EAST BAY MUNICIPAL UTILITY DISTRICT

DATE: January 27, 2026

MEMO TO: Board of Directors

THROUGH: Clifford C. Chan, General Manager *CCC*

FROM: Alice E. Towey, Director of Water and Natural Resources *AET*

SUBJECT: 2025 Urban Water Management Plan and Water Shortage Contingency Plan Workshop - January 27, 2026

SUMMARY

The 2025 Urban Water Management Plan (UWMP) and Water Shortage Contingency Plan (WSCP) Workshop is scheduled for January 27, 2026. The UWMP is required to be updated every five years and provides an overview of the District's water resources planning, including updates on projects, studies, and recycled water and conservation programs undertaken since the last update in 2020. The 2025 UWMP is scheduled for Board adoption in June 2026 and will be submitted to the California Department of Water Resources in July 2026.

DISCUSSION

The UWMP and WSCP are designed to satisfy the requirements of the Urban Water Management Planning Act. The UWMP is updated every five years and provides a comprehensive assessment of the District's projected water supply and demand over a 25-year horizon; evaluates water supply reliability under normal, dry, and multiple dry-year conditions; outlines strategies for meeting future needs; documents progress on recycled water and conservation programs; and identifies potential supplemental water sources.

The WSCP is a critical component of the UWMP and details the District's response strategies for water shortages, including drought conditions or emergencies. The WSCP establishes stages of action, demand reduction measures, and communication protocols to ensure service reliability during shortages.

The attached presentation outlines the following information that will be discussed at the workshop:

- Introduction and Purpose
- UWMP and WSCP Overview
- Water Conservation Update
- Water Demand Forecast Update

2025 Urban Water Management Plan and Water Shortage Contingency Plan
Board Workshop

- Key Analysis for the 2025 UWMP
- Timeline and Key Milestones

NEXT STEPS

Staff will seek Board feedback on the 2025 UWMP and WSCP at the January 27, 2026 workshop. The feedback will be incorporated into the final UWMP which will be submitted to DWR in July 2026.
