

Irrigation Flow Sensor Rebate

Requirements

- **Install an irrigation flow sensor** to measure flow rate and total amount of water delivered to an irrigation system.
- Must communicate with a **compatible irrigation controller** to send flow alerts and be on [EBMUD's qualifying list](#).
- Receipts are required and must list the unit price for each item.
- Rebate amounts are limited to the price of the item alone and do not include taxes, labor, or shipping fees.

Documentation

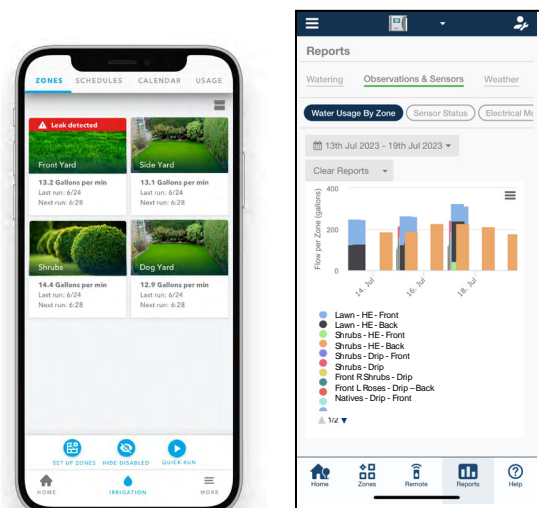

1) Photo of installed flow sensor (various acceptable flow sensors shown as an example).

2) Photo showing wiring to correct sensor port in controller and screenshot showing connected/active flow sensor.

3) Screenshots showing compatible controller and flow sensor showing flow used per zone (2 different examples shown).

4) Copy of receipt showing date of purchase and price (excluding taxes and fees).
