ERRATA NOTICE

ORDER APPROVING REVISED EXHIBIT A AND REVISING ANNUAL CHARGES
(Issued April 1, 1994)

The order issued April 1, 1994, approved revised exhibit A and revised annual charges. Paragraph no. 2 and footnote no. 2 of the order are incorrectly stated. This notice will revise the paragraph no. 2 and the footnote no. 2 to state as follows:

In the filing, the licensee stated that the turbine and generator nameplate capacities are 1,080 kW higher than the capacities authorized in the license¹ because turbine and generator manufacturers optimized the units for conditions at the sites. In addition, the licensee stated that the hydraulic capacity of the project has not changed from the original license.

² For annual charges purposes, installed capacity measured in kilowatts is converted to horsepower by dividing by 0.7457.
