

Good to Know...

- The California Supreme Court ruling on May 22, 2022, in *NARANJO v. SPECTRUM SECURITY SERVICES, INC.* (S258966) creates new employer obligations and additional potential exposure for non-compliance with respect to meal periods and rest breaks. In addition to paying an employee an additional hour of pay when they work during all or part of their meal or rest period, this extra pay thus constitutes wages subject to the same timing and reporting rules as other forms of compensation for work. Therefore, it may be important to re-examine wage statements for compliance and develop appropriate training for managers and supervisors.

For more information, please review the court's decision at:

www.courts.ca.gov/opinions/documents/S258966.PDF

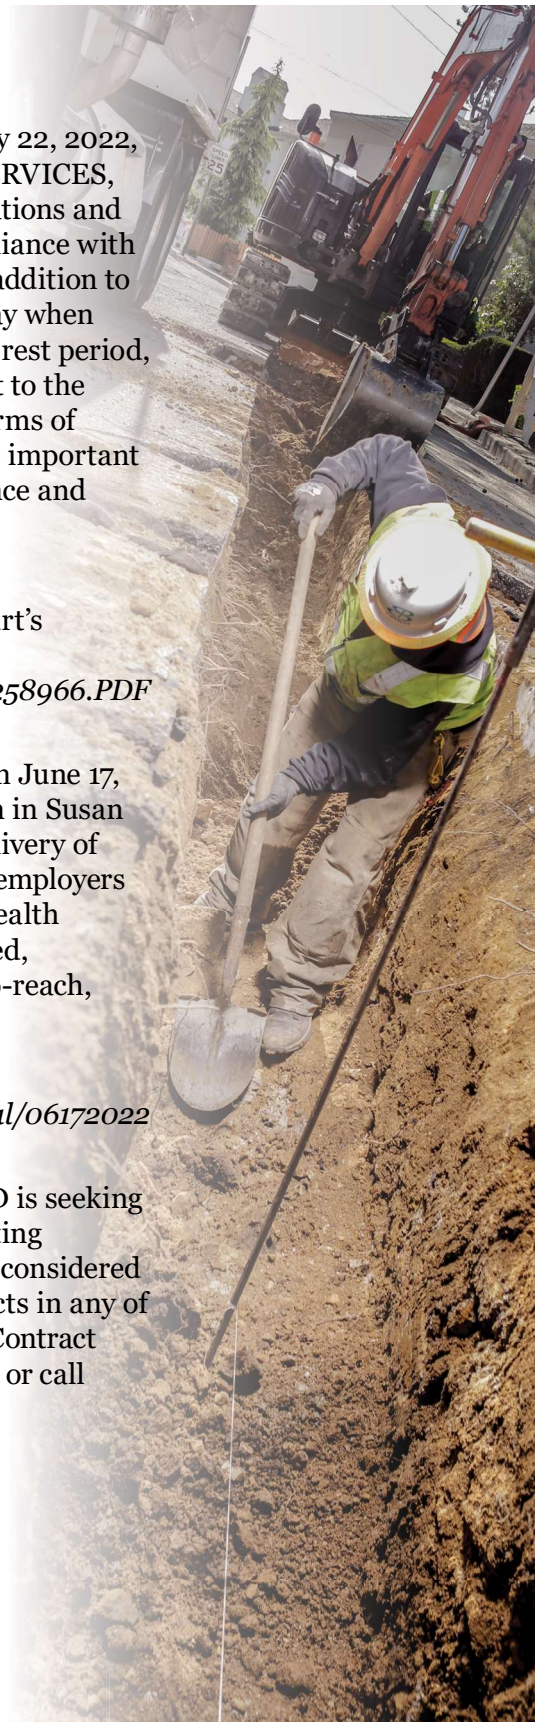

- The U.S. Department of Labor announced on June 17, 2022 a funding opportunity for \$11.7 million in Susan Harwood Training Grants to support the delivery of training and education to help workers and employers identify and prevent workplace safety and health hazards. The grants will target disadvantaged, underserved, low-income, and other hard-to-reach, at-risk workers and employers.

- **On-Call Contracting Opportunities:** EBMUD is seeking small local firms for small “on-call” contracting opportunities. If you are interested in being considered for quick and fast turn-around small contracts in any of the following categories, please contact the Contract Equity Office at contract.equity@ebmud.com or call 510-287-0114:

- Asphaltic Cement/Concrete Saw Cutting
- Concrete Repair Services
- Paving
- HVAC/R Maintenance & Repair

Upcoming Contract Opportunities

Construction

Latest Information: www.ebmud.com/business-center/construction-bids

Wastewater projects are identified by a Specification Number bearing an "SD" designation. These specifications are available from the Wastewater Department at 510-287-1754. Bid documents without the "SD" designation are available from the Specifications Section at 510-287-1040. *Bid documents are generally available at least 30 days before the estimated bid due date.*

Main Wastewater Treatment Plant (MWWTP) Capital Improvement Projects for FY22/23 - SD-439

\$3,500,000 • Proposed Due Date: 8/11/22 • 510-287-1280

Engineering services to supplement District staff for design, bidding, and construction support, for upgrades at the MWWTP including equipment replacement for the grit dewatering building, drainage improvements for the secondary reactors and galleries, plant washdown water (3W) system improvements, concrete repairs at the wet weather storage basins, and miscellaneous painting/coating.

Main Wastewater Treatment Plant (MWWTP) Operations Center Improvements - SD-424

\$6,000,000 • Estimated Bid Date: 8/17/22 • 510-287-7037

Rehabilitate Operations Center at the MWWTP including roofing, interior building renovations, structural, mechanical/HVAC, and electrical work.

East Bay Plain Subbasin Site Characterization Project

\$750,000-\$900,000 • Estimated Bid Date: 8/24/22 • 510-287-0968

Construct 12 monitoring wells in five boreholes in the cities of Richmond, Berkeley, and Hayward up to depths of 600 feet and intersecting multiple aquifer zones in close proximity to single-family residential areas.

Westside Pumping Plant (PP) Relocation, Encinal Regulator Installation, and Encinal Reservoir and Pumping Plant Demolition - Spec. 2168

\$8,769,000 • Estimated Bid Date: 9/28/22 • 510-287-1040

Relocate Westside PP to the current existing Encinal PP location, construction of new Encinal regulator within new Westside PP building, demolition of Encinal PP and reservoir.

Main Wastewater Treatment Plant Blend Tank Area, Odor Control and Grit Facility Improvements - SD-409

\$5,000,000 • Estimated Bid Date: 10/12/22 • 510-287-7037

Improve the Sludge Blend Tank Area including upgrades to the odor control system and modifications to the grit removal pilot system.

Palo Seco Pumping Plant and Madrone Regulator Replacement, Almond Pumping Plant (PP) Flowmeter Replacement, and Madrone Reservoir Demolition - Spec. 2145

\$3,100,000 • Estimated Bid Date: 10/12/22 • 510-287-1040

Mechanical and electrical rehabilitation of the Madrone PP and Palo Seco PP located at the same site as the Joaquin Miller Reservoir in the South Oakland Hills.

Upper San Leandro Water Treatment Plant Maintenance and Reliability, and Upper San Leandro (USL) and Sobrante Water Treatment Plants Chemical Systems Safety Improvements - Spec. 2128

\$127,000,000 • Estimated Bid Date: 10/12/22 • 510-287-1040

Replace the trac-vac system with a cable-vac system, reconfigure the filter backwash waste handling system, construct a new filter-to-waste basin, and solids thickening facility; rehabilitate the Clearwell roof, replace the raw water control valve, install a 5th stage of flocculation, and replace flocculator baffles, install new west portal seismic control valves, repair filter 15 underdrain and minor structural and mechanical repair to various USL facilities.

Wildcat Pipeline Improvement - El Cerrito - Spec. 2157

\$26,000,000 • Estimated Bid Date: 10/26/22 • 510-287-1040

Install 13,500 feet of 36-inch steel transmission pipe in the city streets of El Cerrito, CA.

Construction CONTINUED

FY23 Cured-In-Place Pipeline Renewals - Spec. 2167

\$6,000,000 • Estimated Bid Date: 11/1/22 • 510-914-8397

Replace approximately three miles of 4- to 16-inch cast iron, steel, and asbestos cement pipe using CIPP.

Lafayette Recreation Area Wastewater Collection System Improvements - Spec. 2166

\$1,500,000 • Estimated Bid Date: 11/16/22 • 510-287-1040

Replace approximately 750 linear feet of small diameter gravity collection system and associated structures and replace approximately 1,300 feet of small diameter force main and replace the sewer lift station.

Water Treatment Plant (WTP) Effluent Meters and Large Customer Meters Improvements - Spec. 2182

\$TBD • Estimated Bid Date: 11/16/22 • 510-287-1040

Develop design drawings and specifications for: metering improvements at the District's WTP effluent meters and large customer meters.

Camanche South Shore Wastewater Collection System Improvements- Spec. 2164

\$7,000,000 • Estimated Bid Date: 11/30/22 • 510-287-1040

Replace approximately 11,250 linear feet of small diameter gravity collection system and associated structures; replace approximately 4,900 feet of small diameter force main and upgrade seven sanitary sewer lift stations.

Materials and Supplies

Latest information: www.ebmud.com/business-center/es-bids/

Ammonia Storage & Transfer System for Walnut Creek Water Treatment Plant (WTP)

\$250,000 • Estimated Bid Date: TBD • 510-287-0454

Two stainless steel tanks for Walnut Creek WTP chemical building ammonia storage and transfer system.

Boat Purchase for Water Supply Division

\$100,000 • Estimated Bid Date: TBD • 510-287-0454

Provide one new boat for hydrographers.

Three Fiberglass Reinforced Plastic (FRP)

\$300,000 • Estimated Bid Date: TBD • 510-287-0454

Three FRP tanks to store sodium hypochlorite at Oakport wet weather facility.

Professional and General Services

Latest information: www.ebmud.com/business-center/requests-proposal-rfps/

Requests for Proposals (RFPs) for the projects listed are generally available at least 30 days before the estimated proposal due date.

East Bayshore Recycled Water Project Emeryville-Albany Pipeline Design

\$100,000-\$300,000 • Proposed Due Date: 8/30/22 • 510-287-0593

Technical analysis and CEQA documentation for approximately 3.25 miles of recycled water pipeline in the cities of Emeryville, Berkeley, and Albany.

East Bayshore Recycled Water Project Emeryville-Albany Pipeline CEQA

\$1,800,000 • Proposed Due Date: 10/8/22 • 510-287-0593

Design services for approximately 3.25 miles of recycled water pipeline in the cities of Emeryville, Berkeley, and Albany.

Professional and General Services continued on back cover...

Upcoming Contract Opportunities

Briones Reservoir Isolation Valve Relocation

\$200,000 • Proposed Due Date: 10/20/22 • 510-287-1158

Design Briones Reservoir isolation valve relocation such that the valve will be moved to a more accessible location to facilitate routine maintenance and emergency repair, currently located at the bottom of a 250-ft. deep access shaft.

Recycled Water Strategic Plan Update

\$400,000 • Proposed Due Date: TBD • 510-287-0593

Evaluate the seismic sliding stability of the Pardee Dam due to the earthquake fault rupture hazard of the Foothills Fault System, and the seismic stability of several components of the Camanche Dam and Pardee Dam Spillways.
