

# Always here for you

When Covid-19 emerged, no one could have predicted the countless ways our world would change or how long we'd face this challenge. Two years into the pandemic, few things are as they were before. But at EBMUD, we've shown up every day to keep the water running and treat wastewater before releasing it to San Francisco Bay. You've counted on us, and our commitment to you remains as steadfast as ever.

The spread of Covid-19 underscored EBMUD's role in safeguarding public health with each hand wash and every flush. We activated our Emergency Operations Team, monitored our supply chain, and adjusted protocols to keep our employees safe, even on the front lines. And all the while, we've forged ahead to maintain and upgrade the aging infrastructure we all rely on.

It hasn't been easy, but it's the way we work. Every EBMUD employee is dedicated to providing safe, reliable water and wastewater services, no matter what. We have improved the backbone pipes of our system so we can respond if an earthquake strikes. When droughts take

hold, we secure extra water sources, mobilize community conservation and continue to harness recycled water. During storms, we're on guard to protect San Francisco Bay from untreated wastewater. And when fire danger arises, we work through public safety power shutoffs to ensure the water never stops flowing and wastewater is continually treated.

It takes a team of dedicated employees and reliable diverse small local businesses to provide dependable service, and that is our commitment to you.

<b>PANDEMIC ACHIEVEMENTS 2020-2021</b>
<b>0 water service shutoffs due to delinquency</b>
<b>42 miles of water main pipes replaced</b>
<b>46 billion gallons of wastewater treated</b>
<i>101 million dollars spent with small businesses</i>
<b>102 billion gallons of water delivered</b>
<i>214 million dollars spent with local businesses</i>
<b>678 conservation rebates provided</b>
<b>700 million dollars spent on water and wastewater improvements</b>
<b>1,220 water saving devices installed</b>
<b>1,864 main breaks repaired</b>
<b>9,000 enrollees in the Customer Assistance Program (CAP)</b>
<b>40,000 water quality tests performed</b>
<b>224,000 calls fielded by customer service representatives</b>

## Construction

Latest Information: [www.ebmud.com/business-center/construction-bids](http://www.ebmud.com/business-center/construction-bids)

Wastewater projects are identified by a Specification Number bearing an "SD" designation. These specifications are available from the Wastewater Department at 510-287-1754. Bid documents without the "SD" designation are available from the Specifications Section at 510-287-1040. *Bid documents are generally available at least 30 days before the estimated bid due date.*

### **Main Wastewater Treatment Plant (MWWTP) Power Generation Station Reliability Improvements Phase 3 - SD-413**

**\$9,000,000 • Estimated Bid Date: 4/20/22 • 510-287-1685**

Upgrade to the Power Generation Station at the MWWTP to include new heat exchangers, high-pressure gas piping, electrical power and control system improvements, seismic upgrades, and other mechanical systems upgrades.

### **Oakland Inner Harbor Pipeline Crossing - Spec. 2155**

**\$30,000,000 • Estimated Bid Date: 4/27/22 • 510-287-1040**

Install 9,900 ft. of 24 in. and 30 in. diameter pipelines in Alameda and Oakland and 3,000 ft. of 30 in. diameter pipeline under the Oakland Inner Harbor.

### **Main Wastewater Treatment Plant Site Enhancements Project - SD-420**

**\$450,000 • Estimated Bid Date: 5/4/22 • 510-287-1686**

Install new irrigation, landscaping, and fencing along Engineer Road.

### **Main Wastewater Treatment Plant (MWWTP) Operations Center Improvements - SD-424**

**\$6,000,000 • Estimated Bid Date: 5/4/22 • 510-287-7037**

Rehabilitate Operations Center at the MWWTP including roofing, interior building renovations, structural, mechanical/HVAC, and electrical work.

### **Main Wastewater Treatment Plant Blend Tank Area, Odor Control and Grit Facility Improvements - SD-409**

**\$5,000,000 • Estimated Bid Date: 5/13/22 • 510-287-7037**

Improve the Sludge Blend Tank Area including upgrades to the odor control system and modifications to the grit removal pilot system.

### **Pardee Center and Recreation Area Water Treatment Improvements - Spec. 2165**

**\$500,000 • Estimated Bid Date: 5/18/22 • 510-287-1040**

Install a skid mounted system to match the existing capacity and fit within the existing treatment plant building including tie-ins with existing electrical, controls, and process flow instrumentation.

### **East Bay Plain Subbasin Site Characterization Project**

**\$750k-\$900k • Estimated Bid Date: 5/20/22 • 510-287-0968**

Construct 12 monitoring wells in five boreholes in the cities of Richmond, Berkeley, and Hayward up to depths of 600 feet and intersecting multiple aquifer zones in close proximity to single-family residential areas.

### **North Richmond Water Reclamation Plant Facility Improvements Phase 3 - SD-429**

**\$860,000 • Estimated Bid Date: 7/11/22 • 510-287-7037**

Replace chemical metering pumps, related equipment, and electrical control panels. Install new process control valves and other related work.

### **Lafayette Recreation Area Wastewater Collection System Improvements - Spec. 2166**

**\$1,500,000 • Estimated Bid Date: 7/27/22 • 510-287-1040**

Replace approximately 750 linear feet of small diameter gravity collection system and associated structures and replace approximately 1,300 feet of small diameter force main and replace the sewer lift station.

### **Palo Seco Pumping Plant (PP) and Madrone Regulator Replacement and Madrone Reservoir Demolition - Spec. 2145**

**\$3,100,000 • Estimated Bid Date: 7/27/22 • 510-287-1040**

Mechanical and electrical rehabilitation of the Madrone PP and Palo Seco PP located at the same site as the Joaquin Miller Reservoir in the South Oakland Hills.

### **FY22 Cured-In-Place Pipe (CIPP) - Spec. 2167**

**\$5,000,000 • Estimated Bid Date: 8/17/22 • 510-287-1040**

Renew approximately two miles of 6-inch and 8-inch cast iron, steel, and asbestos cement pipelines using CIPP.

## Construction *CONTINUED*

### **Upper San Leandro (USL) and Sobrante Water Treatment Plants Maintenance, Reliability and Chemical Systems Safety Improvements - Spec. 2128**

**\$127,000,000 • Estimated Bid Date: 8/31/22 • 510-287-1040**

Replace the trac-vac system with a cable-vac system, reconfigure the filter backwash waste handling system, construct a new filter-to-waste basin, and solids thickening facility; rehabilitate the Clearwell roof, replace the raw water control valve, install a 5th stage of flocculation and replace flocculator baffles, install new west portal seismic control valves, repair filter 15 underdrain and minor structural and mechanical repair to various USL facilities.

### **Westside Pumping Plant (PP) Relocation, Encinal Regulator Installation, and Encinal Reservoir and Pumping Plant Demolition - Spec. 2168**

**\$8,769,000 • Estimated Bid Date: 8/31/22 • 510-287-1040**

Relocate Westside PP to the current existing Encinal PP location, construction of new Encinal regulator within new Westside PP building, demolition of Encinal PP and reservoir..

## Materials and Supplies

Latest information: [www.ebmud.com/business-center/es-bids/](http://www.ebmud.com/business-center/es-bids/)

### **Ammonia Storage & Transfer System for Walnut Creek Water Treatment Plant (WTP)**

**\$250,000 • Estimated Bid Date: TBD • 510-287-0454**

Two stainless steel tanks for Walnut Creek WTP chemical building ammonia storage and transfer system.

### **John Deere Orchard Cab Tractor with Rears Mower**

**\$100,000 • Estimated Bid Date: TBD • 510-287-0454**

One John Deere 5100ml orchard cab equipped with rears 8' PAK flail mower attachment.

### **LiftKing model LK6M42 Rough Terrain Forklift**

**\$98,000 • Estimated Bid Date: TBD • 510-287-0454**

One LiftKing model LK6M42 rough terrain forklift.

### **Three Fiberglass Reinforced Plastic (FRP)**

**\$300,000 • Estimated Bid Date: TBD • 510-287-0454**

Three FRP tanks to store sodium hypochlorite at Oakport wet weather facility

## Professional and General Services

Latest information: [www.ebmud.com/business-center/requests-proposal-rfps/](http://www.ebmud.com/business-center/requests-proposal-rfps/)

Requests for Proposals (RFPs) for the projects listed are generally available at least 30 days before the estimated proposal due date.

### **Influent Pump Station and Resiliency Project - SD-437**

**\$500,000 • Proposed Due Date: 4/15/22 • 510-287-0214**

Engineering analysis to focus on several Influent Pump Station elements: seismic retrofit design, power supply vulnerabilities, hydraulic performance, aging/obsolete equipment, and sequencing of construction of these elements during active operation.

*Professional and General Services continued on back cover...*

# Upcoming Contract Opportunities

## Professional and General Services *(continued)*

Latest information: [www.ebmud.com/business-center/requests-proposal-rfps/](http://www.ebmud.com/business-center/requests-proposal-rfps/)

### Main Wastewater Treatment Plant (MWWTP) Capital Improvement Projects for FY22/23 - SD-439

**\$3,500,000 • Proposed Due Date: 4/29/22 • 510-287-1280**

Engineering services to supplement District staff for design, bidding, and construction support, for upgrades at the MWWTP including equipment replacement for the grit dewatering Building, drainage improvements for the secondary reactors and galleries, plant washdown water (3W) system improvements, concrete repairs at the wet weather storage basins, and miscellaneous painting/coating.

### Camanche Dam and Pardee Dam Seismic Study

**\$500,000 • Proposed Due Date: 5/9/22 • 510-287-1158**

Evaluate the seismic sliding stability of the Pardee Dam due to the earthquake fault rupture hazard of the Foothills Fault System, and the seismic stability of several components of the Camanche Dam and Pardee Dam Spillways.
