of Human Resources' decision, it shall notify the Director of Human Resources in writing within five (5) working days from receipt of the Director of Human Resources' decision, that it desires to submit the grievance as set forth in the PE-105, "Statement of Grievance", to expedited arbitration. The expedited arbitration process for Limited Civil Service Examination Grievances shall be as described below and shall be the exclusive means for the resolution of such disputes:

23.4.2.1. Selection of Arbitrator and Scheduling of Hearing. Within five (5) working days of the Union's notice to the Director of Human Resources, an impartial arbitrator shall be jointly selected by the District and Union. If the parties cannot agree on an arbitrator, then the District will request a list of seven (7) arbitrators from the California State Mediation and Conciliation Service and the parties shall select an arbitrator by mutual agreement or alternately striking names.

23.4.2.2. The hearing shall be held within 10 working days of the arbitrator's selection. If

the arbitrator has no available date within 10 working days, another arbitrator shall be selected until an arbitrator can be found who is available within the 10 working days time limit.

23.4.2.3. Pre-Hearing Submission and Conduct of the Hearing.

23.4.2.3.1. The District and the Union shall each submit three (3) calendar days prior to the hearing a pre-hearing statement to the arbitrator, with a copy to the other party, outlining its position and appending whatever exhibits it wishes to present.

23.4.2.3.2. Unless the parties mutually agree to the contrary, each party shall have up to two (2) hours to present its case but may reserve up to one-half (1/2) hour of such time to respond to the other party's presentation. The presentation may be made by way of statement by the party's representative, presentation of witnesses or both, but the hearing shall be informal, and rules of evidence shall not apply. No transcript or recording shall be kept.

23.4.2.4. Decision. The arbitrator shall issue a written award within three (3) working days after the close of the hearing. During this period, the arbitrator may convene the parties for up to an additional two hours if the arbitrator wishes to raise additional questions. The award shall be final and binding.

23.4.2.5. Costs. The fee and expenses of the arbitrator shall be shared equally by the parties.

23.5. Election of Remedies.

23.5.1. It is the intent of the parties that this grievance procedure shall be the exclusive remedy for the resolution of grievances as defined in Article 23.3.

23.5.2. It is specifically and expressly understood and agreed that taking a grievance appeal to arbitration constitutes an election of remedies and a waiver of any and all rights by the appealing employee, the Union, and all persons it represents to litigate or otherwise contest the appealed subject matter through the District Complaint Procedure or the District Civil Service Procedure. Litigation or any other contest of the subject matter in any court or other available forum shall constitute an election of remedies and a waiver of the right to utilize this grievance procedure or to arbitrate the matter. This paragraph is not intended to bar an employee from pursuing any cause of action which has been established by statute.

23.6. Waiver of Steps and Time Limits. Except when otherwise provided, all steps of the grievance procedure shall be utilized unless a waiver of one or more steps is mutually agreed upon in writing. If the employee or the Union fails to process a grievance within specified time limits, the grievance shall be deemed concluded on the basis of the last decision reached, unless an extension of time limits is mutually agreed upon by the parties in writing. If the District fails to respond within the specified time limits, the grievant may appeal the next step, within the specified time limits.

23.7. Suspension of the Grievance Procedure. If this Contract is violated by the occurrence of a strike, work stoppage, other interruption or impending disruption of work, no grievance shall be processed while such violation continues. The grievance procedure outlined herein shall not be applicable to grievances arising in the period between the termination of this Contract and the effective date of its successor. However, if the parties, despite the termination of the Contract,

are continuing to meet and confer in good faith and an impasse in the negotiations has not been reached, the grievance procedure shall continue to be applicable.

Article 24. DISCIPLINE

24.1. Procedure. A regular employee may be disciplined for cause by a written warning, suspension, demotion or discharge. Such disciplinary action shall be subject to appeal through the grievance procedure described in Article 23 of this Contract.

24.1.1. When the District is considering taking major disciplinary action (suspension of 5 or more workdays, demotion or discharge), it shall provide copies of all written and other relevant materials used by the District, to the employee and the employee's representative before the scheduled pre-disciplinary meeting. The District is not precluded from considering information obtained by the District after the pre-disciplinary meeting in response to the statements made by an employee or the employee's representative during the disciplinary meeting and shall provide copies of any additional information.

24.1.2. Before imposing the suspension, a supervisor shall advise the employee that the subject of suspension will be discussed and that the employee may be accompanied by a representative. Upon such suspension, the supervisor shall notify the employee, in writing, of the reason for and duration of the suspension. An employee ordered to leave work for disciplinary reasons shall, before leaving the District premises, have the right to consult with a Union steward or officer, unless the employee presents a danger to any persons, or property. In such a case, the supervisor shall promptly notify the Union steward or officer of the action taken, the reasons for, and duration of the suspension.

24.1.3. Whenever the employee is not present at the workplace when a suspension is deemed necessary, the employee and the Union shall be notified by telephone or mail within one (1) workday following the effective date of suspension. Such notice shall state the reasons for and duration of the suspension.

24.1.4. In all cases where the District may conclude that an employee's conduct may justify discharge, such employee shall first be suspended. Such initial suspension shall not be for more than five (5) workdays. During such period, the District shall decide whether the suspension without pay already given is considered sufficient, or, dependent on the facts of the case, whether it should be extended, reduced or converted into a discharge, or that no discipline should have been given.

24.2. Civil Service Appeal. The employee, with or without a designated representative, shall have the right to appeal a suspension or discharge either in accordance with the grievance procedure in Article 23 or in accordance with Civil Service Rule XIII, APPEALS, but in no case under both.

Article 25. INTERFERENCE WITH WORK

The Union agrees to refrain from engaging in, encouraging, or condoning, either directly or indirectly, any strike, work stoppage, slowdown, sit-down, stay-away, picketing, or any other forms of interference with the operations of the District during the term of this Contract. The District agrees that there shall be no lock-out against employees during the life of this Contract.

Article 26. SAFETY

26.1. Safe Working Conditions. The District shall devote every effort to see that District operations are performed with a maximum degree of safety consistent with the requirements of the work to be performed.

26.2. Safety Committee. In accordance with the District's Injury & Illness Prevention Program, the Union and District will continue the practice of Local Safety Committees (LSC). The LSC's purpose is to identify and resolve safety concerns and hazards affecting particular work groups. Membership on the LSC should be voluntary and members should reflect a majority of represented employees who are appointed by their Local or by their supervisor.

26.2.1 At the request of the Union, an ad-hoc safety meeting may be requested to address a safety concern that was unable to be resolved through either the local safety committee or at the Labor Management Meeting. Such an ad-hoc meeting will consist of not more than two (2) Union and two (2) management representatives.

26.3. Medical Tests on Employees. The District recognizes that in the event employees are exposed in the workplace to infectious diseases and/or carcinogens or other harmful substances which exceed Cal-OSHA Permissible Exposure Limits, Ceiling Limits and Short-Term Exposure Limits, medical consultation and/or monitoring shall be made available at no cost to the employee. Medical consultation and/or monitoring may be required by the District even when not legally mandated. The District will provide medical monitoring records or other medical test information upon request from the employee. The District will provide medical information to an authorized Union representative only with the express written consent of the involved employee.

26.4. Results of Government Inspections. The District will prominently post Cal/OSHA Citations and Notification of Penalties at or near the location of each violation until the violative condition is corrected or for three working days, whichever is longer as required by California Labor Code Section 6317.

26.5. Injury and Illness Records. Upon the request of the Union, the District will make available to the Union reports on employee job injuries and illness through the Cal-OSHA 300 Log.

26.6. Vehicle Accident Reports. Upon request of the Union, the District will make available vehicle accident reports. Accident reports will be automatically removed from employees' personnel file three years from the date of issuance, provided there are no subsequent accident reports. Such accident reports will be archived in a separate file than the personnel file.

26.7. List of Substances and Processes. The District, in compliance with CCR T8 Section 5194 Hazard Communication, maintains Safety Data Sheets on hazardous substances. Upon request of the Union, the District shall make available a list of all chemicals, etc., for which it has such data sheets. Additionally, upon request, it shall also make available specific Safety Data Sheets.

MEMO TO: Board of Directors

Derry L. Moten, Special Assistant to the General Manager *DM*

SUBJECT: Discussion of the Proposed Performance Criteria for the Evaluations of the General Manager and the General Counsel

SUMMARY

At its July 8, 2025 meeting, the Board will discuss and provide input into the proposed performance criteria for the upcoming performance evaluations of the General Manager and the General Counsel.

DISCUSSION

Staff provided the Board with an information memorandum on June 26, 2025 describing the proposed changes to the Board's evaluation process and updated performance evaluation includes specific performance criteria for the Board to consider when evaluating the job performances of the General Manager and the General Counsel. The performance criteria was developed by the Director of Human Resources and the Special Assistant III overseeing the District's Office of Diversity, Equity and Culture.

For the General Manager, the proposed performance criteria includes nine core competency areas that reflect the complexity and breadth of executive leadership at EBMUD. The framework is grounded in the District's leadership competency model and the Leadership Practices Inventory (LPI). The competencies provide a balanced and holistic evaluation of the General Manager's performance, ensuring accountability for high-level decision-making, inclusive leadership, and the stewardship of public resources.

For the General Counsel, the proposed performance criteria includes six core competency areas that reflect legal and executive leadership. The framework is grounded in the District's leadership competency model and LPI. The evaluation criteria focus on strategic legal advisement, proactive risk management, balanced litigation strategies, efficient use of external counsel, and the development of a high-performing legal team. The competencies provide a balanced assessment of the General Counsel's strategic leadership, operational impact, and support for the District's overall goals.

These performance criteria are based on a synthesis of public sector executive leadership best practices, historical evaluation frameworks used for EBMUD's General Manager and General Counsel, and an alignment with the District's strategic priorities. They are intentionally designed to reflect the expectations of executive roles in high-performing public organizations.

Staff requests that the Board provide input on the evaluation criteria and LPI tools at its July 8, 2025 meeting. Based on the Board's feedback, staff will finalize the performance criteria and LPI matrix and bring it back for the Board's consideration at its August 12, 2025 meeting.

NEXT STEPS

Below is the proposed schedule for finalizing the performance criteria and conducting the performance evaluations for the General Manager and the General Counsel.

- August 12, 2025 Board meeting – Consider adoption of the updated performance criteria.
- August 26, 2025

The General Counsel (GC) serves as the chief legal advisor to the East Bay Municipal Utility District (EBMUD) and the Board of Directors, providing strategic counsel to support the District's mission, operations, and long-term objectives. The GC's responsibilities encompass a wide range of legal matters, including compliance, risk management, litigation, and stakeholder engagement.

This performance evaluation framework is designed to measure the GC's effectiveness across critical areas of legal and executive leadership. It is grounded in EBMUD's leadership competency model and the Leadership Practices Inventory (LPI), ensuring that expectations are aligned with District-wide standards of leadership and organizational excellence. The evaluation criteria focus on strategic legal advisement, proactive risk management, balanced litigation strategies, efficient use of external counsel, and the development of a high-performing legal team.

Each competency area is integral to EBMUD's success and will be equally weighted in the GC's performance evaluation to provide a balanced assessment of their strategic leadership, operational impact, and support for the District's overall goals.

1. Strategic Legal Advisory and Policy Compliance

- **Conflict Resolution and Internal Support:** Reviews the GC's effectiveness in identifying and managing potential conflicts of interest related to external counsel. Also evaluates how well the GC ensures that legal advice (whether provided internally or externally) remains consistent, coordinated, and aligned with EBMUD's strategic directions.

3. Stakeholder Relations and Interdepartmental Collaboration

- **Criteria:** The GC provides critical advisement on external stakeholder relations, in partnership with Governmental Affairs, the Public Information Office (PIO), and Senior Managers. The GC supports transparent and legally sound communication with external stakeholders.
- **Measures:**
 - **Advisory Role in External Communications:** The GC's effectiveness in providing legal guidance on stakeholder communications managed by Governmental Affairs, the PIO, or relevant managers, ensuring that public statements, legislative interactions, and community engagements are legally compliant.
 - **Interdepartmental Collaboration:** The GC's ability to partner effectively with Governmental Affairs and other departments, providing proactive legal advisement that supports strategic external partnerships while managing legal risk.
 - **Crisis Management Support:** The GC's role in advising during crises or significant legal matters affecting external stakeholders, ensuring timely and accurate legal guidance that mitigates reputational risks.

4. Balanced Risk Prevention and Litigation Management

- **Criteria:** The GC is responsible for both preventing legal issues through proactive advisement and effectively managing litigation when disputes arise. The GC's approach should equally emphasize risk prevention and dispute resolution.
- **Measures:**
 - **Proactive Legal Risk Prevention:** The GC's performance in identifying and addressing potential legal risks before they escalate into larger issues, including compliance checks, and preemptive legal advisement.
 - **Litigation Strategy and Outcomes:** Success in managing litigation processes, whether in-house or with external counsel, including developing litigation strategies, overseeing case progress, and achieving favorable outcomes. The GC's effectiveness in representing EBMUD's interests at trial, in administrative proceedings, and in settlements will be crucial.
 - **Balanced and Ethical Legal Practice:** Evaluations will consider the GC's ability to maintain ethical standards while balancing the dual responsibilities of risk prevention and

litigation. Success in this area will reflect the GC's commitment to maintaining EBMUD's integrity and public trust.

5. Leadership, Talent Development, and Team Management

- **Criteria:** In alignment with the District's leadership competency model, the Leadership Practices Inventory (LPI), the GC is responsible for developing and leading a high-functioning legal team, including the Assistant General Counsel and legal staff. This includes fostering professional development, enhancing legal capabilities, and maintaining effective team operations.

 - **Succession Planning and Knowledge Transfer:** The GC's role in preparing staff for future leadership roles, ensuring that the Office of General Counsel is equipped to handle transitions, and maintaining a knowledge-sharing culture to support consistent legal advisement.

6. Governance and Advisement to the Board of Directors

- **Criteria:** As the chief legal advisor to the Board, the GC is responsible for providing clear, timely, and strategic legal counsel to support the Board's decision-making processes and governance functions.
- **Measures:**
 - **Quality and Timeliness of Legal Advice:** The GC will be evaluated on their ability to provide the Board with comprehensive legal advice that is timely, well-researched, and aligned with EBMUD's strategic interests. This includes preparing recommendations, briefings, and other materials for Board meetings and committees.
 - **Board Relations and Trust:** The GC's ability to build and maintain strong working relationships with Board members, ensuring that legal counsel is provided with transparency and in a manner that supports informed governance decisions.
 - **Facilitating Effective Governance Practices:** Success in supporting the Board's governance processes, ensuring compliance with regulatory obligations, and advising on policies and practices that uphold EBMUD's legal and ethical standards.

This evaluation framework emphasizes the multifaceted nature of the General Counsel's role, ensuring that their performance is reviewed through a comprehensive lens that balances strategic oversight, legal expertise, stakeholder engagement, and team leadership. The criteria are designed to ensure that the GC effectively supports EBMUD's legal needs, aligns with strategic goals, and upholds the District's commitment to legal integrity and public service excellence.

Performance Evaluation Criteria for the EBMUD General Manager

The General Manager (GM) serves as the chief executive of the East Bay Municipal Utility District (EBMUD), providing strategic and operational leadership in support of the District's mission, core values, and long-term sustainability. In collaboration with the Board of Directors, the GM is responsible for advancing EBMUD's Strategic Plan and Diversity, Equity, and Inclusion (DEI) Strategic Plan, ensuring effective governance, public trust, and operational excellence.

This performance evaluation framework is designed to assess the GM's effectiveness across nine core competency areas that reflect the complexity and breadth of executive leadership at EBMUD. The framework is grounded in the District's leadership competency model, the Leadership Practices Inventory (LPI), ensuring that performance expectations are tied to recognized leadership standards and aligned with the District's strategic goals.

These competencies span strategic vision, DEI leadership, financial stewardship, operational effectiveness, workforce development, customer and community relations, adaptability, and governance. Each area includes measurable outcomes and reflects the GM's influence on both organizational performance and people-centered leadership.

Each competency is equally weighted to provide a balanced and holistic evaluation of the GM's performance, ensuring accountability for high-level decision-making, inclusive leadership, and the stewardship of public resources. Together, these criteria support a results-driven, values-led approach to advancing EBMUD's mission in service to the communities it serves.

1. Strategic Leadership and Vision

Key indicators include the successful and ongoing review of all District policies and procedures with an equity emphasis, the establishment of inclusive cultural norms, and the ability to address

systemic barriers within the organization. The GM's role in setting a strategic vision for DEI and their leadership in championing inclusive practices throughout EBMUD will be central to this evaluation.

3. Financial and Resource Management

MEMO TO: Board of Directors

SUBJECT: 2025 Customer Opinion Survey

SUMMARY

Every two years, the District conducts a customer opinion survey to assess public perception of EBMUD. In spring 2025, Probolsky Research completed the most recent survey. The survey asked both bill-paying and non-bill paying customers about their knowledge of EBMUD's work and mission. The data from the survey will be used to guide the District's messaging and outreach efforts, help inform the District's community engagement activities, and build an understanding of and support for other District initiatives. The survey results will be presented at the July 8, 2025 Board meeting.

DISCUSSION

With 1.4 million residents relying on EBMUD's critical water and wastewater services, it is important to understand how people access and interpret information about EBMUD's efforts to protect public health and the environment while investing in infrastructure and planning for future challenges. Statistically valid research is a valuable tool used by water and wastewater agencies to gauge customer perceptions and guide outreach. Consistent with the District's Strategic Communications Plan, which outlined goals to increase awareness of the District's projects, priorities, and programs, the 2025 customer opinion survey will inform District community engagement and messaging to ensure EBMUD's efforts are better understood by consumers.

Survey Methodology

In May 2025, Probolsky Research completed 1,200 interviews by phone (19%) and online (81%) of both District account and non-account holders. Phone interviews were conducted via landline (23%) or mobile (76%); online participants were invited by email (60%), text message (20%), and mail (20%). Respondents to both the phone and online survey chose their preferred language: English (94%), Spanish (5%), or Chinese (2%).

Key Findings: Areas of Strength

Survey results indicate that the District maintains a favorable overall reputation. Seventy-eight percent of respondents, down slightly from 81 percent in 2023, approve of EBMUD's job performance, and 62 percent of respondents are satisfied with EBMUD's performance in ensuring high-quality drinking water. Trust in the District's decision-making is also strong, with 59 percent of respondents expressing trust that EBMUD makes smart decisions about water and wastewater services.

Survey respondents share EBMUD's priorities, including providing good tasting tap water, upgrading aging infrastructure, and preparing for droughts. These priorities align with the Strategic Communications Plan's messaging pillars, which center on the high quality of EBMUD's water and wastewater services, investing in the future, and protecting the environment.

Customer service was another area of strength. Among the 15 percent of respondents that contacted EBMUD by phone or online in the past year, 67 percent reported their issue was resolved on the first attempt. Additionally, 92 percent rated the quality of customer service as good or excellent. Among the 32 percent who had construction activity in their neighborhood, nearly two thirds rated the communication before, during, and after the project as good or excellent.

The use of both purified and recycled water for drinking water proved to be widely accepted even after respondents were presented with detailed explanations of the source of the purified water. Seventy-nine percent said they had no concerns about the use of recycled water for non-potable (e.g., irrigation) use in their community, and 70 percent expressed the same for purified water intended for drinking purposes.

Key Findings: Areas for Improvement

While the survey reflects positive overall ratings, it also reveals opportunities to improve communication and public understanding, especially regarding emergency preparedness. Only 57 percent of residents were aware of the recommended water storage for emergencies, and 61 percent said their household was not prepared to go without running water for seven days in an emergency. Just 13 percent expressed explicit interest in signing up for EBMUD emergency alerts. Moreover, nearly half of respondents were unaware that urban water systems are not designed to combat wildfires.

There is also a need to enhance public education on daily water use. While 62 percent of respondents estimated their usage at 35 gallons or less per person per day in their household, the District's average is roughly 49 gallons, highlighting an opportunity to promote more accurate understanding of personal water consumption.

Overall awareness of EBMUD provides an opportunity for growth. Forty-five percent of respondents said they had not seen or heard about the District recently, with awareness notably lower in areas west of the hills. The survey also highlights gaps in engagement with non-bill payers and renters, who were more likely to report they were unsure about EBMUD's role and rated its services less favorably than bill payers.

Concerns about affordability also emerged. Forty-six percent of respondents felt their bill was too high; however, when told that water costs less than 2 cents per gallon, this number dropped to 40 percent, highlighting the value of cost-related messaging in shifting customer perception.

Additionally, bottled water consumption is widespread with 37 percent of respondents consuming bottled water at home at least once a month and 47 percent consuming bottled water at least once a month outside of their home. Sixty-three percent consume bottled water for convenience, while 21 percent do so for quality and 17 percent for taste. These findings present an opportunity for EBMUD to message its water as a more economical and higher quality alternative to bottled water.

Further, upon learning that bottled water is generally less regulated, can be rebottled tap water, and costs hundreds of times more than tap water, 46 percent of the respondents were less likely to drink bottled water in the future.

Message Testing: Positive Impact

As with previous surveys, respondents showed a more favorable view of the District when presented with messages about its efforts. The most effective messages focused on drought preparation, earthquake readiness, use of innovative technology, and watershed protection. These messages each moved more than three-quarters of respondents to view EBMUD more favorably. Further, after presentation of EBMUD's core messaging, approval ratings of EBMUD increased from 78 percent to 85 percent.

Recommendations

The survey results reinforce and expand upon the priorities identified in the District's Strategic Communications Plan, offering clear and actionable steps to strengthen community engagement and public understanding of EBMUD's work.

- Staff will direct messaging and outreach efforts to communities that feel less connected to the District's work.
- While trust in EBMUD remains high, highlighting completed projects, infrastructure investments, and community benefits can help sustain and build upon this trust.
- Communications should continue to focus on water quality. While most customers rate EBMUD's water highly, there remains a need to address misconceptions about the safety of tap water.

- To support acceptance of recycled and purified water, the District should continue using clear, consistent terminology and provide transparent information about the safety and treatment processes involved.
- Affordability perceptions remain a challenge. While many respondents believe their bills are too high, perceptions shift positively when they learn that water costs less than 2 cents per gallon. Focusing messaging on the value of EBMUD's services may address concerns about rates.
- Emergency preparedness presents opportunities for targeted engagement. Many residents are unaware of the need to store water in case of service interruptions, and fewer still are prepared to live without running water for seven days.

NEXT STEPS

Staff will integrate the survey findings into the District's outreach and communications plan to support EBMUD's mission and strengthen public trust. Initial priorities will focus on enhancing messaging around water quality, infrastructure investment, and emergency preparedness; and on increasing visibility in communities with lower awareness, including non-bill payers and residents west of hills.

To deepen understanding of the survey data, the District will conduct around 100 on-the-street interviews. These interviews can be targeted to specific population subsets – such as non-bill payers, renters, or residents in low-awareness areas – to supplement quantitative findings with qualitative insights that will help shape future messaging and engagement efforts.

An electronic version of the complete survey report will be provided to the Board upon request.

EAST BAY MUNICIPAL UTILITY DISTRICT

DATE: July 8, 2025

MEMO TO: Board of Directors

FROM: Clifford C. Chan, General Manager *CCC*

SUBJECT: Monthly Report – June 2025

HIGHLIGHTS

The District and the Port of Oakland (Port) executed a 10-year Purchase Power Agreement that provides the Port with surplus energy generated from the Main Wastewater Treatment Plant. The contract starts July 1, 2025 and will provide the Port Renewable Energy Certificates at a fixed price of \$36 per megawatt hour and renewable energy at the market price. The energy to be delivered is estimated to contribute between 10 and 15 percent of the total energy needs of the Port.

In June, the District held a series of Technical Working Group (TWG) meetings to support the Federal Energy Regulatory Commission license renewal for the Lower Mokelumne River Project, which governs hydropower operations at Pardee and Camanche dams. Initial meetings in Lodi and virtually introduced regulatory requirements, timelines, and data tools across key resource areas including water, aquatic and terrestrial species, and recreation. Follow-up meetings focused on study proposals for each resource topic, with feedback to be revisited in July. In response to a stakeholder inquiry, staff also provided technical documentation on cold water flows from Camanche Dam and requested review of a related article expected in a 2025 CSPA newsletter. Approximately 85 people attended.

WATER SUPPLY

In June, staff met with the Mokelumne Integrated Water Storage and Conjunctive Use Project (MICUP) partners. MICUP partners continued to discuss how available water will be allocated and conveyed to the partners and analyzed in the environmental impact report. The MICUP partners will discuss the draft terms of the operating agreement with their respective boards in June. EBMUD is not party to the agreement; however the District was given the opportunity to review and comment.

On June 2, staff met with North San Joaquin Water Conservation District (NSJWCD) and Stockton East Water District to coordinate the development of a groundwater banking project. Staff provided updates on the development of the memorandum of understanding and proposed water right changes to use Mokelumne River water for groundwater banking in the

eastern San Joaquin subbasin. Draft documents will be shared with NSJWCD, for their input, after consultant review in June. The next meeting is scheduled for July 17.

On June 12, staff attended the Department of Water Resources' (DWR) Senate Bill (SB) 1157 Benefits and Impacts Technical Advisory Panel meeting. The Technical Advisory Panel (TAP) will evaluate benefits and impacts to water, wastewater, and recycled water systems resulting from SB 1157 water use efficiency requirements. The TAP meetings will inform the DWR Steering Committee on the development of methodologies and protocols for end-use studies and analyses.

On June 18, staff met virtually with the Bay Area Regional Reliability (BARR) partners to continue discussions on collaboration opportunities and study needs related to golden mussels. The BARR partners will prepare a document summarizing each agency's status regarding golden mussels and form a separate working group consisting of specialists from each agency. The next meeting is scheduled for July 16. BARR partners include Alameda County Water District, Bay Area Water Supply and Conservation District, Contra Costa Water District, EBMUD, Marin Municipal Water District, San Francisco Public Utilities Commission, Santa Clara Valley Water District, and Zone 7 Water Agency.

On June 18, the District kicked-off the Urban Water Management Plan (UWMP) 2025 update with internal subject matter experts. The UWMP is a long-term planning document that outlines the District's strategies to ensure adequate water supplies to meet existing and future demands. The plan is updated every five years in accordance with the Urban Water Management Planning Act. A workshop with the Board is scheduled for January 2026.

WATER QUALITY AND ENVIRONMENTAL PROTECTION

In June, staff submitted two documents to the Federal Energy Regulatory Commission (FERC) in compliance with regulations. One document outlined the Powerline Upgrade Project that is being implemented at the Pardee Dam and Spillway region, informing FERC of the project design as well as noting that the Resources Agencies did not have any comments on this project. The second document was an update to the District's Owner's Dam Safety Guide, that provided an overview of the dam safety program components, reflected staffing changes and clarified roles and responsibilities within the Dam Safety Steering Committee.

In June, staff completed a population study of western pond turtles at two ponds located in the Oursan Ridge Conservation Bank. Around 70 western pond turtles were captured and released in lower and upper lagoon ponds. Results from the study indicate that healthy turtle populations persist at both sites and that the District is meeting Habitat Conservation Plan goals of preserving and enhancing pond habitats on the watershed.

In June, staff conducted biological surveys on the Mokelumne watershed to support brush removal and fuel reduction efforts. Staff performed nesting bird surveys for ongoing shaded fuel breaks and brush thinning in the areas of Goose Hill, near the Pardee Chemical plant, and areas near MacAfee Gulch and Lone Pine gate for Cal-Fire hand crew qualifying exercises. Multiple elderberry bushes were flagged for avoidance and there were no active nests observed. Surveys were conducted in compliance with the District's U.S. Fish and Wildlife Service's Safe Harbor Agreement and the California Department of Fish and Wildlife Service's Routine Maintenance Agreement.

In June, staff completed the Aqueduct Recoating area vegetation sampling. The sites where the recoating of the Mokelumne aqueduct impacted the vegetation were reseeded in fall 2024. The reseeded sites are in the process of being surveyed to see if the efforts meet the vegetation density requirements. Nine of the ten sites met or exceeded the mitigation goals. Vegetation sampling at one site was not possible due to high disturbance from cattle and mowing of adjacent pastures. Reseeding occurred in ruderal, barren, and pasture areas with very little undisturbed adjacent habitat to compare restoration sites. The site is composed mostly of invasive thistles and non-native grasses. Pre- and post-project photos are similar. Project activities in 2024 did not impact adjacent annual grasslands. Reseeding in fall 2025 to be determined.

In June, staff worked with member agencies of the California Municipal Utilities Association to prepare and submit written comments to the State Water Resources Control Board (SWRCB) during a public hearing on proposed amendments to the Cross Connection Control Policy Handbook. Staff will continue to collaborate with our partner agencies to provide input to SWRCB on rulemaking amendments that dictate how to implement new legislation on Cross Connection Control.

In June, the District participated with the Association of California Water Agencies (ACWA) in providing comments on the State Water Resources Control Board's Water Measurement and Reporting proposed revisions to ensure that compliance with the revised regulations is feasible. Staff worked with ACWA to review and provide comments and suggested edits to clarify the revised regulations dealing with data reporting requirements. Comments were submitted by the deadline of June 6.

In June, staff responded to vegetation fires that occurred on District property. On June 6, staff responded to a 1.7-acre vegetation fire that occurred near the community of Wallace. Two days later, staff responded to a 1-acre vegetation fire adjacent to District property near the Camanche Hills Hunting Preserve in Ione. The third fire occurred on June 16, where staff responded to a 4.8-acre vegetation fire near the Mokelumne Fish Hatchery in Clements. All three fires were quickly contained with no damage to District facilities.

In June, staff completed annual vegetation management on the San Pablo watershed. Vegetation management focused on mowing, road blading, and brushing.

On June 3, staff completed a 15-acre shaded fuel break along the eastern watershed boundary and Highway 49 near Mokelumne Hill. The work was part of a larger grant funded project secured by the Calaveras Resource Conservation District that connects fire fuel reduction work across multiple properties.

On June 9, goat and sheep grazing began for the annual weed abatement on the Lafayette Dam. The animals were on site for 12 days and completed the work.

On June 12, staff assisted Moraga-Orinda Fire District with a four-acre prescribed burn near Happy Valley Road and Orinda View.

On June 12, the District reported an unauthorized discharge from the Oakport Wet Weather Facility (WWF) to the San Francisco Regional Water Quality Control Board (RWQCB), Alameda County Health Department, and the California Office of Emergency Services. The unauthorized discharge occurred from 9:25 a.m. to 11:10 a.m. and released up to 2,000 gallons of treated wastewater into East Creek Slough (normal discharge point for Oakport WWF). The discharge occurred when two of four outfall gates did not fully seal during a wet test, which is a training session where the facility is put online, but flows are returned to the interceptor. An expert on this type of gate was consulted and additional corrective actions and testing are ongoing. The discharge had no impact on surface water since it was treated wastewater. The discharge is considered an unauthorized discharge since Oakport WWF is only allowed to discharge during wet weather events and the weather on June 12 was dry. No water quality monitoring or public warnings were issued due to the determination that water quality impacts were not expected. A letter summarizing the unauthorized release and corrective actions was sent to the RWQCB on June 18. A fine is possible, but not expected, for this discharge.

On June 16, the District released the last group of juvenile chinook salmon from the Mokelumne River Fish Hatchery into Richmond Harbor. The event was a collaboration between the Golden State Salmon Association, the California Department of Fish and Wildlife and EBMUD. The viewing group included school children from Richmond who were learning about salmon ecology. Approximately 30 people attended.

On June 17, the District conducted a controlled burn of 10-acres on watershed property near Sleepy Hollow in collaboration with the Moraga-Orinda Fire District, East Bay Regional Parks District and Contra Costa County Fire Department.

On June 23, the District removed approximately 150 tires dumped on Pinehurst Road just south of Skyline Blvd in Oakland.

On June 24, staff completed the annual mowing of the Mokelumne watershed fire access roads.

All authorized discharges from the Main Wastewater Treatment Plant (MWWTP) were in compliance with the permit limits for the month of June. This is the 310th consecutive month that the MWWTP experienced no exceedances.

The District received no odor reports from the public in June.

On June 25, the U.S. Army Corps of Engineers conducted an inspection of the abandoned water line under the Oakland-Alameda estuary as part of the East Bayshore Recycled Water Project first increment of work. The results of the inspection will inform design of a new recycled water pipeline within the abandoned pipeline casing. This project received \$6,725,000 million in federal funding through the Water Resources Development Act. The estuary pipeline design was anticipated to begin in this fiscal year following the inspection, however, the inspection was unfortunately not successful in providing adequate information about the pipeline to move forward. Staff is currently in discussions with the Army Corps and contractors to evaluate potential alternative inspection methods.

Design for the Main Wastewater Treatment Plant (MWWTP) Digesters 7, 11, and 12 Rehabilitation Project was completed under SD-450. The construction contract with Ranger Pipelines, Inc. for the Happy Valley and Sunnyside Pumping Plants and Happy Valley Pipelines Phase 2 Improvements project under Specification 2120 requires an increase in the change order contingency. Costs increased due to differing site conditions associated with the pipeline work on Miner Road and at the Lauterwasser Creek crossing. It is estimated that the change order contingency will need to be raised to \$1,910,000 or 11 percent of the original contract amount of \$17.3 million.

An amendment to the agreement with Rain-for-Rent for a lease of two temporary chemical storage tanks for the Oakport Wet Weather Facility will be requested for Board approval to extend the lease for an additional five months and increase the agreement amount by \$40,000 to a total amount not to exceed \$540,000. The original agreement was authorized in 2021 for an amount not to exceed \$500,000 under the emergency declaration established by Board Resolution No. 35253-21. This emergency declaration was issued in response to the sudden failure of one of three aging sodium hypochlorite (SHC) storage tanks at the facility. The agreement is being extended to accommodate delays in the Oakport Wet Weather Facility SHC Tanks Replacement construction project under SD-442, which will replace the three existing SHC tanks with new tanks. The existing tanks are being replaced sequentially to maintain service, and significant upgrades were included for compliance with current construction codes and standards. The Board will be asked to consider approval at its August 12, 2025 meeting.

In June, an additional qualified service provider was added to the agreements for vehicle/equipment repair and other related services. Chino's Customs meets District standards and has been added to increase flexibility and ensure service provider availability.

In June, an additional qualified vendor was added to the contracts for original equipment manufacturer parts and accessories for vehicles. Hilltop Chrysler Jeep Dodge Ram meets District standards and has been added to increase flexibility and ensure vendor availability.

Capital Budget Transfers. In June 2025, there were two capital transfers for a total of \$1.9 million. There were no capital transfers over \$2.5 million. Through June 30, 2025, there have been 11 capital transfers in FY 2025, for a total of \$25.8 million in the Water system and \$7.3 million in the Wastewater system.

The estimated earned revenue from the Main Wastewater Treatment Plant Power Generation Station's surplus power sales for June is \$52,780. The District sold renewable power and related Renewable Energy Certificates (RECs) to the Port of Oakland. The sale of RECs generated \$16,480 from the Port of Oakland. Earned revenue for Fiscal Year 2025 is estimated at \$687,153 or 172 percent of the total Fiscal Year 2025 budget of \$400,000.

The estimated earned revenue from Mokelumne power sales for June is \$803,962. The District sold renewable power and related Renewable Energy Certificates (RECs) to Marin Clean Energy (MCE). Sales of RECs generated \$69,730 from MCE. Resource Adequacy capacity sales to NRG Business Marketing LLC earned \$473,000. Estimated earned revenue to date through June is \$11,144,843 or 109 percent of the budgeted revenue for FY 2025, \$10,200,000.

There was one material, supply, or construction contracts from \$80,001 to \$100,000 and five general and professional service agreements from \$30,001 up to \$80,000 approved by the General Manager in June 2025.

Water Sales (Consumption)

The following consumption information is the average water consumption in millions of gallons per day (MGD) for the first 11 months of FY 2025.¹ Budgeted average daily water consumption for FY 2025 is 143.9 MGD, noting that summer month consumption is generally higher due to outdoor watering. The table below shows the average billed water consumption information by customer class with a comparison to FY 2024 data for the same period-of-time.

Fiscal Year-to-Date Billed Water Consumption			
Usage Type	FY 2025 (MGD)	FY 2024 (MGD)	Year-over-Year (% change)
Residential	70.4	66.3	6.2%
Commercial	48.8	44.6	9.4%
Industrial	19.1	18.5	3.2%
Public Authority	6.3	6.0	5.0%
Total Billed Water Consumption	144.6	135.4	6.8%

Source: Customer Information System

¹ Billed consumption is the amount of potable and non-potable water use for which EBMUD billed customers during the month and not actual customer usage within that month. During any month, roughly half of all EBMUD customers are billed for the prior two months of consumption. For example, a customer bill sent in early August would generally contain charges for water consumed in June and July.

Water Sales (Expected Revenue)

Water revenues billed through the end of May were \$682.6 million² or 12.3% more than the FY 2024 revenue for the same period of \$607.9 million. This increase in water revenues is a result of higher consumption and an 8.5% rate increase (effective July 1, 2024). Total FY 2025 water revenues through May are \$4.1 million (0.6%) more than the budgeted water revenue of \$678.5 million.
