Wastewater Discharge Permit – A written document that contains general and specific requirements governing onsite management, pretreatment, and discharge of wastewater to the community sewer. A Wastewater Discharge Permit is issued to a significant industrial user; which means an industrial user that warrants a control mechanism as determined by the District, or to a discharger that the District determines requires a permit to establish disposal charges based on flow and strength. The Wastewater Discharge Permit fee applies to Groundwater Permits.

Estimation Permit – A permit issued to a discharger that demonstrates at least 20 percent of its metered water consumption is not discharged to the community sewer. The volume diverted will not be subject to the wastewater disposal charges.

Limited Term Discharge Permit – Permits for temporary discharges of unmetered water during a specified term.

Groundwater Permit – A permit issued for discharge of groundwater on an ongoing basis.
