

Treebate Pilot Rebate*

***Customers must apply for a lawn conversion rebate to be eligible for the Treebate Pilot.**

Requirements

- You must be actively completing an approved lawn conversion rebate project.
- Tree must be installed within the lawn conversion rebate area.
- Tree must be **5 gallons or larger** in size at the time of purchase and installation.
- Tree must have “**Low**” or “**Very Low**” water requirements per WUCOLS. Visit ebmud.com/plants for recommendations.
- Tree **must be purchased**.
- Receipts are required and must list the unit price for each item.
- Rebate amounts are limited to the price of the item alone and do not include taxes, labor, or shipping fees.

Documentation

Submit before installation (with lawn conversion rebate):

1) Your finalized plant list: all plants, including trees, must have “Low” or “Very Low” water requirements on WUCOLS at ccuh.ucdavis.edu/wucols-db.

 Super Rebate reminder: all plants must be installed between September - February, and include a majority of CA native plants.

Submit once your project is complete (with lawn conversion rebate):

2) Photo of installed tree in lawn conversion area (different sized trees shown as example).

3) Copy of nursery receipt or contractor's invoice showing size and species of tree, and material price, exclusive of labor, taxes, and other fees.
