* This list does not constitute as an endorsement of any individual product.

Can a product qualify if it is not on this list?

Yes, all devices that meet the eligibility criteria outlined at ebmud.com/flowmeter can be added to the list. To request consideration for a product not currently listed, email the device information to waterconservation@ebmud.com for approval.

Installation Location Definitions

On meter: device is strapped onto the EBMUD meter; does not require plumbing work.

On pipe: device is strapped onto the surface of a pipe; does not require plumbing work.

Inline: device is plumbed into a pipe and typically requires plumbing work.
