## **EBMUD's Recycled Water Program**

**Ben Glickstein– EBMUD Community Affairs Representative**  
**Nelda Matheny, Managing Horticulturalist of HortScience Bartlett Consulting**

*Wondering how to use recycled water in the landscape?*

On Monday, May 20, 2019 Ben Glickstein, EBMUD Community Affairs Representative, and Nelda Matheny, Managing Horticulturalist of HortScience | Bartlett Consulting will present on using recycled water in the landscape. Join us to learn about EBMUD's Water Recycling Program, the water recycling process and the benefits and best management practices for irrigating with recycled water. EBMUD's Recycled Water Master Plan which outlines the goals, priorities and customer support for the distribution of recycled water in Oakland, Emeryville, Berkeley, Albany, Alameda, San Ramon, and Danville will also be covered.

Ben Glickstein is an EBMUD Community Affairs Representative. Ben conducts trainings on recycled water throughout the East Bay. Ben previously conducted community outreach for the San Francisco Public Utilities Commission and the Santa Clara Valley Transportation Authority. Ben holds a bachelor's degree in Anthropology from Macalester College in St. Paul, Minnesota.

Nelda Matheny is the Managing Horticulturalist of HortScience | Bartlett Consulting. She has over 35 years of experience in horticulture, arboriculture and urban forestry in the San Francisco Bay Area. Nelda specializes in soil and water quality assessment, plant problem diagnosis, and landscape management. She has particular experience in assessing and managing sites irrigated with recycled and desalinated water. Nelda has coauthored six technical books and is currently finalizing the long-awaited *Designing and Managing Landscapes Using Recycled Water* with Larry Costello under the direction of Eric Hansen and WateReuse.
