2022 ENVIRONMENTAL DOCUMENT FILING FEE
CASH RECEIPT
DFW 753.5a (REV. 01/01/22) Previously DFG 753.5a

NOTICE

Each project applicant shall remit to the county clerk the environmental filing fee before or at the time of filing a Notice of Determination (Pub. Resources Code, § 21152; Fish & G. Code, § 711.4, subdivision (d); Cal. Code Regs., tit. 14, § 753.5). Without the appropriate fee, statutory or categorical exemption, or a valid No Effect Determination issued by the California Department of Fish and Wildlife (CDFW), the Notice of Determination is not operative, vested, or final, and shall not be accepted by the county clerk.

COUNTY DOCUMENTARY HANDLING FEE

The county clerk may charge a documentary handling fee of fifty dollars (\$50) per filing in addition to the environmental filing fee (Fish & G. Code, § 711.4, subd. (e); Cal. Code Regs., tit. 14, § 753.5, subd. (g)(1)). A county board of supervisors shall have the authority to increase or decrease the fee or charge, that is otherwise authorized to be levied by another provision of law, in the amount reasonably necessary to recover the cost of providing any product or service or the cost of enforcing any regulation for which the fee or charge is levied (Gov. Code, § 54985, subd. (a)).

COLLECTION PROCEDURES FOR COUNTY GOVERNMENTS

Filing Notice of Determination (NOD):

- ☐ Collect environmental filing fee or copy of previously issued cash receipt. *(Do not collect fee if project applicant presents a No Effect Determination signed by CDFW. An additional fee is required for each separate environmental document. An addendum is not considered a separate environmental document. Checks should be made payable to the county.)*
- ☐ Issue cash receipt to project applicant.
- ☐ Attach copy of cash receipt and, if applicable, previously issued cash receipt, to NOD.
- ☐ Mail filing fees for **CRP** document to CDFW prior to filing the NOD or equivalent final approval (Cal. Code Regs. Tit. 14, § 753.5 (b)(5)). The CRP should request receipt from CDFW to show proof of payment for filing the NOD or equivalent approval. Please mail payment to address below made attention to the Cash Receipts Unit of the Accounting Services Branch.

If the project applicant presents a **No Effect Determination** signed by CDFW, also:

- ☐ Attach No Effect Determination to NOD *(no environmental filing fee is due)*.

Filing Notice of Exemption (NOE) *(Statutorily or categorically exempt project (Cal. Code Regs., tit. 14, §§ 15260-15285, 15300-15333))*

- ☐ Issue cash receipt to project applicant.
- ☐ Attach copy of cash receipt to NOE *(no environmental filing fee is due)*.

Within 30 days after the end of each month in which the environmental filing fees are collected, each county shall summarize and record the amount collected on the monthly State of California Form No. CA25 (TC31) and remit the amount collected to the State Treasurer. Identify the remittance on Form No. CA25 as "Environmental Document Filing Fees" per Fish and Game Code section 711.4.

The county clerk shall mail the following documents to CDFW on a monthly basis:

- ✓ A photocopy of the monthly State of California Form No. CA25 (TC31)
- ✓ CDFW/ASB copies of all cash receipts (including all voided receipts)
- ✓ A copy of all CDFW No Effect Determinations filed in lieu of fee payment
- ✓ A copy of all NODs filed with the county during the preceding month
- ✓ A list of the name, address and telephone number of all project applicants for which an NOD has been filed. If this information is contained on the cash receipt filed with CDFW under California Code of Regulations, title 14, section 753.5, subdivision (e)(6), no additional information is required.

DOCUMENT RETENTION

The county shall retain two copies of the cash receipt (for lead agency and county clerk) and a copy of all documents described above for at least 12 months.

RECEIPT NUMBER

- # The first two digits automatically populate by making the appropriate selection in the County/State Agency of Filing drop down menu.
- # The next eight digits automatically populate when a date is entered.
- # The last three digits correspond with the sequential order of issuance for each calendar year. For example, the first receipt number issued on January 1 should end in 001. If a county issued 252 receipts for the year ending on December 31, the last receipt number should end in 252. CDFW recommends that counties and state agencies 1) save a local copy of this form, and 2) track receipt numbers on a spreadsheet tabbed by month to ensure accuracy.

DO NOT COMBINE THE ENVIRONMENTAL FEES WITH THE STATE SHARE OF FISH AND WILDLIFE FEES.

ATTACHMENT A

2022 Summer Water Transfer from Yuba Water Agency (YWA) to East Bay Municipal Utility District (EBMUD)

Project Description

Due to the Public Health & Safety CVP allocation in 2022 and dry conditions continuing in 2022, EBMUD is pursuing water transfers in 2022. On January 11 2022, a three-way agreement between YWA, Contra Costa Water District (CCWD), and EBMUD (Option Agreement) was approved by the Board and executed, which includes the potential to offer EBMUD and CCWD 15 thousand acre feet (TAF) or more transfer water in the spring (Spring Water) and 10 TAF or more transfer water in the summer (Summer Water). Summer Water would be available to transfer from YWA starting July 1, 2022 through September 30, 2022.

Under the proposed temporary water transfer (“Project”), YWA would release up to 10,000 acre-feet (AF) of Summer Water from New Bullards Bar Reservoir into the Yuba River for transfer to EBMUD from July 1, 2022 through September 30, 2022. The transferred water is made available through YWA’s instream flow requirements described in the Yuba Accord Fisheries Agreement and included in YWA’s water rights as part of the State Water Resources Control Board (SRWCB)’s implementation of the Yuba Accord. The transfer water would be conveyed through the Feather and Sacramento Rivers to the Sacramento-San Joaquin Delta where it would be diverted by EBMUD at the Freeport Regional Water Authority intake (Freeport Intake) on the Sacramento River. The quantity of diverted would be the released amount from YWA minus any carriage losses. After diversion at the Freeport Intake, the exchanged water would be conveyed through the Freeport Regional Water Authority’s joint pipeline, the lower reach of the Folsom South Canal, EBMUD’s Folsom South Canal Connection pipeline, and EBMUD’s Mokelumne Aqueducts to EBMUD’s service area (see Figure 1).

Project Location

The Project Location consists of the transfer pathway of the Yuba Summer transfer. The transfer begins in YWA service area through release at New Bullards Bar Reservoir to the Marysville Gage (“Point of Release”), to the Feather River downstream of Marysville Gage. The water continues to travel in the Sacramento River downstream of the confluence with the Feather River to the Freeport Regional Water Authority (FRWA) intake on the Sacramento River. The transfer water travels through EBMUD/FRWA existing facilities to the Folsom South Canal and EBMUD’s Mokelumne Aqueduct system where it is delivered to EBMUD’s service area (Alameda, Butte, Contra Costa, Sacramento, San Joaquin, Sutter, and Yuba counties, see Figure 1).

Purpose

On April 27, 2021, EBMUD's Board of Directors declared a continuing water shortage emergency within EBMUD's service area, declared a Stage 1 critical drought, adopted a voluntary District-wide water use reduction goal of 10 percent, and declared the need to use the Freeport Project to deliver supplemental supplies to EBMUD's service area. January and February 2022 were the driest January and February on record in the Mokelumne River watershed. EBMUD continues to experience dry hydrology into 2022, prompting the need to secure supplemental supplies. In January 2022, under Board Motion No. 016-22, the Board approved a one-year water transfer agreement with CCWD and YWA which allows EBMUD to purchase Summer Water from YWA under the Yuba Accord. This Project supports EBMUD's Long-Term Water Supply Strategic Plan goal.

Schedule

The transfer is scheduled to begin in July 2022 and be completed by the end of September 2022.

Approvals

Reclamation approval of a Warren Act contract with EBMUD for storage and conveyance of transfer water through the federally owned Folsom Reservoir and Folsom South Canal.

Public Impacts

No construction activities will be required, and no public impacts are anticipated. Water users within EBMUD's service area will benefit from the increased water supply provided by the Project.

Bases of Exemption

The Project is exempt from the requirements of CEQA on a number of bases:

- 1) Public Resources Code section 21080(b)(4) and CEQA Guidelines Section 15269(c): This project involves specific actions necessary to prevent or mitigate the drought emergency.
- 2) Categorically exempt under Section 15301 for Existing Facilities: Each proposed transfer will not involve any construction or major alteration of facilities. Conveyance of the transferred CVP water would instead occur entirely through existing facilities and would not exceed the normal capacity of those facilities. The exceptions set forth in Section 15300.2 do not apply.
- 3) Categorically exempt under Section 15304 for Minor Alterations: This project involves a minor alteration to the condition of water.
- 4) "Common Sense" exemption under CEQA Guidelines Section 15061(b)(3): There is no possibility of this project having a significant effect on the environment since the water will be conveyed through existing facilities and will not exceed the normal capacity of those facilities.
