

Information Technology Careers

5-7 YEARS MIN. EXPERIENCE
DEPENDING ON SPECIALTY

Information Systems Division Manager

\$167,220 min. – \$241,536 max.

EDUCATION:

B.S. or B.A. college degree, preferably with major in information systems, computer science, or closely related field

CERTIFICATION/LICENSE:

None

EXPERIENCE:

Two years of District experience equivalent to Information Services Supervisor

Alternative: Five years of professional information technology experience including at least two years of supervising staff and contract resources — Depending on the vacancy, this experience must have been in one or more of the following IT areas: business application development including systems analysis and computer programming; data base administration; systems programming; or network infrastructure installation, customization, and repair involving both data and voice communication systems.

Requires job opening and civil service testing

Achieved through meeting job standards

Information Services Supervisor

\$161,892 min. – \$187,416 max.

Supervising Systems Programmer

\$170,100 min. – \$196,908 max.

EDUCATION: B.S. or B.A. college degree

CERTIFICATION/LICENSE: None

EXPERIENCE: As required by the position vacancy, one year of EBMUD experience as a Senior Software Engineer, Senior IT Engineer, Network Analyst III; or two years of EBMUD experience as a Network Analyst II.

EXPERIENCE continued:

Alternative: Four years of experience in one or a combination of the following subject areas as required by the position vacancy such as: systems analysis, software development, and computer programming; database administration; systems programming; IT project management; cloud based computing services; IT security; geographic information systems; personal computer hardware installation and repair; and/or software installation and customization in a network environment involving data communications. Additional demonstrated use and experience in specific programming languages or IT disciplines may be required depending on the assignment. At least one year of experience will have included some project lead responsibility.

3-5 YEARS MIN. EXPERIENCE
DEPENDING ON SPECIALTY

Senior IT Engineer

\$136,344 min. – \$165,732 max.

Senior Software Engineer

\$132,972 min. – \$161,628 max.

Network Analyst III

\$120,456 min. – \$146,412 max.

EDUCATION:

B.S. or B.A. college degree

Network Analyst III:

Preferably with major in computer science, telecommunications or closely related field

CERTIFICATION/LICENSE:

None

EXPERIENCE:

Senior IT Engineer: Two years of experience in information technology engineering one year of which was at a level comparable to or higher than the EBMUD class of Information Technology (IT) Engineer II.

Senior Software Engineer: Three years of systems analysis and programming experience developing business applications for computer systems, including one year comparable to the District's Software Engineer II — May require demonstrated use and expertise in specific programming languages or IT specialties relevant to the position vacancy.

Network Analyst III: Two years of experience providing personal computer hardware or software installation, maintenance, or other related technical user support comparable to the District's Network Analyst II.

IT Engineer II

\$114,696 min. – \$139,416 max.

Software Engineer II

\$109,152 min. – \$132,672 max.

Network Analyst II

\$103,932 min. – \$126,324 max.

EDUCATION:

B.S. or B.A. college degree

Network Analyst II:

Preferably with major in computer science, telecommunications or closely related field

CERTIFICATION/LICENSE:

None
