Commercial Irrigation Submeter Rebate Program

What is the Irrigation Submeter Rebate Program?

The Irrigation Submeter Rebate provides a rebate to commercial, municipal, and multi-family (5+ units) customers for the installation of an irrigation submeter which can be used to monitor and separately measure water used for landscape purposes. **Offer valid between January 1, 2025 and December 31, 2025**.

Requirements

1. This rebate program is open to EBMUD commercial, municipal, and multi-family (5+ units) with an active, potable EBMUD water service location.
2. Eligible equipment must possess the following features:
   - Ability to monitor and separately measure the total water flow used for landscape purposes, such as that from irrigation, pools, and/or fountains.
   - Leak detection feature.

Applying

Step 1. Review the eligibility requirements. Rebates $200 or less may install equipment and request rebate within 90 days of purchase. Customers will still need to submit a completed application, in addition to before/after photos of installed equipment and receipt(s) showing purchase date.

Step 2. For rebates over $200, complete the Commercial Irrigation Submeter Rebate Application and submit to EBMUD, along with:
   - Photo of existing area for proposed submeter installation.

Complete installation within 90 days of receiving approval. Send to EBMUD:
   - Photo of installed equipment per manufacturer's specifications.
   - Copy of receipt or contractor's invoice showing material price, exclusive of labor, taxes, and other fees.

Step 3. Rebates are issued as checks payable to the account holder and mailed to the billing address on file within two months of rebate approval. To request an alternate payee, submit a Payee Change Request Form for EBMUD approval.

Note: EBMUD may verify with an in-person site visit.

Reimbursement

EBMUD **will** reimburse up to 50% of the cost of the irrigation submeter, not to exceed $200.

EBMUD **will not** reimburse costs for the following:
   - Taxes, shipping, labor, service fees
   - Maintenance or replacement of existing irrigation submeters
   - Repairs in new construction or to meet Model Water Efficiency Landscape Ordinance (MWELO)

$	50% of cost up to $200 each	$	

Requirements:

- Ability to monitor and separately measure the total water flow used for landscape purposes.

- Leak detection feature.

Required documentation: photo of existing area for submeter; after completion submit photo of installed equipment and receipt(s)

Agreement

I have read, understand, and agree to comply with the Commercial Irrigation Submeter Rebate Program requirements stated on the front of this application. I certify that I intend to install the irrigation submeter meter off an EBMUD meter or on the Property, and I understand payment of the rebate is contingent upon the verification of lawful installation of said irrigation submeter. I also understand that by signing here, I agree to have an official of EBMUD verify the installation of the irrigation submeter at the Property, if applicable. I understand that the EBMUD meter is the billing meter of record. Irrigation submeter data cannot be used to contest a bill.

Please provide Property Owner signature and Applicant signature (if Applicant is not Property Owner) to process rebate application.
