

Qualifying High-Efficiency Sprinklers and Nozzles

Where can I buy irrigation equipment?

The best place to find efficient irrigation products with water conservation options and accessories is at an irrigation distributor. For better assistance, identify yourself as an EBMUD customer when you contact distributors. Visit lawntogarden.org/marketplace for a comprehensive list of irrigation equipment supplies.

Note to rebate applicants:

Email waterconservation@ebmud.com with the manufacturer name, model name, model number or sku information for consideration if they are not already included in this list.

Note:

If you believe your product qualifies to be on EBMUD's lists of qualified irrigation products please e-mail waterconservation@ebmud.com. Include manufacturer name, model name, model number or sku information, and precipitation rate (<1"/hr) for consideration if they are not already included in this list.
