

Landscape Rebate Program Application

Offer valid between July 1, 2020 and December 31, 2020.

Eligibility

- Rebates are reserved for landscaped areas currently irrigated by an active potable EBMUD water service.
- EBMUD rebates are subject to terms, conditions, and available program funding. Please read the entire application carefully.
- Rebates are issued as credits applied to the EBMUD water service account and may take up to 8 weeks to process.
- Combined lawn conversion and irrigation equipment rebates will be issued together whenever possible.
- Maximum rebate amounts within a 24-month period are \$2,000 for residential properties up to 4 units, and \$15,000 for commercial and multi-family properties over 4 units.

Return completed form to: waterconservation@ebmud.com or
EBMUD Landscape Rebate Program, P.O. Box 24055, MS 109, Oakland, CA 94623-1055

Tax Notice

All residential rebates that, individually or in combination, total \$600 or more in a tax year require submittal of a W-9 form to the District prior to payment. All personal information provided within the W-9 will be kept confidential in accordance with the Privacy Act. If your total rebate amount is \$600 or more, you will receive a 1099 form to comply with Internal Revenue Service requirements. The determination of whether your rebate is taxable or not may depend on several variables; you are recommended to contact your tax professional for more information.

Agreement

I, the undersigned, understand that this is a limited, first-come/first-served program and that EBMUD is entitled to deny any application that does not meet program requirements. I have voluntarily determined to participate in EBMUD's Landscape Rebate Program. I have independently selected materials, supplies and labor for the purpose of performing the installation. I agree that all work performed will comply with applicable federal, state, and local laws, ordinances and regulations. I agree that EBMUD may visit the premises and verify existing conditions and that the work has been performed. By virtue of these inspections, I understand that EBMUD makes no determination with respect to whether materials and equipment are free of defects, the quality of the workmanship, or the suitability of the premises or the materials or equipment for the installation. I also understand that the installation of irrigation equipment and landscape materials may not result in lower water bills. If this Application is approved by EBMUD and the work proceeds, I agree to defend, indemnify and hold harmless EBMUD, its directors, officers, agents and employees against any and all loss, liability, expense, claims, suits and damages, including attorneys' fees, arising out of or resulting from the installation of irrigation equipment and landscape materials.

Please provide Property Owner signature and Applicant signature (if Applicant is not Property Owner) to process rebate application.

Efficient Irrigation Equipment Requirements

Rebate amounts are limited to the price of the equipment alone and do not include labor and taxes. Purchase receipts or contractor's invoices must list the unit price for each piece of equipment.

Pre-approval is always required for drip irrigation, rebates over \$200, and commercial projects. For rebates under \$200, residential applicants may install irrigation equipment prior to approval if the following is provided:

- Receipt(s) showing that the purchase of the equipment is within 90 days of the application submit date.
- Photos of the existing equipment to be replaced.

Rebate	Eligibility	Estimated Rebate	Rebate Requirements
Self-Adjusting Controller		Qty.	Up to
Replace conventional irrigation controller with self-adjusting models	<input type="checkbox"/> On EPA's WaterSense-labeled controllers list <input type="checkbox"/> 2 or more active stations	Self-adjusting controller _____ Number of active stations above 12 _____	Est. Rebate \$75 each \$ _____ \$7 each \$ _____ Subtotal \$ _____
			Provide photos/screenshots of the following: <input type="checkbox"/> Old conventional controller <input type="checkbox"/> New controller installed per manufacturer specifications <input type="checkbox"/> Irrigation schedule adjusted to local weather <input type="checkbox"/> Number of stations in use
